Does Radium Kick Back? The New Flying Machine How Much for an Eye? When Asia Marches West

—By Arthur Brisbane—

Copyright, 1921.

Dr. Hutchison, exhibiting a model of the gun expected to shoot a ten thousand pound shell three hundred miles, sent a bullet from his little gun through a steel plate held against the muzzle. Apparently there was no "kick" in the gun. Scientists say "impossible, action and reaction must be equal." Power forward, they say, must be accompanied by power backward. The little boy diving must kick back against the bank whence he dives.

Will scientists, with their action and reaction, answer these questions: What about radium? Does it kick back, as it shoots its particles into space 186,000 miles to the second? There, certainly, appears to be action without reaction. Or does every ultramicroscopic radium particle give a kick back as it starts off?"

The expected new thing in flying machines appears to have been found. It is the invention of a German named Hanuschk, an improvement of the helicopter. The construction enables it to rise straight in the air with no slant. The German machine now tested at the Hague is said to travel 312 miles per hour. It would cross the Atlantic Ocean comfortably by daylight in one day and go around the world by daylight in about eight days. That will not seem very fast, in years to come, but it sounds rapid now.

Inevitably the present clumsy type of flying machine, wide, flat sails resting on the air, will be done away with. Men do not imitate nature, they improve on nature.

The locomotive is far different from the running deer and faster. The screw that moves our boats is a great improvement on the fins and tail of the fish. The real flying machine, when it comes, will be as different from birds, with clumsy, outstretched wings, as the locomotive from the galloping horses.

How much would a man charge for one eye, how much for both? You may soon know.

Professor Kolmer of Vienna has successfully transplanted to blind animals good eyes taken from living fish and rats. And the blind animals see, with eyes transplanted.

The work is now done without the use of silk stitches, which formerly destroyed the nerves. Professor Kolmer will next experiment with rabbits, then with monkeys.

If eyes can be successfully transplanted in apes, which seems doubtful, the same thing undoubtedly could be done with human beings.

A rich blind man of New York for years offered a million to anybody that could restore his sight. The method probably would be to buy one eye from one man and another eye from another man.

In China, in old days at least, a man condemned to death could easily hire as substitute some dutiful son who would give the money to his mother, then go out to be beheaded.

It is conceivable that many eyes would be for sale at a price. Many eyes, legs and arms also were given free to Uncle Sam in the war, and the hand is as yet shown any striking gratitude.

The world is not tired of fighting, apparently. More war is expected between Germans and Poles, after the Poles manage it, with their paper money worth about as much as the unprinted paper, is hard to understand.

More serious is the situation at Constantinople. The British fleet has been sent to the Dardanelles in expectation of an Asiatic attack, backed up by Russian Bolshevism, which, as the Allies have learned, is not easily handled.

Russia once stood, like a great unconquerable feather bed, between Asia and Western Europe. And Germany, a wall of steel bayonets, once stood between Russia and the thin strip of civilization along the European Atlantic coast.

Now, since the armistice, Germany's wall of steel has been torn down. The Allies, endeavoring to collect debts from Russia, have made her a bitter enemy.

When next the hordes of the East come marching West, as they have done at intervals throughout history, Russia will welcome the Asiatics and help them on to fight what Lenin calls "capitalistic Europe." And Germany, not being able to say anything else, will say, "March on through, the roads are open. I am disarmed and forbidden to fight, you or anybody."

In the old days Asia marched against Europe, mounted on little ponies, armed with spears and bows and arrows, eating up the country, locust-like, as it came.

The next Russian invasion will come in flying machines through the air, along the ground with tanks and armored automobiles, armed with machine guns and cannon. That may make a difference, and the United States, easily struck on its western coast by flying machines crossing the Pacific on freight ships, should keep its eyes and mind open.

DE VALERA SUBMITS TERMS

Presents Reply to Lloyd George to Dublin Conference; Unionists Favorable

Belfast, July 8.—The seat of Irish violence has apparently been shifted from the south to Ulster province, and many casualties were reported today in battles. Firing broke out in the Belfast district while Crown forces were searching for arms, and a woman was killed and a constable wounded. It was rumored that a number of Sinn Feiners were killed and their bodies removed secretly.

By International News Service.

Dublin, July 8.—The draft of a letter from Eamon de Valera to Premier Lloyd George, reciting the conditions upon which the President of the Irish Republic would go to London to attend a peace parley, was submitted to the Sinn Fein-Unionist conference here today.

It was understood that the Unionists agreed to the main points of the letter during the morning session. The meeting was said to be harmonious and the opinion was expressed by those close to the conferees this afternoon that "all goes well with the peace movement."

Sinn Feiners and Unionists alike were cheered by thousands as they arrived at the City Hall, where the meeting was held. There was much

15 Babies Killed by Heat in Detroit

By International News Service.

Detroit, July 8.—That fifteen babies have died in Detroit in the last five days because of the excessive heat, was the statement of Dr. George T. Palmer, city epidermiologist, today. Two deaths were from heat prostrations and thirteen from digestive disturbances caused by the heat.

Two more men died from the heat in Detroit Thursday and today, and the hot weather is said by the police to have caused one suicide and one attempt at suicide.

Five other persons seeking relief in rivers and lakes around the city were drowned. The highest temperature Thursday was 92 at the United States weather station.

$39,000 IN FEES FOR ACTRESS

Chicago Court Allows Peggy Hopkins Joyce But Small Part of What She Asked

Chicago, July 8.—Peggy Hopkins Joyce was today awarded $1,350 a month temporary alimony and $39,500 for attorneys' fees and courtroom expenses to fight her husband's divorce suit.

"Million Dollar Peggy," movie star, was reported as greatly disappointed by Judge Sabath's "stingy" award.

She had asked for $10,000 a month allimony and $100,000 for court expenses in her battle to prevent J. Stanley Joyce, millionaire lumberman, from divorcing her.

Joyce, who has declared he spent nearly $1,000,000 for clothes, autos and jewelry for Peggy in a comparatively short time, was reported as very well satisfied.

Her friends here said today that "Peggy could afford to wait," evidently confident that she would get a large sum from Joyce before the trial was over.

When her husband first moved for a divorce she was quoted as saying that "he could have his freedom for $1,000,000, but not a penny less."

Joyce, Western millionaire "doing" Broadway, married Peggy Hopkins in 1920, after he had become captivated by her acting in "A Sleepless Night."

Joyce admitted that at the time he was very much in love with her. But has somewhat scornfully stated that she married him because he kept following her around" and she accepted him to get rid of him.

New Plymouth Route Saves Seven Miles

Two important State highway improvement projects, opening up through routes in great favor with motorists, were completed today.

One is from Boston to Plymouth, by way of Hanover. It is practically free from dangerous curves and is seven miles shorter than the shore route.

The other is the Newburyport turnpike. There remains a short detour at South Lynnfield through Peabody, but the detour is in good condition.

Reconstruction of the oBston-Lowell and has begun at Winchester. There are several alternative routes, the best of which is through Lexington and Bradford.

LINERS GROUND, YAWL SUNK IN FOG

Dense billows of fog rolling in from the Atlantic caused the sinking of one vessel and the stranding of at least two others in Boston harbor and Massachusetts Bay today.

A pleasure ferry sailing and for a time paralyzed harbor traffic as well as service on the Narrow Gauge Railroad to Lynn, Revere and the West Lynns.

Blinded by the mist, the auxiliary fishing yawl Annie of Provincetown, bound from the fishing grounds for the fish pier, crashed into the side of the Merchants' steamboat Old Colony near the end of Long Island.

Almost the same time the Santasket, sister boat of the Old Colony, while making the 7:10 trip from the bases to Boston, ran on the reef flats below Governor's Island. The soft bottom, however, allowed her to slide into deep water before her hundreds of passengers realized what had happened.

The United Fruit liner Nacam bound for Boston with a cargo of sugar from

JOHN D. PLAYS GOLF ON 82ND BIRTHDAY

Tarrytown, N. Y., July 8.—Although John D. Rockefeller was eighty-two years old, today, no celebration marked the anniversary.

The world's richest man spent his day in the usual way, playing his customary game of golf during the morning.

Mr. Rockefeller is enjoying good health despite the heat, some of the effects of which he counteracts by having attendants hold an umbrella over him while he rounds the links.

DESERTION CITED BY DANCER

Former Grayce Murphy Says Russell Winslow Left Her 2 Months After Wedding

Worcester, July 8.—Mrs. Grayce A. Murphy Winslow, former professional dancer, gave Worcester society its second jolt today when she began suit for divorce from Russell Winslow, son of Congressman Samuel E. Winslow, millionaire manufacturer.

She charges desertion and says Winslow has not lived with her since about two months after their marriage.

Mrs. Winslow has been living in New York, and her friends suppose that she has been supporting herself by dancing.

BAD DANCING PARTNER

Before marriage she was dubbing partner to "Danny" Duggan, champion exhibition dancer of New England.

Her marriage to Winslow, one of one of the wealthiest and most aristocratic families in Worcester County, was the first shock she gave the socially elite.

It had been generally rumored that she was going to marry Duggan, her dancing partner.

At that time she made light of the opposition of her husband's relatives.

She scorned to make overtures to Congressman Winslow, her father-in-law, a millionaire skate manufacturer, and said she had not married young Russell for his money.

This stand she still maintains apparently, for in her divorce action she

BLAMES PULLMAN DEFECT FOR COLD

Worcester, July 8. The Pullman Company of Boston is defendant in an unusual $5,000 suit, filed in Superior Court by Nathan Jasem of Worcester, who claims that because of a defect in a Pullman car in which he was a passenger December 7, 1920, he suffered a severe cold, which later developed into bronchitis.

An alleged opening at the side of his berth is the defect claimed.

TRAIN BLOWN UP NEAR DUBLIN

Dublin, July 8.—A number of passengers were seriously wounded when a Dublin-Cork passenger train was bombed four miles from this city this afternoon. There were no soldiers on the train.

1,000 GREEKS REPORTED KILLED IN BATTLE

Paris, July 8.—More than 1,000 Greeks were killed and many more wounded in battle with the Turkish Nationalists in the sector south of Menderes (Anatolia), according to a communique received here today from Angora.

FOILS ATTEMPT TO LOOT GOLF HOUSE

What may have been an attempt to rob the Williston Golf Club, in Quincy was frustrated today when a truck, which it is believed was to have been used to carry away the loot, was wrecked.

The truck, operated by a milkman, was left standing in front of the club while the driver went to deliver milk. When he returned it was at the bottom of an embankment, against a tree.

The engine was not running, and it is believed the robbers, in pushing it away from the club before starting the engine, got it too close to the embankment.

ESPERANTO STILL AT SEA BOTTOM

Halifax, N. S., July 8.—C. H. Harvey, marine and fisheries agent, received a radio from the superintendent at Sable Island that the salvers were still at work and there was no change in the Esperanto's position.

OFFICER IS FLAYED BY COURT

"Brutal and Unprovoked," Says Judge Connolley in Passing Sentence on Nesky

"This is the most brutal and unprovoked assault that ever has come to the attention of this court and I therefore find Patrolman Edward J. Nesky, of the Brighton force, guilty of assault and battery upon Patrick A. Collins and sentence him to pay a fine of $50."

Judge Connelly of the Brighton District Court today delivered the above sentence after summing up the evidence presented in the trial of Nesky on an assault and battery charge brought by Collins, who lives in Newton.

Evidence of a flatly contradictory nature was given by the officer when called in the case, which followed the clearing of the policeman by the police trial board which investigated the charge.

The assault took place in a North Brighton street car on May 29. According to the story told by witnesses, Nesky, out of uniform, was riding in the car when Collins lurched against him. Nesky witnesses said the Newton man struck the officer in the face and later bit his finger.

Witnesses for Collins said that Nesky did the striking and also that the policeman had beaten Collins over the head with a revolver. Nesky admitted striking Collins with the butt of his weapon, but insisted he had done so to free Collins to release the grip his teeth had on Nesky's forearm.

"This is a clear case of assault and a particularly brutal one at that," said the court today, repeatedly. "There is no question that Nesky assaulted Collins; the testimony is otherwise totally against the officer."

Representative John J. Hefferan represented the government and Attorney D. W. Corcoran appeared for Nesky.

PROTESTS BUYING AUTOS WITHOUT BIDS

Lawrence, July 8.—Protest was made today by President J. Herbert Hunter and Secretary George R. Fix of the Chamber of Commerce to Mayor William P. White against the continued situation of the city charter by members of the City Council in the purchase of automobiles without bids.

RETURN PURSE, REFUSE REWARD

Daniel Shea and John Powers, employes of the Malden water department, worked for more than an hour to recover a woman's pocketbook from a manhole in Malden square. They returned it to Mrs. Fessie W. Jones, the owner, and would accept no reward, saying they had only done what was right.

EINSTIEN FINDS U. S. IS STRICKEN BY 'INTELLECTUAL POVERTY'

SAYS MEN PLAY DOGS OF WOMEN

Professor Found Receptions to Him Comical; Struck by Boredom in America

By KARL H. VON WIEGAND, Boston American Staff Correspondent.

Special Radio Dispatch.

Berlin, July 8.—To some ourselves as others see us is always interesting. Even if it is not always flattering. This fact is again exemplified in what Professor Albert Einstein has to say today upon his return from America, on the "exaggerated enthusiasm" which he declares was shown him in the United States.

The famous discoverer of the theory of relativity, which still remains more than relatively incomprehensible to ordinary mortal minds, said:

"The exaggerated enthusiasm for me and my work struck me as being a genuinely and peculiarly American phenomenon. If I understand aright, it was due largely to the fact that people over there are tremendously bored, far more so than in the case with others.

Professor Einstein, in an interview in the Rotterdam Courant, is quoted as saying that what he found of interest people in America and save them from general boredom.

WOMEN DONATE GAIETY.

"Of course," says the scientist, "New York, Boston, Chicago and other big cities have their theatres and concerts—but otherwise it is as if there are cities with a million population, but cities suffering from extreme poverty—poverty of intellectual things.

"Something, like the theory of relativity, for instance, is given them with which they can play. They enthuse, become excited; they argue and discuss with tremendous intensity.

"Another thing I observed is that women dominate the entire life of America. The men's interest themselves in nothing except work. They think of nothing but work. And to such an extent I have never seen elsewhere.

"As for the rest of the men, they are hunting for the favor of the women who spend their money in a reckless manner and sell themselves in a mist of evil surroundings.

"They do everything that is in vogue—that is the fad of the passing moment. In that way they throw themselves upon the Einstein theory.

FRANK EXPRESSION.

"Did it make a ridiculous impression upon me to observe their excitement over a theory of which they certainly understood nothing? In truth I found it comical, at the same time it was interesting to watch all these people.

"I firmly believe that it was the very mysteriousness of the idea which they could not grasp that enchanted them."

When asked for his impressions of the scientific life of America, Einstein declared that he had met extraordinarily meritorious people, as he mentioned especially Professors Nicholson and Milliken of Chicago.

"But it would be unfortunate," declared, "to compare the general scientific life and knowledge of America with that of Europe, just as the general life of Europe cannot be compared with that of America. They are two wholly different worlds."

IMPRESSED BY PRINCETON.

Professor Einstein spoke feelingly of the deep impression that had been made upon him by science in England.

"In England," he said, "what scientific work is done, what flair it has far more intensive than in Germany. Also much pleasanter."

Professor Einstein was greatly pleased with Oxford. "But I also found Princeton in America beautiful," he said.

"I believe that much can be expected from the next few decades. Even if intellectual life now plays no role whatever over there, there is a younger generation which is trying to elevate the intellectual level, and their efforts will certainly succeed, for whatever is understood and cultured in America is carried out."

In conclusion, Professor Einstein handed on boundless the Dutch. "Holland has but one-tenth of the population of England, but so far as scientific creative power is concerned, it comes a close second to England."

COURT ORDEAL TOO MUCH FOR TYPIST

Miss Anne Ruslig, Back Bay typist, charged with larceny from the Motors Corporation of New England and from a Newbury st. lady, has collapsed, and is under medical care at her home, No. 833 Beacon street.

She was to have been tried next Monday on a charge of theft from the landlady. On the charge involving the Motors Corporation she was bound over to the Grand Jury. On a third charge of forgery, Miss Ruslig is held in $500 bail by Municipal Court.

When arraigned she declared she had inherited considerable money and would use it to clear herself.

TOOK POISON

Irene Kelly, 15-year-old Dorchester girl who tried suicide when threatened with separation from sweetheart.

"Death is better than life without Ralph."

That's what fifteen-year-old Irene Kelly of Dorchester moaned to doctors and nurses at the City Hospital today when she realized that her effort to kill herself by chewing poison tablets last night probably would fail and that she would recover.

Ralph Cassidy, twenty years old, of No. 4 Harrison Park, Dorchester, the girl's sweetheart, laid the blame for the attempted suicide on the shoulders of the girl's mother.

Mrs. Kelly insists that Irene sought death because Ralph jilted her, but admits that she had stoutly opposed all talk of marriage between her daughter and young Cassidy.

Irene, living white-faced and scared in the hospital ward, whispered weakly today that she still loved Ralph and that all she wants is to become his wife.

Her effort to die followed a heated quarrel between herself and her mother and sister, in which the older woman laid down as final her command that the girl give up hope of becoming Cassidy's bride "without waiting at least a couple of years."

Irene left home at No. 15 Leedsville street, and walked to the house of Cassidy. For an hour or more they talked over the situation and then her sister appeared and insisted that she return home. Irene refused and the sister threatened to get a policeman. Not until then did Irene relent. She went a little way with her sister, then turned back, running until she was alone in front of the Cassidy home. There she stuffed her mouth full of poison pellets.

Her action was seen by Mr. and Mrs. Cassidy, who called Dr. Joseph J. Sweeney, No. 1 Harrison park, who administered first aid and rushed the girl to the City Hospital.

"I love Irene better than my life," said Ralph today, "and if her mother will let us I'll marry her in the hospital as soon as she's strong enough."

MINERS' CHIEF GETS 6 MONTHS JAIL TERM

Howat and Associate Sentenced for Violation of Industrial Law in Kansas

By International News Service.

Columbus, Kas., July 8.—Alexander Howat and August Dorchy, district president and vice-president, respectively, of the United Mine Workers, were sentenced to six months in jail and fined $500 each by Judge Frank Boss today.

They were found guilty by a jury of violation of the Kansas industrial law in calling a strike in the Mackie coal mines.

Both were released on $4,000 bonds pending an appeal to the Supreme Court.

GLEAVES INSPECTS PORTSMOUTH YARD

Portsmouth, N. H., July 8.—Rear Admiral Albert Gleaves, commandant of the First Naval District of Boston, accompanied by his aides, Captain W. K. Wortman and Lieutenant D. W. Hamilton, arrived at the Navy Yard and was received with the customary honors. The object of the visit was a general inspection of the reservation, especially the naval prison, which has just been put under the management of the United States Marine Corps.

OWNERS NOTIFIED TO QUIT BUILDINGS

Some of the property owners affected by the Stuart street extension plan will receive orders next month to vacate their premises. Property owners at the Huntington avenue end of Stuart street will not get such orders until next Spring, however, which means that the Copley Theatre, the Hotel Oxford and several apartment houses may be occupied through the Winter.

CHARGES WIDOW FED KABER POISON

Housemaid Testifies Accused Woman Said She "Could Fix" Husband

Cleveland, O., July 8.—Testimony to tighten the chain of evidence, drawing Mrs. Catherine Eva Kaber closer to the fatal electric chair, was introduced by the State today at the trial of the widow charged with plotting the murder of her husband, Daniel Kaber, wealthy Cleveland publisher.

The damaging admissions were made by Miss Emma Wagner, formerly a maid in the Kaber household.

Mrs. Kaber told me her husband was terrible to her and when I asked why she didn't get a divorce, she said: "You don't think I want to lose all his money, do you?"

Then she said:

"There's a way I can fix it without losing any of the money."

The woman sitting in a listless attitude with her chin resting on her hands, did not raise her eyes as the maid told of Mrs. Kaber feeding her husband food and candy, which caused violent convulsions.

Statements of the maid and Miss Chrystal Benner, a nurse, strengthened the State's charge that the accused woman attempted to poison her husband before she hired assassins to murder him, and that she had sprinkled arsenic on food and candy fed Kaber, a bed-ridden invalid, for three months before his death.

According to the maid, Mrs. Kaber and her husband had frequent quarrels.

Once, she witness testified, she heard Mrs. Kaber say to her husband, "If there is a God he will make you suffer before you die."

LEGION HOSPITAL PLANS APPROVED

Washington, July 8.—"Out of the poor houses by Christmas," is the slogan adopted by the national hospitalization and rehabilitation committee of the American Legion as the result of several days' of Treasury Mellon's approval of the program for immediate expenditure of $18,000,000 for the construction of hospitals.

The committee has adopted resolutions thanking Secretary Mellon for his cooperation and at the same time attempted to lay the foundation for a row with Director Forbes. The committee believes that when the present building program is completed, at the October level, there will be needed for 5,000 hospital beds.

FIRE PERIL UNDER "L" STRUCTURE

Scattered newspapers and other debris of an inflammable nature underneath the crack work of the Boston Elevated structure on Washington street between Warren and Washington streets, Roxbury, is likely to cause a serious fire, it was learned today.

Deputy Fire Chief Daniel F. Sennott of the Roxbury district, who is in charge of the Roxbury section, has made several complaints to the Boston Elevated officials regarding the removal of the debris. He declares his requests have fallen on deaf ears.

WALL COLLAPSE IN FLAMES KILLS MAN

Atlanta, Ga., July 8.—One man was injured, probably fatally, and another is believed to have been killed outright when a wall of the Dixie Paper Company's warehouse here collapsed today as the structure was burning. The injured man, W. R. Pearce, a fireman, was buried under the debris. The other man, whose identity is unknown, is believed to have been crushed to death.

GIVEN 20 YEARS FOR SLAYING BABY

Providence, July 8.—Asserting that the conviction of George Riendeau of Central Falls for the murder of his two-months-old baby and the acquittal of his wife on a similar charge in the Rhode Island Assistant Attorney General Capotosto permitted Riendeau to enter a plea of guilty to second degree murder and he was sentenced to twenty years in State prison. The plea was accepted only because unwelcome to both parents.

TWO INJURED BOYS AT CITY HOSPITAL

Two boys were taken to City Hospital following accidents. Samuel Novick, nine years old, of No. 43 Norwood street, Dorchester, was hit on the head with a baseball bat while at play. Thomas R. Lombard, five years old, No. 2 Sixth street, South Boston, suffered head abrasions and possible fracture of the skull when he was jarred from the rear end of a trolley car on which he was stealing a ride.

PITTSFIELD CHURCH TO COST $300,000

Pittsfield, July 8.—To commemorate the 150th anniversary of the First Baptist Church in this city, plans have been accepted for the erection next year of a new edifice at a cost of $300,000, which has nearly all been subscribed. Rev. Maurice A. Levy is pastor of the church.

FALLS DEAD FROM YACHT INTO RIVER

New London, July 8.—While working on his sloop yacht Grace, at Noank, Seth Shepard, thirty-three years old, of Washington, a lawyer, dropped dead, his body falling into the Mystic River. He was the son of Chief Justice Shepard of the Court of Appeals.

DUNN DRY AGENT FOR RHODE ISLAND

Washington, July 8.—Appointment of State prohibition directors announced today by the bureau of internal revenue included:

Rhode Island, Edward J. Dunn of Providence.

RECKLESS TO BE REPORTED BY AUTOISTS

Highway Safety Leaguers Will Notify Goodwin for Revocation Probe

Four hundred members of the Highway Safety League, of which Moorfield Storey is president, are to-closer to the electric chair, was introduced by the State today at the trial of Mrs. Kaber, charged with plotting the murder of her husband, Daniel Kaber, wealthy Cleveland publisher.

The damaging admissions were made by Miss Emma Wagner, formerly a maid in the Kaber household.

Mrs. Kaber told me her husband was terrible to her and when I asked why she didn't get a divorce, she said: "You don't think I want to lose all his money, do you?"

Then she said:

"There's a way I can fix it without losing any of the money."

The woman sitting in a listless attitude with her chin resting on her hands, did not raise her eyes as the maid told of Mrs. Kaber feeding her husband food and candy, which caused violent convulsions.

Statements of the maid and Miss Chrystal Benner, a nurse, strengthened the State's charge that the accused woman attempted to poison her husband before she hired assassins to murder him, and that she had sprinkled arsenic on food and candy fed Kaber, a bed-ridden invalid, for three months before his death.

According to the maid, Mrs. Kaber and her husband had frequent quarrels.

Once, she witness testified, she heard Mrs. Kaber say to her husband, "If there is a God he will make you suffer before you die."

LEGION HOSPITAL PLANS APPROVED

Washington, July 8.—"Out of the poor houses by Christmas," is the slogan adopted by the national hospitalization and rehabilitation committee of the American Legion as the result of several days' of Treasury Mellon's approval of the program for immediate expenditure of $18,000,000 for the construction of hospitals.

The committee has adopted resolutions thanking Secretary Mellon for his cooperation and at the same time attempted to lay the foundation for a row with Director Forbes. The committee believes that when the present building program is completed, at the October level, there will be needed for 5,000 hospital beds.

FIRE PERIL UNDER "L" STRUCTURE

Scattered newspapers and other debris of an inflammable nature underneath the crack work of the Boston Elevated structure on Washington street between Warren and Washington streets, Roxbury, is likely to cause a serious fire, it was learned today.

Deputy Fire Chief Daniel F. Sennott of the Roxbury district, who is in charge of the Roxbury section, has made several complaints to the Boston Elevated officials regarding the removal of the debris. He declares his requests have fallen on deaf ears.

WALL COLLAPSE IN FLAMES KILLS MAN

Atlanta, Ga., July 8.—One man was injured, probably fatally, and another is believed to have been killed outright when a wall of the Dixie Paper Company's warehouse here collapsed today as the structure was burning. The injured man, W. R. Pearce, a fireman, was buried under the debris. The other man, whose identity is unknown, is believed to have been crushed to death.

GIVEN 20 YEARS FOR SLAYING BABY

Providence, July 8.—Asserting that the conviction of George Riendeau of Central Falls for the murder of his two-months-old baby and the acquittal of his wife on a similar charge in the Rhode Island Assistant Attorney General Capotosto permitted Riendeau to enter a plea of guilty to second degree murder and he was sentenced to twenty years in State prison. The plea was accepted only because unwelcome to both parents.

TWO INJURED BOYS AT CITY HOSPITAL

Two boys were taken to City Hospital following accidents. Samuel Novick, nine years old, of No. 43 Norwood street, Dorchester, was hit on the head with a baseball bat while at play. Thomas R. Lombard, five years old, No. 2 Sixth street, South Boston, suffered head abrasions and possible fracture of the skull when he was jarred from the rear end of a trolley car on which he was stealing a ride.

PITTSFIELD CHURCH TO COST $300,000

Pittsfield, July 8.—To commemorate the 150th anniversary of the First Baptist Church in this city, plans have been accepted for the erection next year of a new edifice at a cost of $300,000, which has nearly all been subscribed. Rev. Maurice A. Levy is pastor of the church.

FALLS DEAD FROM YACHT INTO RIVER

New London, July 8.—While working on his sloop yacht Grace, at Noank, Seth Shepard, thirty-three years old, of Washington, a lawyer, dropped dead, his body falling into the Mystic River. He was the son of Chief Justice Shepard of the Court of Appeals.

DUNN DRY AGENT FOR RHODE ISLAND

Washington, July 8.—Appointment of State prohibition directors announced today by the bureau of internal revenue included:

Rhode Island, Edward J. Dunn of Providence.

License Blacklist Record Broken

The licenses of forty autoists alleged to have violated the auto laws were today revoked or suspended by State Registrar of Motor Vehicles Frank A. Goodwin. It is the highest number revoked or suspended in any one day since he began his crusade to abate the death wave by snapping up the licenses of alleged auto-law violators. The day's list is as follows:

REVOKED.

FRED B. JORDAN, Jr., No. 59 Main street, Worcester. Operating while under the influence of liquor.

JOHN KILKUS, No. 47 Arthur street, Brockton. Registrar unable to locate him after investigation in death of Christine Tamulence of Brockton occurred without serious fault on part of the operator.

LEWIS B. GRDWAY, No. 110 Brockton avenue, Haverhill. Operating while under the influence of liquor.

MICHAEL F. DEMPSEY, No. 61 Henry avenue, Pittsfield. Operating while under the influence of liquor.

ALEX ROBERTSON, No. 47 Arthur street, Brockton. Registrar unable to locate him after investigation in death of Christine Tamulence of Brockton occurred without serious fault on part of the operator.

LEWIS B. GRDWAY, No. 110 Brockton avenue, Haverhill. Operating while under the influence of liquor.

MICHAEL F. DEMPSEY, No. 61 Henry avenue, Pittsfield. Operating while under the influence of liquor.

ALEX ROBERTSON, No. 47 Arthur street, Dorchester. Operating while under the influence of liquor.

Westford. Operating while under the influence of liquor.

JOSEPH E. KELLY, No. 41 Savin street, Roxbury. Operating while under the influence of liquor, which sentence he appealed.

WILLIAM A. MURPHY, No. 109 Johnson street, Lynn. Going away without stopping to make himself known after an accident.

NATHANIEL McDOUGALL, No. 75 Clifton road, Belmont. Operating so as to endanger the lives and safety of the public.

FRANCIS M. RYDER, Chestnut street, South Duxbury. Operating while under the influence of liquor, which sentence he appealed.

MICHAEL ANTONICWICZ, No. 448 Parkland street, Canton. Operating while under the influence of liquor.

CONCETTO DI GIOVANNI (also known as John Mirabella), No. 1 Common street, Lawrence. Operating so that the lives and safety of the public might be endangered, from which judgment he appealed. Right to operate suspended.

WILMER D. MURRAY, No. 121 Honney street, New Bedford. Operated in an improper manner.

NICOLO PERRINO, No. 24 Trowbridge street, Belmont. Not a proper person to operate.

FRANK A. MCKENZIE of Beaconsfield Newhall, Lynn. Involved in accident resulting in death of John Crowley of Everett.

NORMAL L. JACKSON, No. 3 Chestnut street, Worcester. Involved in accident resulting in death of Frederick Cappuccio of Boylston.

ELMER F. SKINNER, No. 32 Country street, Peabody. Involved in accident resulting in death of Mary Tagliori of Peabody.

JOSEPH COPPOLSMITH, No. 95 Highland street, Chelsea. Involved in accident resulting in death of Arthur Bonfanti of Charlestown.

JOHN A. MILLS, No. 17 Rose avenue, Lowell. Involved in accident resulting in death of Gertrude Lemieux of Lowell.

ELLIOTT G. BRACKETT, No. 168 Newbury street, Boston. Involved in accident resulting in death of Helen G. Andrews of Worcester.

JAMES O. CLEVELAND, No. 5 Brower street, Jamaica Plain. Operated in improper manner.

JULIUS GOLDSTONE, No. 11 Westminster road, Roxbury. Operated in improper manner and was involved in accident.

A. KONRAD JOHNSON, No. 1378 Beacon street, Brookline. Involved in accident which he failed to report.

JAMES B. CASWELL, No. 785 Huntington avenue, Boston. Not a proper person to operate, having operated after drinking intoxicating liquor.

JOHN H. CURTIS, No. 89 Franklin street, Haverhill, Operated in an improper manner.

LELAND MILLER, No. 5 Spring street, Southbridge. Operated in an improper manner.

CLIFFORD L. PHIPPEN, No. 148 Elm street, Westford. Not a proper person to operate.

JAMES McELHEY, No. 21 Harvard street, West Newton. Not a proper person to operate.

ANDREW KINNELLA, No. 318 River street, West Newton. Not a proper person to operate.

JOHN F. LYONS, No. 9 East Milton street, Brookline. Operated in an improper manner.

JOHN B. NICHOLSON, Granby road, Southwick. Not a proper person to operate, having operated after drinking intoxicating liquor.

OMER BISSON, No. 171 Bawditch street, New Bedford. Operating while under the influence of liquor. Right to operate suspended.

WILLIAM H. SWEENEY, No. 271 Havre street, East Boston. Operating so as to endanger the lives and safety of the public. Right to operate suspended.

WILLIAM L. HYERS (or W. Lloyd Byers), No. 5 Linden street, Cambridge. Operating unregistered motor vehicle and proper.

NATHAN FINKLESTEIN, of Plymouth. Operating so that the lives and safety of the public might be endangered, from which judgment he appealed. Right to operate suspended.

JOHN J. McCARRIGLE, of Dover. Operating in an improper manner, having twice been convicted of operating at a rate of speed greater than was reasonable and proper.

RICHARD P. PARKER, No. 1 Pickering street, Salem. Operating in improper manner, having twice been convicted of operating at a rate of speed greater than was reasonable and proper.

ALBERT J. AKERSTROM, No. 33 Cranch street, Quincy. Operating in an improper manner, having twice been convicted of operating at a rate of speed greater than was reasonable and proper.

FRANK F. LEMA, No. 26 Medfield street, Medford. Operating in an improper manner, having twice been convicted of operating at a rate of speed greater than was reasonable and proper.

FERDINAND JELKE, No. 888 Massachusetts avenue, Cambridge. Operating in an improper manner, having twice been convicted of operating at a rate of speed greater than was reasonable and proper.

LAWYER 'VAMPS' WINSOME JURY FOR CLIENT

Woman Attorney Loses Suit When Opposed by Very "Handsome" Counsel

New York, July 8.—Given a jury composed of eight winsome girls and four men, what chance has a woman lawyer of winning a suit when she is opposed by a young and handsome attorney? None, Miss Ethel Blume, one of the leading members of the Newark bar, learned when she tried the combination in the District Court today.

Miss Blume doesn't accuse Samuel Boardman, her matinee idol opponent, of intentionally vamping the girl members of the jury, and has appealed the case on a point of law. But she does say that Mr. Boardman is a very handsome man, and equally handsome witness for the defense.

The case was for breach of contract growing out of the failure of Miss Blume's client to make settlement for a shipment of flour from a New York merchant.

Miss Blume asserts that women might make good jurors in homicide and other criminal cases, but declares she is not qualified for dry civil actions.

PORTSMOUTH FIRE FORCE IN PAY ROW

Portsmouth, N. H., July 8.—A row that has split the fire department here may end in the courts. The call men of Engines 1 and 2 were recently notified of a cut in pay from $100 to $50 a year and ordered to answer on the second alarm only. They refused to take their first payment under the cut, claiming that the act of the City Council was illegal, as the ordinance establishing the reduction was not properly passed by the city government.

Meanwhile, the call men's financial court is retained by the firemen. Chief Wood claims that there is split in the movement.

FILES SUIT FOR $1 A DAY FOR 32 YEARS

Worcester, July 8.—Sarah McDonald of Worcester has filed a suit for services as a housekeeper for twenty-eight years in the Superior Court against the estate of Michael Kenny.

She claims she made a contract with Kenny in 1887 to do housework for him at the rate of $1 a day, that she worked for thirty-two years and that there is now due her $11,680.

LEADERS TO ATTEND TIMILTY FUNERAL

The funeral of James F. Timilty, former senator from Jamaica Plain, will bring together political leaders of the past decade. Former governors and bosses and members of the Senate between 1912 and 1917 have been invited to attend.

LAWYER 'LIL ARTHUR' ENDS TERM AT LEAVENWORTH

Jack Johnson to Consider New York Offer to Re-enter Ring

Leavenworth, Kas., July 8.—Jack Johnson, former world's heavyweight boxing champion, was beaming with happiness today as he served the first day of his term in Leavenworth prison. Tomorrow at 6 o'clock he will receive his "walking papers" and leave the prison, where he has been confined for a year and a day, to begin serving a sentence of $1,000 with the prison sentence.

After receiving them tomorrow morning, Johnson will be the guest at a reception tendered him by negro citizens of Kansas City, who will leave for Chicago and later will go to New York to consider offers which have been made him to return to the ring.

Johnson was to have appeared at a boxing exhibition at Leavenworth tomorrow following his release, but the authorities refused permission for the bout and it was called off.

Johnson is considered a model prisoner at Leavenworth, and he is in the prison in splendid physical condition.

DENIES KNOWLEDGE OF BOW PILGRIMAGE

Pilgrimage by Christian Scientists to Bow, N. H., birthplace of Mrs. Mary Baker Eddy, founder of the church, on the anniversary of her birth, July 16, is a matter John V. Dittemore, whose status as a director of the Mother Church is now before the full bench of the Supreme Court, knows nothing about. The announcement of the pilgrimage being disapproved, as contrary to the tenets of the church, came from Manchester, N. H., where a meeting of the trustees was held.

DEMANDS GREEKS EVACUATE SMYRNA

London, July 8.—The Turkish Nationalist Government at Angora has officially demanded the evacuation of Smyrna by the Greeks, thus making it improbable that there will be any conference between General Harington and Mustapha Kemal Pasha, leader of the Turkish Nationalists, according to official News dispatch from Constantinople.

SHERIFF SLAIN IN CLASH WITH BOOTLEGGERS

"Moonshine Express" Wages Grim Battle to Escape Utica Dry Agents

By International News Service.

Utica, N. Y., July 8.—Deputy Sheriff Charles Kammerlohr is dead, and Sheriff Frederick and Deputy Cominsky, alleged bootleggers, are dying as a result of a pistol battle between prohibition enforcement officers and whiskey runners early today.

Kammerlohr, accompanied by Deputy Sheriffs Ireland and Jones, was patrolling the roads in the vicinity of Utica in an automobile when Deputy Ireland espied a high-powered roadster popularly known as the "Moonshine Express."

The officers gave chase, and when it became evident they were overtaking their quarry a fusillade of shots burst from the pursued car.

During the firing both cars came to a halt, and the third occupant of the whiskey-running automobile made his escape in a mysterious car without lights which had been parked in the road.

Several barrels of high-grade Canadian whiskey were found in the captured car.

ADAMS WOMAN WINS LOAN SUIT

Adams, July 8.—After he had been found guilty of obtaining money under false pretenses, Christopher Puher of Pittsfield was fined $500 in the local court and given a six months sentence by Judge Fred R. Shaw. Puher was arrested on complaint of Mrs. Mary Herger of Summer street, who alleged he had borrowed the sum of $1,250 from her without giving security, although he agreed to give her a mortgage. Puher appealed the sentence of the local court.

RAZE PIER FIRST STEAMBOAT USED

New York, July 8.—New York's pier that is to make the history of steamboat navigation, is being demolished today. It is Pier 3 at Battery landing, from which Robert Fulton's steamboat, the Clermont, started on its epoch-making voyage to Albany. The old wharf was built of logs, held in place by rows of nails or bolts. Wooden wedges and pins, such as are found in old ships of the Revolution, were used to hold the beams together.

FIND MAN'S BODY IN NORTH ADAMS

North Adams, July 8.—Efforts to identify the body of a shabbily dressed stranger who was found dead in a vacant lot on Eagle street in North Adams Manufacturing Company in Braytonville are being made. The man, about thirty-five years of age and had red hair. A tramp's traveling outfit, a razor and a mirror and three empty Jamaica ginger bottles were found in his pockets.

EVERETT FIRM IN $15,000 SUIT

North Adams, July 8.—Suit for $15,000 has been entered in Superior Court against the Cressey Contracting Company of Everett by Mrs. Edith Wheeler of this city. The suit is a result of the death of Mrs. Wheeler's husband, Merritt E. Wheeler, partner in a trucking firm, who was fatally injured in the Hoosac Tunnel when he was squeezed between an oiler owned by the Everett concern and one of his own trucks.

GET REPORT OF RAIL MEN'S CONFERENCE

Reports on the recent conference held in Chicago by railroad workers' organizations and the wage cut repeated and Ross insisted that his interpretation was the same each alone.

HANGS SELF WITH BED PILLOW SLIP

Worcester, July 8.—James Sargent, a patient at the Worcester State Hospital, committed suicide by hanging himself with a pillow slip.

The victim was a traveling salesman, unmarried and about 60 years old.

DIVER TO SEEK LOST TORPEDO

Portsmouth, N. H., July 8.—Eagle Boat 32 arrived here and took a diver and apparatus from the U. S. S. Panther to Provincetown, where an attempt will be made to recover one of the latest types of torpedoes, lost in practice work off that harbor by A submarine in 160 feet of water.

IMPEACH KAROLYI FOR HIGH TREASON

Buda Pest, July 8.—Count Karolyi, former premier of the Hungarian government, was today impeached for high treason by the National Assembly on evidence furnished by Prince Windisch-Graetz.

NONANTUM CLUB PLANS BIG OUTING

The Nonantum First Degree Club of Allston promises a big time when the club conducts its second annual excursion, Saturday, July 16. The party will leave Rowe's Wharf for a trip to Gloucester, across Massachusetts Bay and down to Nantasket. A dinner will be served at Paragon Park, about 1,200 Odd Fellows are expected to make the trip.

CHILD IS KILLED BY RUNAWAY AUTO

Abraham Shurman, twelve years old, of No. 41 Central avenue, Chelsea, was killed by an auto truck automobile on Central avenue, in dead. The machine, owned by Jack Rosenthal of No. 41 Everett avenue, Chelsea, caused a panic when it raced down the street after Shurman had left the engine running.

MILTON YOUTH IS SCALDED

Alton T. Made, seventeen years old, of No. 21 Millers lane, Milton, scalded himself while boiling water while he was working at the Pure Dental Laboratory at No. 120 Boylston street. He was taken to the City Hospital where he is suffering from burns of the legs.

RESCUE 2 FAMILIES AT FIRE IN LYNN

While the tenement house at No. 128 Alley street, Lynn, was visited by flames, Daniel O'Connell, a first floor tenant, rescued his wife and their two children, Ralph and Elsie, both ill with measles. Then he rushed to the second floor and aroused the family of Benjamin Kaplan and assisted them to safety.

SACCO CLAIMS INTERPRETER BLUNDERED

Judge Tests Ross' Ability After Defendant Declares He Was Misquoted

The charge that Joseph Ross of Boston, an official interpreter, was not correctly interpreting questions and answers was made today in Dedham Superior Court by Attorney J. Mc Moorcrary, chief counsel for Nicola Sacco and Bartolomeo Vanzetti.

Sacco, who is charged with first degree murder in connection with the South Braintree payroll murders, fourteen months ago, was on the witness stand at the time the charge was made. An Italian sat beside Mc Anarney advising him before the allegations he made.

Judge Thayer excluded the jury from the court room and then made a test of Ross' ability. Filk Judge called forward Andrew Minini of Brockton, official interpreter in Plymouth Superior Court. He then instructed Ross to repeat to Sacco a question framed by the District Attorney.

Ross did so and Judge Thayer asked Minini if the question had been properly interpreted. Minini said that it had, but McAnarney said his advisor informed him that the word "before" had been left out. Ross insisted that he had put the word into his question. Judge Thayer then ruled that Ross was competent and the jury was recalled.

INTERPRETER USED.

Sacco was further cross-examined by Katzmann. An interpreter was used today for the first time in Sacco's cross-examination.

Q.—When I questioned you at Brockton the day after your arrest did you tell me you worked on April 15 (day of murders)? A.—I don't remember; but if I said so it was not true. It was a lie.

Q.—You now say you were not working that day, but were at the Italian consul's office? A.—Yes.

Q.—Was there any reason why you should have lied to the consul that? A.—There was no reason other than I didn't remember.

In response to the district attorney's questions as to what replies were made to the consul when he visited the day after arrest, Sacco several times said he couldn't remember.

Q.—What is the matter with your memory since yesterday? A.—Nothing, except that at its speed in testifying I have interpreted badly yesterday.

Q.—Weren't you told by Mis Honor when you were in court that you could call for an interpreter any time you wished to? A.—I think he did say so.

SHELLFISH LUNCH.

Q.—And wasn't Mr. Ross called to interpret twice yesterday? A.—Yes.

Q.—At 2 o'clock yesterday before you took the witness stand again didn't Mr. Ross, your attorney, ask I go to the cage and urge you to take an interpreter? A.—Yes.

Q.—Has your memory declined? A.—Yes, I said Mr. Ross the interpreter couldn't explain things the way I said them.

Q.—Didn't I tell you that Mr. Ross had been an interpreter in this court for many years and had correctly interpreted all Italian dialects during that time? A.—Yes sir, but if he has interpreted well why can't I explain things the way I want.

Sacco then admitted that he understood the Italian language of Ross better than the English of the district attorney and the examination continued in the native tongue of the witness.

The District Attorney's cross-examination lasted six and a half hours, ending at 10:40 a. m. Attorney Moore then began re-direct examination.

Q.—Do you believe in force and violence in connection with your opinions? A.—Do you mean destruction of property or individuals?

Q.—Yes. A.—No.

Later Vanzetti arose from the cage and said "Wrong" as Ross interpreted a question, and the question was repeated and Ross insisted that his interpretation was the same each alone.

TODAY

Continued From First Page.

Europe and the white races is the recent creation in Europe of many little so-called "independent nations." They are not, and cannot be, independent. They hate each other and fight each other, weakening Europe and Europe's power of defence.

Europe for many years will have reason to regret the ignorance and the sentimentality that gave "self determination" to incompetent little peoples unfit, and unable, to govern or protect themselves in the European whirlpool.

SAYS ICE-CREAM CONE PROFITEERS ARE MEANEST BRIGANDS

HULTMAN CALLED ON FOR PROBE

Representative Hines Insists Ice Cream and Sodas Are Necessaries for 'Kiddies'

A demand for an immediate and speedy investigation of profiteering in ice cream sodas and ice cream cones was today served upon Chairman Eugene C. Hultman of the Commission on the Necessaries of Life by Representative Paul H. Hines of South Boston.

Representative Hines declared that the profiteering which deprives the "kiddies" of a cone in this oppressively hot weather is the meanest and lowest form of brigandage.

All the ingredients which enter into the manufacture of ice cream have rapidly fallen in cost, he said, but prices are maintained at 100 per cent. in excess of what is reasonable.

Representative Hines said in his letter to Hultman:

TEXT OF LETTER.

"When ice cream sells for $1.40 a quart, an ice cream soda for 22 cents, a plain soda for eleven cents and an ice cream cone for a dime, it is time for the Commission on the Necessaries of Life to sit up and take notice. It is also time to revise the definition of highway robbery.

"I anticipate the objection that will be immediately proposed—that ice cream is not a necessity of life. To the little ones of the tenement districts, clinging to their mothers' skirts for the 10 cents to buy a 'cone,' it is just as much a necessity as is the halcyon days when cones were two for a nickel. The heat is as intense there now as in the bygone days.

"We have installed on the streets shower baths to relieve their suffering, but the ice cream dealers have placed beyond their reach this method of alleviating their parched throats.

"The plea that the above prices cannot be reduced is a lie. The principal ingredients of ice cream are milk, sugar and eggs. Sugar has tumbled from 22 cents to 4½ cents a pound, eggs from $1.20 to 35 cents a dozen, and every week reductions in the price of milk are heralded. Ice cream reached the peak and stayed there. 'But the overhead,' cry these modern brigands. Yes, we reply, 'overhead'—is that crimes are committed in that word.'

200 PER CENT. TOO HIGH.

If by overhead they mean not only wages but new Pierce-Arrows, seagoing yachts and castles on the Rhine, then we can understand the present fleecing of the public. But if by overhead they mean what they should mean, a living wage for the employes and a fair return on the capital invested—then the present prices are 100 per cent. too high.

The only commodities that have not come down are coal, housing and ice cream. The coal dealers are anathematized in every paper throughout the land—except the 'Coal Barons' Gazette — landlords are restrained by housing commissions, statutes and Supreme Court decisions, but the ice cream dealers can charge what they wish and let the public be damned.

"I propose, sir, that an investigation be made of this situation. Chairman Hult was faced with a similar condition—and at the first threat of publicity prices were cut in half. The Boston dealers are as brazen in demanding prices that cry to heaven. They cannot justify the present condition of affairs. All that is needed is someone to start the inquiry—you, sir, by virtue of the authority delegated to you by this Commonwealth, are that one."

Ice Cream Double Pre-War Prices

Soda parlor proprietors are charging 100 per cent. more today than they did in pre-war times, according to an investigation. Some ice cream profiteers openly boast that they could get even higher prices if they took a notion to demand them.

Drug stores in Roxbury, the North, South and West Ends, as well as South Boston and Dorchester, have price lists posted over their soda fountains, announcing the fact that ice cream sodas are 11 cents. Plain ice cream orders bring 20 cents in some ice cream parlors. Other places demand 22 cents, the two additional cents being for the war tax.

Theda Bara Secretly Wed to Her 'Just Friend' Director

Theda Bara, chief interpreter of screen "Vampire" roles, who though the subject of numerous reports, denied that she and her personal director, G. K. Brabin, were anything more than "just good friends." It became known today that the film star and Brabin slipped away to Greenwich, Ct., last Saturday and were quietly married by a justice of the peace. At the Fox Film Corporation studios knowledge of the marriage was denied, but it was said that the whereabouts of the couple was unknown.

SWIMMER DROWNS IN MANCHESTER

Manchester, N. H., July 8—Joachim Cameron, thirty-five years old, of No. 1961 Elm street, was drowned while swimming near the municipal bathhouse at Crystal Lake. Cameron, who could not swim, is believed to have stepped into a deep place in the lake while wading, as he was last seen making his way towards a large rock in the lake. The body was recovered by Swimming Instructor Sullivan.

New York, July 8—The secret marriage of Theda Bara, one of the best-known interpreters of "vampire" roles on the silver screen, to G. K. Brabin, a director of the Fox films and the star's personal director, became known here today.

While the wedding had been anticipated for several weeks, none of the friends of the couple either in and out of the profession had the slightest inkling that the ceremony had been performed last Saturday until today. It was performed by a justice of the peace in Greenwich, Ct.

Both Miss Bara and Mr. Brabin have repeatedly denied the rumors that they were to wed. Only a few weeks ago the latter declared that they "were just good friends."

At the Fox Film Corporation today all knowledge of the marriage was denied. It was also asserted that the whereabouts of the couple was not known.

Mrs. Brabin is about thirty-one years old. Mr. Brabin is about forty years of age. He was born in England and has been divorced.

Friends of the famous film "vamp" were doubly surprised to find not only that she had been secretly married but that she had married a divorced man.

The screen idol's name went down on the marriage license "Theodosia Goodman," her real name.

She was born in Cincinnati and adopted the name of "Theda Bara" about the time she began to create the "vampire" type.

Mrs. Brabin began her stage career in the Theatre Antoine, Paris, but soon transferred her talents to the silver screen.

Rumor has at various times had her engaged to leading actors, directors and business men.

K. C. TO EXHIBIT VETERANS' WORK

The best samples of the work of more than 50,000 service men will be exhibited at the international convention of the Knights of Columbus to be held in San Francisco, August 1, 2, 3 and 4. Many hundreds of the men whose work will be shown are disabled men who have been trained in toy-making and sign-painting by the K. of C.

FORCE BATHERS TO FROLIC IN 'WRAPS'

Milford Police Board "Carefully Guards" Morals of Indignant Citizens

Bridgeport, Ct., July 8—Milford, on Long Island Sound, is a seething kettle of protest against the action of its police board in ordering that whomsoever appears on the bathing beaches of the staid little Puritan town shall be properly garbed from neck to ankle.

The modern comfortable one-piece bathing suit has been banned by the authorities, and rolled stockings and bare legs are under a stricter taboo than even South Sea Island monarch laid on his pet taro patch.

If you bathe at Milford you bathe in voluminous wraps buttoned close to the chin and extending to within a few inches of the ground.

At a meeting in the Town Hall a delegation of indignant citizens bitterly attacked the minds of "unbelieving that common sense take the place of the "absurd prudery" of the police board.

But the members stood pat. Not one inch would they cut from the length of the bathing suits, but insisted that the morals of Milford people were far more important than their comfort while in swimming.

The ordinance is effective on a beach twelve miles long, including Laurel Beach, fashionable resort for Bridgeport's wealth, Silver Sands, Walnut Beach and Trumbull Sands.

Dr. Dean C. Bangs, David Weber, James Ross and Judge J. C. Brown all attacked the ordinance as "a bit of Feckanitian prudery that would have shamed the false modesty of the Pilgrim fathers."

GEN. EDWARDS TO VISIT R. I. UNIT

Upon invitation of Colonel Cyril Wells and Major T. Taylor, both of the Coast Artillery Corps, National Guard of Rhode Island, Major-General C. R. Edwards, commanding the First Corps Area, will visit the Summer camp of this unit at Fort Greble, Narragansett Bay, some time during this month.

URGES PROBE OF LAWRENCE THEFTS

Lawrence, July 8—In dealing with the case of Pierre Bendelette, charged with the larceny of 125 packages of cigarettes valued at $127.50 from freight cars on the Boston & Maine Railroad, Judge Jeremiah J. Mahoney suggested that the railroad police go deeper into the larcenies recently committed from the railroad with the idea of involving "the man higher up." The court expressed the belief that a deeper investigation of goods brought him by railroad thieves.

"SPARKLER" VICTIM DIES IN HOSPITAL

Lawrence, July 8—After suffering at the Lawrence General Hospital since Fourth of July, 12-year-old Ivy Holdsworth, daughter of Mr. and Mrs. Elijah Holdsworth of 25 Broadway, Methuen, died from burns she had received on that day celebrating. The little girl was in the act of lighting a sparkler when her clothing became ignited.

MANCHESTER GIRL FOR COLLEGE POST

Manchester, N. H., July 8.—Miss Alice G. Renfrew of No. 44 Old Bridge street, who was graduated from Mount Holyoke College in June, is to be graduate fellow in the department of chemistry there next year. Miss Dorothy R. Stewart of Hanover, N. H., who also received her degree at Mount Holyoke this year, is to be assistant in geology and botany at Wheaton College, Norton, Mass.

HITCHCOCK FILES BANKRUPTCY PETITION

Comedian Lists as Sole Assets Personal Wardrobe Valued at Only $150

New York, July 8.—Someone is always taking the joy out of a comedian's life.

Seats in the theatregoer, as you sit back comfortably in your seat and observe your favorite joke artisan as he goes capering across the boards, as you chortle and chuckle at his bon mots and prohibition and Al Smith jokes, are you owing anything to him?

"Abba-Dabba-Gotzy," Kosy-Kosy or some other of his latest song hits—then, Mr. Knight of Broadway, do not forget that he has duties of his own.

Raymond Hitchcock

All of which brings us to the case of Raymond Hitchcock, who, according to the records of the United States District Court, yesterday filed a voluntary petition in bankruptcy, thereby revealing to the world that, "hitchy-koo" though he may, he is suffering critically from a busted wallet.

WARDROBE ONLY ASSET.

Mr. Hitchcock lists as his sole assets his personal wardrobe, which he values at $150. He is not specific as to what sartorial articles are included, though it is said that a pair of white flannel trousers, a few silk shirts and a couple of pairs of pajamas constitute the main basis of his clothing entourage.

Mr. Hitchcock being noted among other things for the manner in which he maintains an iridescent sartorial pulchritude, his friends are now beginning to wonder whether the rest of his wardrobe is just deeded to his wife or merely occupied through leasehold.

At any rate, Mr. Hitchcock names three creditors, chief among whom is Jack Welsh, the former manager of "Hitchy Koo." Mr. Welsh sued for $2,000 recently, claiming this to be salary due him, but this Supreme Court of New York County ultimately allowed him only $1,944 in a judgment against the comedian.

SECOND EXPERIENCE.

"Mr. Welsh, who was manager of 'Hitchy Koo' for about a year, had no written contract with Mr. Hitchcock, but claimed that he possessed a verbal contract," said Harry Bala Hochheimer, of No. 1540 Broadway, attorney for the comedian.

"It is our contention that Mr. Welsh was employed by Mr. Hitchcock for his stubborn refusal to week and not by the year, as he claims. Going into bankruptcy was a step decided on by Mr. Hitchcock after the Supreme Court issued an execution on the judgement."

The other two creditors and the amounts Mr. Hitchcock lists as being due them are R. Workman, Hotel Felix, Portland, $3,000 and C. K. Isaacs, No. 220 West Forty-second street, $4,000. Mr. Hechheimer said he was in ignorance as to the nature of these obligations.

This is Mr. Hitchcock's second experience in bankruptcy proceedings, according to New York records. In 1908 he filed a petition, giving $18,294 as his liabilities and $16 in cash as assets. He has been sued several times in New York courts in connection with his theatrical activities.

Verily, the life of a Broadway comedian is a hard lot.

Remarkable Blind Cures by New York Specialist

New York, July 8.—Dr. W. H. Bates, an eye specialist here, yesterday sat in his bustling suite offices high above Madison avenue, and told an astonishing story of light in darkness for the blind.

Of the hundreds of patients who have received treatment at Dr. Bates' hands various methods and finally at his own clinic in Harlem, there are those whose failing or impaired eyesight has been corrected and restored. Others who never had seen now have perfect vision. A man of eighty-three, once nearly sightless, reads a newspaper across the room. A baby of three, born blind, sees normally.

Finally—and this is the transcendental phase of his healing—a woman can see clearly at a distance of ten miles!

TELESCOPIC VISION.

Others can stand on the Manhattan side of the Hudson and read the license numbers on automobiles on the Jersey shore.

Still others can pick out the rings of Saturn and moons of Jupiter, all without aid of telescope or other artificial assistance!

This "telescopic vision," together with his healing method was announced as a discovery by Dr. Bates a few days ago at a convention of the Allied Medical Association in Atlantic City. He explained today:

"I had hardly completed my announcement when a physician from Philadelphia who wore glasses and long had been subject to eye trouble, arose and declared that he did not believe my claim possible. He said, further, that he would give a thousand dollars to the Medical Association if I could cure him.

EXPLAINS METHODS.

"I set to work at once and in a half hour had relieved the pain in his eyes and brought him to a point where he discarded his glasses. He now is coming to my clinic for treatment."

His healing method, as he explained today, is simple. It hinges upon the imagination of the person afflicted. Not the working imagination such as that employed in creative work, for concentration is fatal to results, but the imagination of a relaxed mind.

Dr. Bates said:

Vision is a process of mental interpretation. The picture which the mind sees is not the impression on the retina, but a mental interpretation of it.

"Blindnesses may be prevented by continuously and consciously practicing the memory of imagination of perfect sight of one thing in object a letter, a flower, even a little black spot."

"The best hit," declares the baseball fan, "is the hit Ancre Cheese scores when it gets next my palate. Its new, coated, air-tight wrapper keeps it fresh in hot weather."

Short Skirt Like Auto—Too Speedy—Declares Woman Nearing Century Mark

By HAZEL CANNING

Go 'way with your snorting, puffing, crazy-whirling automobiles—and give me a good rig out—hoss and "tony" top buggy.

Avaunt with your moving pictures, silly, nonsensical time-wasting, youth-consuming, romantic, fantastic fiddle-dee-dee.

And your short skirts—take 'em off! Let 'em down! Get out the old trail affairs, even the bustled confections of your grandmothers. 'Tis far more decent.

Then get down to hard work, and early rising, and you'll be fulfilling the whole duty of woman.

—Bits of opinion of Mrs. Mary S. Whitney, 100 years old.

Now, there's one old lady, over at the Mount Pleasant Home for Aged Couples, who is just as peppery and just as spry—mentally, as ever she was. She's one hundred years old, or will be in a few days. But age has not withered, nor the years staled, the infinite variety of her State of Maine, gingery, yet kindly, personality.

"I've a mind of my own," this old lady will tell you. "I've a mind of my own, and none of these crazy, new-fangled, death-dealing, straight to perdition, modern contraptions of automobiles are going to make any impression on me.

RIGHT TO OWN MIND.

"After you've lived a century, you have a right to your own mind. And your judgment is worth more than the judgment of a silly, little slip of a girl forty-five or fifty. So, I can tell."

"And, talking, I can't say enough against the short skirts. I don't think the women are crazy. If our good matron here should wear a short skirt, I'd disown her.

"I'd tell her to go right upstairs and get out something good and long—or else I'd never let her call me granny again. I guess the restless spirit of the whirling, buzzing automobile, has put the idea of the short skirt into the women's minds. Just abnormal—too speedy, that's the idea of it.

WORE SKIRTS RIGHT.

"In the good old days of the hoss and buggy, we wore our skirts right. And we never wasted our time at the movies, either. We spent all our odd moments, piecing patchwork quilts, so's we'd have something to keep us warm, and our families warm, on icy Winter nights. We never let the pieces go to waste. We saved 'em.

"That's why I'm living today, because I knew how to keep my mind and body busy. Ask me for my secret of long life, and I'll tell you—plenty of hard work, and early rising. Fix, or half past five, or even five, has been my rule, all my life. And I'm all the better for it."

SOMERVILLE BETSY ROSS.

Mrs. Whitney has been called the Betsy Ross of Somerville, because she has mended for more than twenty years all the torn flags for the city. Big or little tears, her patient, deft fingers have drawn together in delicate lines, hiding the worn place. So, when Mrs. Whitney is photographed with the flag on her lap she comes into the distinction rightfully.

She has just one ambition—that is to be "a good soldier to the end."

"When a woman is 100 years old, she's not so spry as she was at thirty," Mrs. Whitney will tell you.

MUST BE "GOOD SOLDIER."

"But she still owns courage to life, because life still claims her for its own. Therefore, she must be a good soldier to the end.

"My grandfather fought in the Revolution; my own father fought in the war of 1812; my husband was a soldier, too. And I, therefore, under the weight of my years, must also be a soldier, brave and faithful, even to the end. A good soldier, yes, my dear, 'tis the right thing to be, for man or woman."

RECTOR ADMITS HE HAS FALLEN IN LOVE

Love for a girl has gripped the Rev. Dr. Percy Stickney Grant, rector of the church of the Ascension, Fifth avenue, New York, one of the most noted liberal clergymen in the United States. Dr. Grant is a Harvard graduate and was formerly a pastor in Boston.

For years the minister has been famed, not alone for his ability, but for his stubborn refusal to time to the arrows of the little winged god.

That's all past now. He is a victim of his first love is Miss Faith Willard, not yet one year old, who was left on night not so long ago on the door step of the doctor's rectory, in an iron bed from her throne in a swinging bassinette on the third floor.

Even Thomas, the ancient servitor of the Doctor, and Miss Kirby, the nurse, are devoted serfs of her highness.

"I don't know how it is," Dr. Grant is quoted as having said to an interviewer, "but since that woman left Faith on my door step people are determined to mix me up with babies, although I am a bachelor.

"No," he said with a wave of the hand, "I have not yet made up my mind whether I will adopt Faith. She is a little darling—but—well you see I don't know much about babies."

"The nurse took the baby in her arms and kissed it with a wave of the hand, "I have not yet made up my mind whether I will adopt Faith. She is a little darling—but—well you see I don't know much about babies."

"The nurse took the baby in her arms and kissed it.

"You'll never give her up and you know it," she told the Doctor.

He merely beamed.

MANHOLE COVER BREAKS BOY'S ARM

Thomas Gallivan, nine years old, of No. 23 Austin street, Charlestown, while trying to recover a baseball, which had fallen down a manhole at the corner of Austin and Benedict streets, captured his arm when the cover fell on him. He was taken to the Relief Hospital.

STOCK SPY POND WITH BLACK BASS

The Middlesex Sportsman's Association is making plans to develop Spy Pond, Arlington, upon the shore of which their club house stands, into one of the best fishing ponds in the state. It has been stocked with hundreds of black bass.

JANE BISHOP IN 'COURT' IN HER AUTO

Arraigned while seated in her automobile in front of the Roxbury Court, Mrs. Jane Bishop, the eighty-seven-year-old Roxbury woman, was held for the Grand Jury on three counts of illegal surgery in one of the most sensational court sessions in the history of Massachusetts.

Due to the infirmities of old age the accused woman was unable to get to the court herself, and the cases against her have been continued for this reason, but today the court came to her.

The proceedings took but a few minutes. The charges were read to her by Clerk of Court Maurice O'Connell. She waived examination and the case was put over for the Grand Jury.

Bail was set at $500, which was supplied by one of her friends and the automobile, in which court was held, was driven away.

MOTHER AND SON IN SUICIDE PACT

Former Wife of Cleveland Millionaire Destitute in Paris Hospital

By G. F. BERTELLI.
Special Cable Dispatch.

Paris, July 8.—Another human drama rising out of the problem of divorce—to which parent shall offspring cling—has seen its sequel in Paris, where at the American hospital a mother and son, both prominent in international society, lie at death's door as a result of a suicide pact.

The tragedy is the direct result of the son's firm determination to stick to his mother despite the wrath of his millionaire father, her first husband.

The characters in this tragedy of real life are Mrs. De Guise-Hite, divorced wife of Percy De Guise-Hite, well known clubman of Berkeley street, London, who had previously been divorced from a Cleveland millionaire.

Second, George Harbaugh, her son by her first husband, twenty-four years old, handsome, and a familiar figure in society outlines in London and Paris.

REVEALS DESPAIR.

The story reveals the intense despair of a proud, society woman, accustomed to the luxuries of refinement and wealth, suddenly finding herself and her son adrift in Paris, resourceless, moneyless and almost friendless in the city of pleasure.

"When I was divorced in Cleveland, Ohio, from Mr. Harbaugh, he forbade my son ever to speak to me. But the boy followed me when I came to Europe and married De Guise-Hite, later returning to America to school. Throughout his father refused to aid him unless he abandoned me. This he refused to do.

"When De Guise-Hite and I were divorced he lived with me awhile and then returned to New York, where he was a victim of appendicitis. At this time, my money gone, I appealed to his father who paid the hospital bills, after which George returned to me in Paris.

DECIDED TO END ALL.

"Then things began to get worse. I sold my jewels and everything I had of value until there was nothing left to sell. George again called on his father, who still declined to help us. The aid we received from friends saved us from positive hunger, but we both saw that this could not last and decided that life was not worth living.

"On Tuesday we discussed our situation at length and planned to die at the same hour in the same way, so at his hotel and I at mine with veronal.

"When the hour struck I fulfilled my part of the bargain. I am only sorry that I didn't take enough. Now I will have to face it all over again."

Dr. Gros of the hospital staff today asserted that the recovery of Mrs. De Guise-Hite is certain, that that of her son doubtful.

AUTO FAILS TO STOP AFTER HURTING BOY

The Lexington police are investigating an accident in that town, in which a boy was badly injured. According to a report received at the Cambridge police, James Quinn, of No. 30 Dover street, West Somerville, was struck and knocked off his bicycle while riding along the State boulevard in Lexington by an automobile. The driver did not stop, it is claimed, but the number of the machine was obtained.

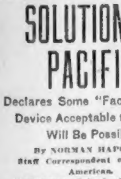
HAPGOOD SEES SOLUTION IN PACIFIC

Declares Some "Face-Saving" Device Acceptable to Japan Will Be Possible

By NORMAN HAPGOOD.
Staff Correspondent of Boston American.

Washington, July 8.—Do not take too seriously the dispatches you read about the obstacles in the way of ending the treaty between Great Britain and Japan. It can be done without waiting any years. If there is an all-round desire to end it.



NORMAN HAPGOOD

True it is that a clause in the treaty prevents Great Britain alone from ending it without a year's notice, but there has not been much real question of England's merely denouncing it. The real effort has been to find a substitute that would be agreeable to Japan as well as to the United States.

On that job our State Department is quietly at work. It is not taking the lead but it is keeping up a close and interested attention to what is going on at the imperial conference in London.

U. S. IN THE PACIFIC.

At that conference the colonies are speaking out clearly and they are being backed by the British Liberals as a whole. What they are saying is that the most important consideration in the Pacific is not Japan but the United States.

Smuts had that in mind when he said that the history of the world for decades would be written in the Pacific. The problem of all other problems facing the London conference is to think out a program for action in the Pacific that may satisfy the United States without offending Japan.

It is thought that this can be done by a face-saving device, dear to all humanes but perhaps especially to Orientals. If some sort of exchange of notes, or other joint expression of a program, can be brought about between this country, Great Britain and Japan it is believed that Japan will be willing to end the treaty with Great Britain by mutual consent.

JAPAN FEARS WAR.

There is every reason she should be willing. She knows as well as anybody that a war with the United States would plunge her into hopeless bankruptcy, irretrievable economic ruin, whatever its outcome in mere territory seized.

A similar situation confronts Great Britain. If reduced armament is a desirable economy in this country, as the Harding administration is energetically convinced, to England it is a financial necessity.

President Harding, whatever instructions he may have from Congress, has no intention of calling a disarmament meeting until the essentials of the deal have been arranged by the State Department on the quiet with the two other powers concerned.

Senator Borah, of course, knows the White House intention as well as anybody. But he looks on the two jobs as different jobs. If there is a long delay he will be heard from, pushing his end while the White House pushes it. There is no real conflict between the two and has not been from the beginning.

HUGHES IS HAPPY.

In passing it may be said that Secretary Hughes revels in his present job. Diplomacy has taken possession of his whole system. He is as happy as he ever was on the bench or at the height of his practice at the bar. His mind is well suited to what he is doing now; he looks at the problems ahead with confidence; he feels in himself the attributes of success.

Washington shares his confidence. It knows that foreign affairs are difficult, but it has a flattering confidence in the Secretary of State. It believes that a way out will be found.

DREXEL CALM AT FILM INDICTMENT

London, July 8.—Anthony Drexel, who is staying in London with Lord Decies, when informed by the Universal Service correspondent that he had been indicted in the suit against the Standard Film Industries Corporation in New York, declared that the charge was a purely technical one and that he was not worrying.

"I was a director in the company," he said, "and helped finance it. But I was in the army when the concern failed four years ago. The case was then investigated by District Attorney Swann, but was dropped, not going as far as the grand jury."

LOUD HAS KEEN INTEREST IN TUFTS CASE

Trial of Alleged Wakefield Slayer Delayed by Charges Against Prosecutor

Clarence W. Loud, alleged slayer of Patrolman James A. Preston of Wakefield, is anxiously following developments in the Allen-Tufts row from his cell in East Cambridge jail. Until it is settled, there is little chance of a speedy trial for Loud, who has been in jail since April 11.

No date has been set for the trial. It is not expected District Attorney Tufts will make any definite move until after his own trial before the Supreme Court.

Outside of his natural impatience over the delays, Loud is cheerful and active and a model prisoner. He helps clean up the jail every day, this being a concession made him by Sheriff Fairbairn on his plea that he be given something to do. Prisoners awaiting trial for capital crimes cannot be worked unless they wish it and do not wear prison garb.

Loud works rapidly, eats well and sleeps soundly. He varies the prison fare with an occasional restaurant meal. Always fond of reading, he has done a great deal during his incarceration. He has almost exhausted the prison library and has magazines and books sent in.

Loud is particularly fond of books on travel and sports, which seem to lift his mind from his own troubles. He has weakened his eyes from much reading and wears an eye shade. Occasional visits from his wife and attorney vary the monotony and, apparently his spirits are nearly as good as when he was committed to East Cambridge jail to await trial.

CHARGES HUSBAND PULLED HER HAIR

New Bedford, July 8.—After seven years at sea on the good ship matrimony, Emily Lombard, twenty-four years old, of No. 51 Nelson street, seeks separate support from her husband, Andrew Lombard, seventy-five years old, of No. 40 Carroll street.

Mrs. Lombard, who is the defendant's third wife, alleges her husband pulled her hair, blackened her eyes and scratched her face, because of her refusal to disclose where she had hidden the key of his automobile, following his failure to take her riding.

SEEK SUCCOR FROM MINIONS OF LAW

New Bedford, July 8.—John and Alvera Grasee, brothers, recently arrived in this city from Lisbon, Portugal, of No. 96 Davis street, shrieked lustily for a policeman when two strange men pushed them with drawn revolvers as they stepped ashore from their steamer after a trip to Buzzards Bay.

The strangers, Harbor Officer Joseph Gilman and Shellfish Inspector Joseph Fernandes, finally arrested the pair for taking shellfish from polluted waters.

'KICKED OUT' BY FEMINIST WIFE

New York, July 8.—Alleging that he was "kicked" out of his home by his feminist wife, Gilbert T. Young of New Rochelle, filed papers with Supreme Court Justice Vernon M. Davis, in opposition to the alimony plea of his wife, Mrs. Beatrice Young. Young, who married his wife on November 29, 1919, declares in his reply that at the time of the marriage it was understood that she would cease her feminist activities.

REPUDIATES SPEECH OF "BOY ORATOR"

State Secretary Thomas M. Nolan of the American Association for Recognition of the Irish Republic, has repudiated fiery remarks by William Whalen, a "boy orator," who was quoted as advising men of Irish birth not to fight for America again. Nolan said the remarks were resented by the members and Whalen, a Tipperary man, had been taken off the speaking list.

REPORT JAPAN IS TO QUIT SIBERIA

Tokio, July 8.—The Hochi Shimbun, a leading Tokio newspaper, gave prominence to a report from a Chita source declaring that Japan has entered into a secret pact with the Chita government, promising evacuation of Siberia within four months in return for valuable fishing and lumber concessions from the Chita government.

The Kokumin, quoting the Japanese vice-consul, denies the report.

MRS. NOYES SAYS IT'S SIMPLY ASTONISHING

Has Never Seen Anything to Equal the Way Tanlac Restored Her Strength and Energy—Two Years' Trouble Overcome.

"I have only taken a little over one bottle of Tanlac so far, and it is astonishing the way it has helped me in this short time," said Mrs. William Noyes, a highly esteemed resident of 11 Hamlet St., Dorchester, Mass.

"For the last two years I have suffered terribly from nervous indigestion, had no appetite at all, and just didn't care about eating anything. I couldn't eat enough to keep up my strength, and I kept getting weaker and worse run down all the time. I had nervous spells when I got to weak I was actually afraid I would faint. I could never get a good night's rest, and my nerves were so on edge all the time the least little happening would get me all upset. I felt so tired and worn out all the time I could hardly do my housework, and as time went on I got to where I had an awful nervous, blinding headache every day, and was just about fast going.

"Well, I used to live in Albany, New York, and I was a testimonial from one of my acquaintances over there that caused me to take Tanlac. I am now on my second bottle, and my appetite is just grand, and my food agrees with me perfectly. My strength and energy have come back to me, and I sleep so well nights I get up in the morning feeling like my usual self, and I am taking care of my tea-room house without anything like the trouble I used to have. I'm not bothered with those headaches any more, and, the fact is, it is nothing short of wonderful how much better I am in every way. I want to take Tanlac a while longer in order to be sure my health is fully restored. I think it is simply grand, and I'm glad to praise it to everybody."

Tanlac is distributed by International Prop., Inc., and sold in Boston by all Liggett's drug stores.—Advertisement.

Fresh From Paris

PARIS, France

THE summery taffeta and organdie combination inspired the model at the left, which is as out of the ordinary as it is attractive. Taffeta in the new raspberry shade has been chosen for the surplice bodice with its short tunic and hanging end, while white organdie makes the four-tiered skirt and the touches at the neck and sleeves. A hat of white organdie has flat organdie roses on its wide brim and a large upstanding one at the front of its crown.

ANOTHER charming afternoon dress, entirely of pale blue organdie, has its collar and cuffs of its scalloped ruffles piped with rose-colored cire ribbon, while its scarf sash, with low hanging end, is also of this ribbon. The vogue for ribbon tabs has spread from frock to hat, and this white felt hat has ribbons of alternating blue and rose about its crown and tiny brim.

ACTOR HILLIARD GETS HIS LIQUOR

Nantucket, July 8.—"Thank God it's all O. K. I had enough any way, and was merely sending that along to be on the safe side."

So said "Bob" Hilliard, actor and playwright, commenting upon the action of prohibition agents in holding up at New York seven cases of whiskey he had shipped from New York to his "cottage" here, because his permit to transport had expired. The liquor arrived at New Bedford late yesterday and was sent by the Nantucket boat under the care of a special guard to Hilliard's cottage here.

DENY TREATY TO BE PEACE BASIS

Washington, July 8.—Published reports that Secretary of State Hughes had submitted to President Harding the Versailles treaty with some revisions as a basis for the making of peace with Germany were officially denied here.

DESERTION IS CITED BY DANCER

Former Grayce Murphy Says Russell Winslow Left Her 2 Months After Wedding

Continued From First Page.

does not ask alimony and does ask permission to resume her maiden name.

Grayce Murphy and Russell Winslow were married March 7, 1917, and spent most of their honeymoon in Boston.

Mrs. Winslow in her suit declares that the honeymoon was only two months old when her husband deserted her.

Winslow was in the war. When he was discharged from service he went to work in his father's skate factory and is still there, learning the details of the huge business "from the bottom up."

The marriage of the dancer and the Congressman's son was a quiet one, and on their return they stopped, by chance, at a hotel to which Papa Winslow was also staying. According to bystanders, he gave them a very "cold shoulder."

Russell Winslow was the second son of the house of Winslow to run off with a poor girl. His brother, Samuel E. Winslow, Jr., married Miss Edna Burns, a Harvard square bookkeeper, while a student at Harvard.

CITY NOW OWES SULLIVAN $2.70

The city of Boston owes Edward J. Sullivan, county treasurer, the sum of $2.70. He says he is not going to try to collect it. Sullivan was suspended in April following disclosures which showed that Thomas J. O'Daly, Sullivan's predecessor as county treasurer, had misappropriated $40,000 and for which he is now serving a sentence.

Last month Sullivan was reinstated. An examination of the books showed that in twenty years he handled nearly $60,000,000 of the city's money and that there is a balance in his favor of $2.70.

DROWNS IN RIVER WITH AID NEARBY

Tony Di Pietro, sixteen years old, of No. 58 Harvard street, Cambridge, was drowned in the Charles River opposite No. 400 Charles River road.

He was bathing with a number of other boys when he went beyond his depth. He cried for help and his companions went to his aid, but he sank before they could reach him.

The Metropolitan police are dragging the river for his body.

Women of Ireland Are Never Seen In Tears!

This is one of the impressions James B. Connolly, famous Boston author, brings home with him from a five weeks' visit to Dublin, Belfast, Cork, Queenstown and other centres.

It was a Tipperary woman who said to Connolly: "Either the English must clear out or we will clear out—and we're not going."

"I don't know," said an old woman of Cork, "should we curse them or leave them to God!"

"TORTURED IRELAND"

the report of Mr. Connolly's recent tour

Begins in Next Monday's

BOSTON AMERICAN

"As I learned of what the girls and women of Ireland are doing to advance the cause of the Irish Republican Army," says Mr. Connolly, "it came to me that I was hearing the story of the American Revolution over again!"

LLOYD GEORGE TO ASK UNITY IN PACIFIC

Foreshadows Early Conference, With United States and Japan Taking Part

By International News Service.

London, July 8.—Premier Lloyd George, in his promised statement in the House of Commons Monday upon the Anglo-Japanese treaty, will tell of the need of unity among nations interested in the Pacific and will foreshadow an early international conference, in which the United States and Japan will be invited, according to forecasts in the press today.

The Daily Mail in commenting upon the Premier's statement yesterday that he would postpone his Anglo-Japanese statement until Monday, said the delay would be welcomed, as it would give more time for consultations.

The diplomatic correspondent of the Chronicle says that the Dominion premiers regard the renewal of the Anglo-Japanese treaty as a step which would not prejudice negotiations for a conference dealing with Pacific Ocean questions. It is understood, however, that the treaty will be modified in accordance with the wishes of the League of Nations. It is regarded as noteworthy that the Imperial Conference has generally accepted the policy of the British Government regarding the Near East, including mandates for Mesopotamia and Palestine.

GILCHRIST STORE OUTING TOMORROW

About 1,500 members of the Gilchrist Association will go on the annual outing to Plymouth tomorrow. The trip will be made aboard the steamship Rose Standish.

Arrived at Plymouth, they will find a lively program mapped out for them. There will be a midway, dancing, singing, card parties, field and track events and continuous music by a band.

The principal event will be the baseball game in Plymouth baseball park, played between rival nines of the Gilchrist store.

Handsome prizes will be awarded to winners in the field and track events and the exhibition dancing contests.

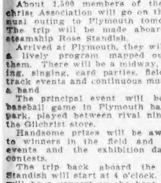
The trip back aboard the Rose Standish will start at 5 o'clock. There will be a concert on the boat.

Vice-President Frank Ingham is chairman of the entertainment committee. He was assisted in making arrangements by S. Greenberg, Frank Leavitt, Louis Campbell and Edward F. Putnam, the president.

MAIL TRUCK HITS AUTO; THREE HURT

Three men were injured early today in a crash between an automobile and a United States mail truck at Westland and Massachusetts avenues. Philip Ruebsen, of No. 16 Arbutus street, Dorchester, is in Dalton City Hospital. Julius Schlossberg, eighteen years old, of No. 15 Johnston road, Dorchester, and Morris Ginsberg, twenty years old, of No. 14 Bird street, Dorchester, both occupants of the car, were treated for minor injuries. The mail truck was driven by James J. Killilea, of No. 2451 Cambridge street, Cambridge.

BOY DROWNS IN DORCHESTER BAY



JOHN C. O'REILLY

John O'Reilly, fourteen years old, of No. 23 Carson street, Dorchester, was drowned in Dorchester Bay at the foot of Mount Vernon street, although his body was pulled out of the water by Philip D. Fredendburgh about three minutes after the boy went under. The police from the Field's Corner station used the pulmotor in a vain attempt to revive the boy. Fredendburgh, who lives at No. 1161 Dorchester avenue, was assisted in bringing the body ashore by Raymond Sanford, of No. 19 Washington street, Quincy.

APPEAL FOR FUNDS TO SHOWER HORSES

The Boston Work Horse Relief Association is appealing for funds to carry on the work of "showering" draught animals on terribly hot days. Already there are five stations, but as they are located near freight terminals they are seldom seen by the general public, which does not appreciate the extent to which they contribute to the comfort of work horses.

OCEAN LINERS FACE LIQUOR PROBLEM

Washington, July 8.—Ocean liners entering American ports may have to anchor their liquor stores outside the three-mile limit. Referring to the liquor in transit opinion which he recently affirmed miss illegal and transportation of alcoholic beverages through American territory, Attorney-General Daugherty said today that foreign liners entering this country "would have to be discreet."

HULTMAN PREDICTS LOWER RENTS SOON

Rents may be lower soon, according to Chairman Eugene C. Hultman of the State Commission on the Necessaries of Life. Mr. Hultman says the era of profiteering is over. Real estate transaction records show most transfers of property recently were not speculative.

LAKE WALDEN IS MECCA FOR BATHERS

The temperature attained a maximum of 84 degrees Thursday, in Concord. Hundreds went in bathing at Lake Walden.

BOSTON SOCIETY HAPPENINGS

Miss Olivia James of No. 22 Charles River square, who is travelling abroad with her parents, Professor and Mrs. Edward H. James. Miss James, who is a member of the Vincent Club and the 1919-1920 Sewing Circle, is a niece of former Lieutenant-Governor Grafton D. Cushing. (Photo by White.)

By BETTY ALDEN.

Many members of the Cohasset Summer colony are attending the first performances of the Cohasset pageant, which takes place at four o'clock today in a splendidly-situated natural amphitheatre. The pageant, which depicts early scenes in colonial history, is being given to commemorate the 180th anniversary of the founding of the town of Cohasset. Mr. Joseph Lindon Smith, noted artist, of Mt. Vernon street, who has recently returned from a trip to Egypt with his daughter, Rebecca, is directing the pageant. One of the most entertaining features will be Mr. and Mrs. Lyndham Crocker of the Summer colony posing as the bride and groom of the colonial wedding. Miss Dorothy Bolles, whose parents, the Richard P. Bolles of Commonwealth avenue, have a country place on Jerusalem road, has charge of the "Fair Weather" and "Foul Weather" dances, which are sure of scoring a hit.

* * *

I note that Mrs. Charles Fanning Ayer of Commonwealth avenue is in charge of the various committees for the charity fete which will be given tomorrow afternoon and evening on the Randolph Dodge estate at Hamilton. The fete is to aid the building fund of the Christ Episcopal Church at Hamilton, and a number of well known society ladies are lending a hand to make the fete a success, including Mrs. A. C. Burrage, Jr., and Mrs. John T. Dodge.

* * *

Among the passengers sailing today for England on the steamship Cedric are Mr. and Mrs. Frederick Page Fearing with their daughter Harriet and their son, Frank A. Royce, who make their home at Pine Knoll, on Common street, Dedham. The sailing of the Royces recalls to mind the all-important wedding of the older daughter, Catherine Ames Royce, to Robert Cushing Hamlin, which took place in Dedham last month. The Royce-Hamlin nuptial was one of the most fashionable of the entire "wedding season," which is saying quite a bit, for the list of June matrimonial ventures among the younger society set was a record-breaking one this year.

* * *

I hear that Mrs. F. Lothrop Ames, with her children, is leaving today for Newport to spend the season at the Ames estate on Bellevue avenue. Mr. F. Lothrop Ames, Jr., has already arrived at Newport.

* * *

Mr. and Mrs. Gerald Livingston Hopt of New York have joined the Summer colony at Ipswich for the season.

* * *

Among the members registered at the Casino in Newport is Mr. R. W. Cutler of Boston. Speaking of the Casino reminds me that the daily concerts start on Monday, and the first of the Sunday night popular concerts takes place on July 17th.

* * *

Tennis continues to be one of the strong attractions for the younger set at Louns in the Berkshires. Mr. Hollis Hunnewell, Jr., was one of the winning players in the tournament on the courts at the Hunnewell estate of Mr. and Mrs. George Baty Blake whose Winter home is at No. 29 Colchester street, Longwood.

* * *

Mr. and Mrs. Richard Wheatland of Beacon street and their daughters, the Misses Lucia, Anna and Martha Wheatland, have gone abroad to spend the Summer in travel. The sons of the family, Stephen and David Wheatland, completed the party. They sailed for Scotland.

* * *

Mr. and Mrs. Grayden Stetson of Marlboro street are at Marlborough this season, where they have taken a house in the town, instead of on the Neck, as in past Summers. They will make a cruise along the Maine coast this Summer and in the Fall will go to the mountains before reopening their Boston home.

* * *

Mrs. Thomas Lindall Winthrop of Beacon street, who went to Pittsfield for June, which she spent at the Maplewood Hotel, has decided to continue her visit there indefinitely. She usually has spent her Summer season at Nahant, as have her son-in-law and daughter, Mr. and Mrs. Joseph Grafton Minot of Berkeley street, who have been in California all the past Winter and Spring. The decision of Mr. and Mrs. Minot to spend the Summer abroad, accompanied by their son, Grafton Winthrop Minot, caused Mrs. Winthrop to make a change in her plans for the season.

GARDEN FETE TO AID WAR VETERANS

Mrs. Nathaniel F. Emmons to Throw Open Her Estate at Hingham Tomorrow

Major-General Clarence R. Edwards, former commander of the Yankee Division, General and Mrs. Charles H. Cole, State Commander Dunn of the American Legion and State Commander and Mrs. McDonald of the Veterans of Foreign Wars will be among the honor guests at a garden fete and entertainment for disabled war veterans to be given by Mrs. Nathaniel F. Emmons on the grounds of the Emmons estate, Main street, Hingham, Saturday, from 2 to 7:30 o'clock.

MRS. NATHANIEL F. EMMONS

The garden party is being given in memory of Mrs. Emmons' mother, Saturday being the anniversary of her birth.

Music by local orchestras, refreshments and card games will form the features of the entertainment, which will be for the former service men. A charge of 25 cents will be made to the general public, and the proceeds will go for the benefit of the sick and wounded fighters.

DOUBT SINCERITY OF BRITISH OFFER

Speakers at a mass meeting of the Eighth Congressional District Council of the A. A. R. I. R. expressed doubt that Lloyd George was sincere in his offers of peace to Ireland. Miss Alice Burke, a school teacher, branded General Smuts, the mediator, as a traitor to his own people, the Boers. Michael Hastings urged the boycotting of English goods here. Other speakers were Arthur T. Joyce, Luke Shields, Miss Mary Culhane. The meeting was in Central square, Cambridge.

'BANK ROBBER' WAS BUT A LIGHT BULB

A defective electric light bulb, flashing on and off, provided a first-class bank robbery scare in Woburn Centre today. Officer Brophy noticed the light flickering in the window of the Co-operative Bank. He called the desk sergeant and a detail of police surrounded the place.

Two officers entered with drawn revolvers, and searched the place from top to bottom before they noticed the bulb.

GIRL ON SWING HURT BY PRANK

Seven-year-old Anna Mousser, No. 26 Giles avenue, Beverly, was badly cut and bruised as the result of the prank of a group of boys in the Ryal Side playground yesterday.

Anna was swinging when the boys gave the swing a jerk and sent her flying to the ground. Her injuries required surgical attention before she was sent home.

SEVEN TON STONE FALLS SIX INCHES

While workmen were raising a seven-ton one alone on the St. James street side of the new John Hancock Mutual Life Insurance building at Clarendon street, Stuart and Clarendon streets today, the cable broke, allowing the stone to drop two feet.

The stone had just started upward and was but six inches from the ground, so no damage was done.

POUND OF RYE UNIT OF VALUE

Berlin, July 7.—A pound of rye has been made the unit of value in exchange of goods in Russia, the Council of People's Commissaries, according to a dispatch from Moscow today. A pound of rye will be equivalent to any one of the following:

Four yards of cloth, four iron spades, twelve pounds of petroleum or twelve boxes of matches.

BREAKS LEG IN FEAR OF OFFICER

Scared by the sudden appearance of a policeman, Peter Tsiou, eleven years old, No. 241 West Newton street, jumped from the top of a load shed where he had been playing, breaking the bones of his right leg.

He was taken to the City hospital.

DEFENDS DEVENS AS BEST PLACE FOR YOUTHS

Gen. Hershey Deplores Wrong Impressions Parents Have on Camp Life

There is less temptation for young men at Camp Devens than in the average town of New England, maintains Brigadier-General M. L. Hersey, the camp commander, who has just returned from a tour of New England in the interests of the Citizens' Military Training Camp, which will open August 1st.

General Hersey had to encounter many objections on the part of mothers and fathers against sending their sixteen-year-old sons to a training camp.

"Wrong impressions met me everywhere," explained the officer. "The average person has an idea that the modern military camp is the last place on earth a young man of sixteen should be sent.

"In combatting that impression I had to tell of what is happening at Camp Devens where the health of the men, their discipline and their training, has proven that camp is better in every way than the average town in New England.

"I would go farther and say that Camp Devens from its record shows that it is the cleanest and safest place to put any young man. He cannot even play the Jimjams there that he plays around his own home."

2 PAY $5 FINES FOR SELLING ICE

Samuel Greenfield of Harrison avenue and Samuel Steinberg of Hudson avenue paid $5 fines in Dorchester Court today after they were found guilty of peddling ice without a permit.

Max Jannolo of New York City, arrested as a fugitive for New York police, was held in $1,000 bonds for a hearing July 22.

S. P. C. A. STARTS ITS SERVICE FOR HORSES

The Massachusetts S. P. C. A. has started its special Summer service for horses of Boston. Three new hydrant stations have been opened in addition to the traveling watering cart. Membership in the Jack London Club, the society's protest against cruelties in training animals, has reached 192,858.

White House Anxious Over the Callao

Washington, July 8.—There was concern at the White House today over reports that efforts to get in communication with the Munson line steamship Callao have been futile. John Christian, son of Secretary to the President George Christian, and John Massey, a close friend to Secretary Christian, are cadet officers on the Callao.

Secretary Christian talked with officers of the Munson line over the telephone today, and they informed him that the vessel was not due until tomorrow and that failure to reach her by wireless probably did not indicate any serious trouble, but was probably the result of wireless difficulties on the Callao.

MISSING LINER CALLAO HEARD FROM

Wireless From Passenger Says She Is Laid Up at San Juan

New York, July 8.—The first ray of hope penetrating the veil of gloomy mystery shrouding the whereabouts of the Munson liner Callao, which is due here tomorrow from Buenos Aires, whence she sailed at midnight June 21, came today in form of an announcement by an official of Byron & Hall, of import and export firm, that the vessel was safe and was expected to arrive here before July 12.

The official said his company had received a radiogram from a passenger on the Callao July 5, saying that the vessel was then at San Juan and that trouble had developed in the machinery.

He added that the message gave rise to the belief the liner's wireless apparatus was out of commission.

O. H. Mallory of the Munson line said today that the line's officials felt no alarm for the Callao, but expected her to reach here late tonight or early tomorrow morning. He admitted that energetic efforts were under way to get in touch with her, but said that the probable solution of the mystery was that the Callao's wireless apparatus was out of order.

There are seventy-four passengers aboard the Callao, all first cabin.

PATIENTS HELP FIGHT BLAZE IN HOSPITAL

More Than 900 Routed From Bed By Fire in Ward Building Aid Attendants

Ukiah, Calif., July 8.—More than 900 patients at the Mendocino Hospital at Talmage were routed from their beds early today, when fire was discovered in a ward building housing 240 patients.

The patients in the burning building were quickly removed from the structure in orderly fashion by attendants, and as a precautionary measure, patients housed in nearby buildings also were removed.

Patients joined the hospital fire department in fighting the blaze, and it was confined to the roof of the one ward building. The damage will amount to several thousand dollars.

Hospital authorities praised the conduct of both attendants and patients during the fire.

SENATOR FRANCE IN PLEA TO SOVIETS

Berlin, July 8.—The Communist newspaper Rote Fahne today printed a wireless dispatch from Moscow quoting United States Senator France as saying:

"My object in coming to Russia was not only to help bring about commercial arrangements, but to restore friendlier relations between the two republics—Russia and America."

According to the Moscow dispatch the interview was originally printed in a Bolshevik newspaper at Moscow.

MANCHESTER POLICE WATCH COMMUNISTS

Manchester, N. H., July 8.—The police are investigating the distribution at night of Communist circulars inviting open revolt against the capitalist in retaliation for the alleged mistreatment of the colored population of Tulsa, Okla. Known sympathizers with the Communist party in this city are being closely watched.

DELOREY ASKS PAROLE BOARD FOR PARDON

Case of Man Convicted of Slaying Annie Mullins, to Be Heard Tuesday

Peter C. Delorey, who is serving from eighteen to twenty years for the murder of Annie Mullins, in Squires' field, Arlington, on March 27, 1905, petitioned the State Board of Parole for a pardon today.

He will be given a public hearing at the prison at 10 o'clock next Tuesday.

Delorey and Dionisios Spiropoulos, known as James Mantir, were charged with the brutal crime after one of the most sensational murder trials in the history of the State.

Mantir was sentenced to life imprisonment. In 1915 he became insane and since then has been confined to the Bridgewater State Hospital.

Delorey asks for a pardon on the grounds that he has been sufficiently punished; has a good conduct record at the prison; languished in jail twenty-three months before his trial and will be eligible for parole in two years.

GOVERNMENT SUED FOR APPLE CARGO

The Federal government, owners of the merchant vessel Gulmha, has just been named defendant in a suit filed in the Federal Court here by Maynard & Child of Boston, dealers in exporting fruits, who allege that their cargo of 6,810 barrels of apples on the Gulmha was damaged to the extent of about $22,500.

The apples in question were a shipment by the Boston firm to Glasgow on the government owned vessel which left Philadelphia about January 13 last. The Philadelphia, who have asked damages and have been refused, ask the Federal Court to fix damages due them, with interest and costs.

FOREIGN POWERS INCENSED BY DRY RULING

Question U. S. Right to Seize Liquor Aboard Ships in American Ports

Washington, July 8.—Diplomatic rows with foreign governments were in the offing today and the Volstead law is again the root of the trouble. State Department officials may be besieged with envoys of protesting foreign powers, incensed because the United States may seize and search their ships for contraband liquor.

Fully conscious of the dangers involved, treasury officials today went ahead preparing regulations, which may fall like a bombshell upon foreign ears. Foreign ships, having liquor aboard and entering American territorial waters, run the risk of seizure by U. S. government agents.

Attorney-General Daugherty declares no course is left open to him but to interpret the Volstead law as it stands and this statute clearly forbids liquor-laden ships entering American ports, even if but for coaling purposes.

The British government, it is understood, will be the first of the principal powers to challenge the right of the American government to trespass upon the privileges set up in time-honored commercial treaties and other agreements of comity and good will governing reciprocal courtesies.

The effect of wholesale seizures of foreign ships which invariably carry heavy cargoes of whiskey and wines can scarcely be foreseen. It is a situation full of dangerous possibilities. But it can only be met, officials say, through speedy action by Congress to amend the Volstead law.

Practically every diplomat in the corps at Washington has dispatched cablegrams reporting his government of the likelihood of ship seizures and asking for instructions. These probably will be quickly given, and probably will be followed by representations to the State Department.

ALUMNI OF CONCORD HIGH TO GATHER

The Concord High School Alumni Association holds its annual reunion this evening on the high school grounds. If stormy it will take place in the high school building. There will be dancing on the green. Officers will also be elected.

PAY CUT FOR MILK DRIVERS HELD UP

Milk wagon drivers and agents of the distributing companies are in conference on the proposal to cut wages from $40 to $25. The companies have promised they will not cut wages while the conference is in progress.

DUBLIN PARLEY IS RESUMED AGAIN

Sinn Feiners and Unionists in Conference at Irish Capital

Continued From First Page.

noise and flag waving in the streets about the building.

"I am hopeful of the outcome," said Sir Maurice Dockrell, before entering the conference.

A warning was issued today by Dail Eireann (the Sinn Fein Parliament) against "unauthorized and speculative press reports dealing with the present peace situation."

King Confers With Sir James Craig

London, July 8.—Further evidence of the important part that King George is playing in the attempt to restore Irish peace was given today when Sir James Craig, Premier of Ulster, was received in audience by the King at Buckingham Palace.

It is understood that the proposed settlement as it affects Ulster was discussed.

A great series of conferences on the Irish situation will begin tomorrow at Chequers, the country estate of Premier Lloyd George, and will continue until Sunday night.

All of the dominion premiers, who are here for the imperial conference, were invited to Chequers tomorrow to meet Lloyd George and other government officials.

It was reported this afternoon that there was some dissatisfaction in government circles over the fact that General Smuts, premier of South Africa, had visited Dublin and conferred with Eamon de Valera and other Sinn Fein officials.

Nine houses, four of which were owned by woman, were destroyed in reprisals by crown forces in Ireland during June, it was officially stated today.

SEEKS ECONOMY IN AFFAIRS OF STATE

Investigation of State departments with a view of complete reorganization on a more economical scale will be undertaken immediately by a special recess commission headed by Edwin S. Webster of Newton, a member of the law firm of Stone & Webster.

Representative John Mitchell of Fairfield has been appointed secretary of the commission.

Governor Cox told the commission that he believes the present arrangement of departments can be radically altered so as to effect a large saving to the people of the State.

MANUFACTURERS IN N. H. HOLD BANQUET

Manchester, N. H., July 8.—Judge James A. Emery of the National Association of Manufacturers, and Joseph H. Choate, general counsel of the American Bankers' Association, were the speakers at a banquet given by the New Hampshire Manufacturers' Association here. The gathering was held primarily in the interest of the "Scott Mansfield" movement, and was attended by four hundred representative business and professional men of the State.

ONLY 15 ASK POLL TAX ABATEMENT

Up to date only 15 residents of Boston have asked the city's collector of taxes for abatement of their poll taxes. The tax this year is $5 as against $2 in previous years, and extra amount is to meet the city's share of the cost of the $100 bonus to be given soldiers.

In the city of Fall River more than 300 have requested abatement of their poll taxes on the ground that they are not able to pay.

LIQUOR DRIVE ON IN NORTH ADAMS

North Adams, July 8.—Following a lengthy conference between Mayor Harvey A. Gallup and Chief of Police William P. Dinneen, it was announced that the lid will be clamped down as tightly as possible on liquor selling in this city. Such repressive measures than have been followed in the past are now to be the rule here.

2 BANKRUPTCY CASES IN COURT

Charles Cudworth, of New Bedford, soda water manufacturer, filed a voluntary petition in bankruptcy in Federal Court today, his liabilities being $2,589.47 and assets $1,000.00. The Norris Grain Company, Worcester, was petitioned into bankruptcy by three Boston creditors who have claims totalling $543.25.

QUIMBY EMPLOYES' OUTING TOMORROW

The cares of business will be completely forgotten when officials and employes of the W. S. Quimby Company are on the annual outing at Pemberton Inn tomorrow. Almost 200 will make the trip. Sports, swimming, dancing and a dinner at the Inn are on the program.

CAR DRAGS BOY, 5, 300 FEET ON TRACK

Morris Rosbush, five years old, of No. 8 Pellaway East, Somerville, received numerous contusions and abrasions about the body when he was dragged 300 feet by a Boston Elevated car on Mystic avenue, Pellaway East. He attempted to steal a ride. He was removed to the Somerville Hospital.

"COUNTESS" KILLED IN AUTO ACCIDENT

Marblehead, July 8.—The Countess d'Thernalle, well remembered for her work in connection with Red Cross drives in Greater Boston, was killed by an automobile on Pleasant street. The "Countess" was a collie dog, owned by Miss Jeanne LeMay of Boston.

LINERS GROUND, SHIP SUNK IN DENSE FOG

Mayari and Nantasket Go Ashore; Schooner Active Rammed

Continued From First Page.

Cuba, ran on the rocks at Truro, Cape Cod, in the same fog. Her shrieking sirens advised the lighthouse keepers of her plight, but before aid could be sent to her the tide floated her off and she reported that she was on her way to dock here, unharmed.

The wreck of the Active was the most serious accident due to the fog reported from the waters near Boston. The revolving paddles of the steamboat caught the bow of the fisherman and fairly chewed through the stout timbers, tilting the smaller boat up on end and throwing five of her six sailors into the waters of the harbor.

The sixth man, William Silva, brother of the yawl's captain and owner, John Silva, of Provincetown, was caught between the mast of the yawl and the guard rail of the steamer and four of his ribs crushed.

He was dragged unconscious aboard the steamer before the yawl sank. The others, swimming about in the mist shrouded water, were rescued by ropes flung from the decks of the Old Colony.

The steamship hurried the injured man to Pemberton, where he was placed in an automobile and rushed to the Sylvester Hospital at Allerton. There it was said that he might have internal injuries of a serious nature.

NEAR NIX'S MATE.

The Old Colony was nearing the spar buoy that marks Nix's Mate shoal, off the end of Long Island, when the crash occurred. She had been creeping along sounding her siren at half minute intervals, when the prow of the Active loomed up through the fog.

The steamer swung wide to avoid the fisherman, but too late. The prow of the latter crashed against her side and scraped along until the paddle wheel caught it.

Silva was standing in the eyes of the yawl as deck watch, and his brother, the captain, was aft by the wheel.

Passengers who were peering over the rail at the boat, say the former was caught between the guard rail and the mast of the disabled craft, and was crushed as the two were unnessed the thing believed he could live.

The captain was flung bodily into the water. The other members of the yawl's crew leaped or were thrown overboard.

The Active remained afloat barely five minutes after the collision. Damage done to the side of the Old Colony was slight. There was no panic and little excitement among the hundreds of passengers on the steamer.

CLAIMS NEGLIGENCE CAUSED DEATH OF 2

Worcester, July 8.—Judge Jonathan Smith has filed in superior court reports of recent inquests on two deaths caused by automobiles. He finds Miss Helen Mowry, Worcester school teacher, was negligent in operating her car too near that of Ruben Wright. The latter was killed in the death of Patrick Burns, aged railroad crossing tender at Clinton.

The jurist also finds that Norman L. Jackson, Worcester barber, was operating his automobile on June 26 when he struck and killed Barbara, seven-year-old daughter of Mr. and Mrs. Charles Knight of Boylston.

PULMOTOR FAILS TO SAVE TWO LIVES

Pulmotors from a nearby fire station failed to save the lives of Mrs. Margaret Piazza and her new-born babe, both of whom died in the Piazza home, No. 1 Drake place, East Boston, yesterday. The baby was born alive but weakened rapidly, as did the mother. The father, Angelo, the husband, was forced to leave here for Italy a short time on account of ill health. Mrs. Piazza leaves three children, the youngest not yet two years old. They are being cared for by the neighbors.

CHICAGO AGAIN IN THE HEAT ZONE

Chicago, July 8.—The heat wave, which has prevailed in Chicago for more than two weeks, returned today after a temporary break caused by a severe electrical storm last night. Torrential rains accompanied the lightning and thunder, and basements and sewers were flooded. Several buildings were damaged by lightning. Nearly two inches of rain fell within two hours.

DEPRIVED OF SOFA, SEEKS $5,000 BALM

Frederick J. Stark of Boston has filed a suit in the Superior Court of Suffolk County for $5,000 against Furness, Withy & Co., owners of the steamer Guiana, alleging failure to provide accommodations which he says he had on a trip from New York to Barbados. Stark says that a sofa in his stateroom was given to an intoxicated passenger who cluttered it with baggage and left no room for Stark to stand.

Frog Pond on Common Offers Relief From Heat to Boys

Photograph taken today shows Boston youngsters revelling in famous Frog Pond on the Common and a mature individual who feels the heat and has only memories of the "old swimmin' hole" to console him. He wishes he were in.

NAVY DIRIGIBLE EXPLODES; FOUR ESCAPE DEATH

Two of Crew Are Painfully Burned at Hampton Roads Aviation Field

Washington, July 8.—The navy dirigible C-2 exploded at the naval aviation field, near Hampton Roads, Va., according to a dispatch to the Navy Department.

Four members of the crew escaped by leaping from the "blimp" which was just rising and was about seventy-five feet from the ground.

Two of the crew were painfully burned.

The "blimp" was taking off for a photographing flight.

The members of the crew were: Lieutenant C. C. Atwood, Lieutenant Johnson, Machinist's Mate Lankey and Chief Printer Russell. The explosion occurred when the rip panel of the balloon tore loose, releasing a flood of gas.

EXPECT PROTEST ON DRY RULING

Washington, July 8.—Foreign governments are expected immediately to protest to the State Department, through their envoys here, against proposed regulations to be issued in conformity with an opinion by the department of Justice holding that so-called "in transit" liquor shipments from abroad destined to some other foreign country but touching American ports violates the Volstead law. Attorney-General Daugherty said that these protests are inevitable, and that the State Department would have a problem on its hands.

NEARLY FREEZES TO DEATH; IN ICE PLANT

Pittsburgh, July 8.—While everyone else in Pittsburgh is suffering from the heat, Patrick Mollrath, a lugging frost-bitten feet here today. He works in an ice plant. After delivering some cakes in the freezing room he sat down on some sacks and fell asleep and nearly froze to death. The fact that he wore a heavy overcoat is all that saved his life. The temperature in the room where he slept was three below zero. He wore thin shoes and his feet were affected.

ADAMS OFFICIALS TO BAN CARNIVALS

Adams, July 8.—Carnivals and other shows will not be permitted to appear in Adams this year. The ban has officially been placed on such attractions by the Selectmen, who declare they will issue no permits on the grounds that such shows tend to injure rather than benefit the town.

CARPENTERS TAKE 25-CENT CUT

North Attleboro, July 8.—Carpenters and plumbers both announced a reduction in wages. The Carpenters and Joiners Union voted to accept a wage reduction of from $1 to $1 cents an hour and the plumbers voted to accept the $1 wage instead of the $1.25 which has been paid.

Continued From First Page.

"probable" thunder showers late today.

E. H. Bowis, forecaster of the Weather Bureau at Washington, says there will be no change for at least forty-eight hours. Then, wiping his brow, declared that "it's good corn growing country. People in the East shouldn't worry," he said. "Think of Fresno, Cal., with a temperature of 110."

Today in Boston the temperature was expected to register above ninety. Accompanied by an exceedingly high humidity, 93 per cent at one o'clock, the heat turned the city into a veritable Turkish bath.

Similar conditions exist all through the East and Middle West. In the northern mid-Western States and Eastern Canada the temperature reached record heights.

For the last ten days the whole of Eastern Canada has been experiencing the worst heat wave in the history of the Dominion. There have been more than ten deaths and hundreds of prostrations.

In churches throughout the country prayers have been offered for rain to save the crops and the threatened increasing loss of life.

In Greater Boston hundreds spent the night on the Common or at the beaches. In the tenement districts there was considerable suffering, especially among the children.

One heat prostration was reported today, before 9 a.m. was that of George F. Ward, thirty-five years old, of Natick, N. H., collapsed on the Common and was taken to the City Hospital.

The temperature was 72 at 8 o'clock.

The fog seriously inconvenienced railroads and shipping, and many New Haven trains over the Providence division were one-half hour late as a result.

The weather bureau reports that the heat wave is at its worst in the Southwest. Phoenix, Ariz., reports a temperature of 106 and Yuma, in the same State, is only two degrees cooler. Cincinnati, Rochester and Albany are the warmest Eastern cities, with the mercury standing at 96.

The Maine coast is the coolest spot in the East, with an average temperature of 74. Greenville, however, one of the Pine Tree State's coldest spots in Winter, is sweltering at 92.

Shirt sleeves were in vogue in Dorchester Court today for the first time this year. Because of the humidity Judge Sherrill ordered that anyone in order to disrespect if the men in court removed their coats.

"We might as well be comfortable," he added.

BARE LABOR TREND IN NEW ENGLAND

Washington, July 8.—Official percentage of the changes in labor increases and decreases during June in New England cities were as follows:

Increases—Brockton, Mass., 6.8; Fall River, Mass., 5.0; Manchester, N. H., 3.6; Springfield, Mass., 2.8; Lowell, Mass., 0.9; Worcester, Mass., 0.8; New Bedford, Mass., 0.8; Lawrence, Mass., 0.5.

Decreases—Bridgeport, Conn., 8.8; Boston, 4.8; Waterbury, Ct., 1.3; New Haven, Ct., 1.3.

Dancing Party Tonight

A dancing party will be held at the Francis Parker School Hall, Norfolk Downs, tonight, to aid the Atlantic table of the North Quincy Council, K. of C., lawn party.

TESTIFIES SHE WAS KICKED BY POLICEMAN

Mrs. Conroy Also Says Husband Was Struck by Officer While He Held Baby

After several witnesses for the defence were heard, including Mrs. Conroy, the trial of Thomas H. Conroy, charged with assault and battery on Patrolman Philip Schuman in the West End more than a month ago, was again continued until tomorrow. Anthony Connors is also on trial on the charge of attempting to rescue a prisoner.

The trial will have a bearing on whether a warrant should be granted charging Patrolman Schuman with assault and battery on Conroy, his wife and their infant son.

SAW HUSBAND STRUCK.

Mrs. Conroy testified that she did not see her husband kick Schuman but that the latter struck her husband while he was holding the baby in his arms. Schuman refused to tell her what the trouble was, but told her to move on or he would arrest her.

She stated that Officer Donovan kicked her and that she still has the marks. Officer Schuman, she said, did not tell her to take the baby but her husband said, "Take the baby, Mary, and I'll go with them. They've got nothing on me and everything will be all right."

She accused Patrolman Donovan of threatening to shoot her and said that he pushed her away when she attempted to duck as her baby who was lying on the ground. She stated Schuman had his foot on her husband's chest at that time. She admitted hearing her husband call Schuman a vile name but denied having any rocks thrown by the crowd, which she estimated at 100.

HELD BABY WHEN HE FELL.

Connors testified he was placed under arrest by Officers Holmes and Carr when he went to take the baby from Conroy's arms, upon the latter's request. He stated that he saw Schuman strike one blow at Conroy.

Mrs. Lillian Hassell testified she saw Schuman strike Conroy, but the latter did not strike back. She said the baby was in Conroy's arms when he fell to the ground.

KRASSIN INDIGNANT AT REVOLT CHARGE

London, July 8.—Leonid Krassin, head of the Russian trade delegation, today addressed a note to Marquis Curzon, British Foreign Secretary, denying that any members of the Russian trade commission at Constantinople were involved in the alleged plot for a revolution.

M. Krassin complained that the charge against the Russians in Constantinople was made lightly, "without particles of evidence," and asked for an explanation.

HARDING URGES BONUS ACTION BE DEFERRED

Report President Favors Measure, but Believes Legislation Should Be Postponed

Washington, July 8.—President Harding went to the Capitol and told Senate leaders that the soldier bonus bill should be side-tracked to make way for tax legislation.

Revision of the tax laws, the President declared, should come before consideration of the tariff bill in the Senate.

The President's unexpected visit to the Senate came as a complete surprise to Capitol Hill. He is understood to have expressed the hope that the Senate would follow the following legislative program:

1—Reconstruction of the soldier bonus bill and a recess on the part of the Senate until August 1.

2—The Senate to give precedence to taxation legislation after the recess.

The President's views, as outlined, indicate that final legislation will not be definitely until after a tax program has been put through.

Senator Harding indicated to senators with whom he conferred that while favorable action committed to bonus legislation, he believes it should be postponed at this time.

The President's insistence upon the above program is interpreted as indicating that he approves tariff the views of Secretary of the Treasury Mellon that bonus legislation "at this time" would place too heavy a load upon the treasury.

It is probable that the executive may come out definitely in support of this policy in his forthcoming communication to congress. It is thought he is expected to point out that while his administration is publicly committed to bonus legislation, he believes it should be deferred until the country could better stand the financial strain.

THIEF TAKES TEETH AS MAN SLUMBERS

Havana, July 8.—While Manuel Morgado, a Spanish blacksmith, was sleeping peacefully with his mouth open in the park here yesterday, a thief stole his teeth.

Morgado was indignant when police intimated that he might have swallowed his artificial molars.

STOKES AGREES TO GIVE UP CHILDREN

Asks Right to Visit Them and Promises to Provide for Them in Will

New York, July 8.—W. E. D. Stokes, clubman, hotel proprietor and millionaire, yesterday offered voluntarily to release the two beautiful children made the subject of contention in his hard-fought suit for divorce.

In a brief, upon which the issues of the divorce will be determined, filed with Supreme Court Justice Finch, the following remarkable passage occurs:

"If in the judgment of the court it seems wise, the plaintiff would gladly consent that the custody of the children should be awarded to the grandmother during their tender years, realizing that thereby the mother will have intimate and probably daily communication with them, as they will occupy the same home.

"In that event, the father begs that he may be allowed such privileges of visitation as will enable him to keep in touch with the hearts of his children and care for their physical and mental welfare. By feeling that they still, in a sense, belong to him, he will provide liberally for them after his death."

BITTER BATTLE AT END.

Thus ends the most bitter family battle that has besmirched Broadway in years, in which both sides brought forward evidence involving or seeking to involve the name and standing of the other.

Stokes, well known to New Yorkers for his eccentricities and escapades, probably in the utter attempt to win a court again in legal differences with feminity, say his friends and intimates. They pointed last night to the proffered concession in regard to guardianship and custody of his children as a clinching argument for this determination.

Myles A. Walsh, of counsel for Mrs. Stokes, was frank in stating that victory rested with the fair defendant by reason of the remarkable admission of the millionaire. He said:

"It seems to me that this whole action has been brought to deprive Mrs. Stokes of her rightful share in the stokes millions. He has tried to smirch the name of his wife, yet is willing to leave his children in her custody, for that is what it would mean to have the children with their grandmother."

ASSAILED HUSBAND.

The argument for Mrs. Helen Elwood Stokes by her counsel bitterly assailed her husband, taking up the charges against him made by the witnesses brought to court by the plaintiff in an effort to prove the character of the latter. In appreciation of Mr. Stokes himself, Mrs. Stokes' brief says:

"He was a man of prurient mind and devoted to promiscuous amours, entirely devoted to every principle of virtue and lost to every sentiment of manly honor, one of the few persons in the world who have no kind feeling at heart.

"Almost from the beginning he has been a terrified his wife. When she refused to bargain with him for her property rights he began the campaign which this trial brings to a close."

In defending Mrs. Stokes' association with Hal Billig, named as a co-respondent, the brief points out that brief points out that young Billig was related to Mrs. Stokes and that they had been friends from boy and girlhood.

BOLD THIEVES GET $1,500 IN LIQUORS

Thieves, who cut their way into the rear of the drug store of Edward T. A. Welch, at D and 6th streets, South Boston, from the cellar of an unoccupied house adjoining the store made away with $1,500 worth of medicinal wines and liquors stored there, it was said after the police. The robbers cut through the floor and cleaned out the cash register. They made their escape before the alarm was given.

HAWK DROPS EEL ON HEAD OF MAN

Portsmouth, N. H., July 8.—Granville Blake of Dennett street was stunned when a three-foot eel dropped from above in front of him on Maplewood avenue. The snake like fish had been picked up from the river by a big fish hawk, who was making away with it when he came in contact with some live wires and was forced to drop it.

'I'VE WON CASE,' MRS. STILLMAN DECLARES

Refuses to Worry Any More, She Says, as She Starts Vacation With Bud

New York, July 8.—Mrs. Anne U. Stillman left here today for a vacation, with her son "Bud," declaring that her lawyers had assured her that the case against herself and Guy had collapsed.

"I have won and I won't worry while I am away," she said.

The decision of the central figure in the celebrated action was rather sudden. She declares she will remain away about two months. This means that she will not attend the hearings next week in Poughkeepsie of her affirmative defense.

Referring to the published statement that a friend of the banker had declared she had not lived with him for nine years, she pointed out that her period was but nine years old, and added:

"The opposition's tactics grow more stupid each day. Thank heaven, Buddy and I will escape it all for a time."

BABY BROTHER SHOT BY SISTER IN PLAY

Baltimore, Md., July 8.—Shot by his eleven-year-old sister, Elizabeth, Karl Sullivan, the three-year-old son of Mr. and Mrs. Fleury Sullivan of Van Bibber, Baltimore County, is near death today at the Army Hospital at Edgewood Arsenal Reservation. Elizabeth fired the shot while she and her baby brother were playing. The pistol had been left on a shelf in the home of Miss Sullivan and Elizabeth did not know it was loaded.

NEEDHAM MAN GETS NEW APPOINTMENT

Newport, R. I., July 8.—A. A. Cambridge of Needham, Mass., who was at the Naval Training Station for two years, first as social secretary for the Young Men's Christian Association, has been appointed agent for Newport County of the Rhode Island Society for the Prevention of Cruelty to Children. He comes here to resume the work carried on for several years by Captain Allen C. Griffin, who resigned several months ago.

TO TEST LEGALITY OF N. H. FIN. COM.

Manchester, N. H., July 8.—According to reliable information, Ex-Hall, the matter of the constitutionality of the finance commission, to whom, under the law, has been conferred the veto power on appropriations formerly vested in the Mayor, will be tested in the courts.

MILLIONS LOST IN RED CROSS DEALS

Stores Sold in Two Months of 1920 at 6,970,745 Francs Below Cost

New York, July 8.—Continued losses on an amazing scale in the Red Cross bureaus of stores through sales of merchandise to speculators are shown in the New York American-to-day.

The figures include the month of February, 1920, and are taken from official copies of the Red Cross records. These are the chief developments:

1—Whereas the Red Cross sales for January showed a loss of 4,284,503.80 francs, the February figures described a loss of 2,686,241.40 francs.

2—The Red Cross paid 17,264,382.19 francs for goods that they disposed of to brokers for 10,293,637.10 francs in two months, January and February, 1920, in Europe.

3—Although the Red Cross found it "necessary" to sell cigarettes and tobacco to soldiers and sailors in a majority of cases, a report of June 1, 1920, showed that there were on hand more than 13,000,000 boxes of cigarettes, 100 cigarettes to the box.

AMAZING LOSSES CONTINUE.

The figures for the month of January, 1920, combined with those published today, show that Red Cross sales were made to private firms at a loss of 6,270,745 francs for the first two months of the year. Whereas Nelson Mills of the bureau of foreign transports has written a letter pleading with Colonel Robert H. Olds, commissioner of Europe, to take steps to check the enormous losses, the February figures indicate that the amazing drain continued in February.

Today's figures are taken from a Red Cross report under the heading, "Exhibit D, Sheet 5." Up to the time this report was filed in February, it is stated in the document, the grand total of supplies disbursed in Europe "to date" was 25,385,167.70 francs.

Sales of merchandise under the heading of "general stores," including fabrics of various sorts, shawls, pillow cases, sheeting, yarn, children's clothing, towels, blankets, groceries, tobacco, sweaters and many other articles, for the month of February, 1920, involved a loss of 2,686,241.40 francs. Goods that cost the Red Cross 5,275,615.65 francs were sold to speculators for 2,589,374.25.

HAD TO BUY CIGARETTES.

On "Army Supplies" and on the "Paris Fund Account," the Red Cross figures check one against the other, the organization "breaking even" on those figures. They show supplies cost 1,358,169.29 and the sale price was the same. The "real account" was 11,381.50. Hence the entire loss incurred in February sales were on sales to general stores to brokers.

The story of a wounded veteran, makes figure on cigarettes, taken from Red Cross records of interest. This man, Harold Kaigan of No. 1099 Dumont avenue, East New York, lost his right leg in the Argonne offensive. He was also gassed at Chateau Thierry. He said:

"I had both my good legs in September when I stepped up to a Red Cross canteen at Arlieane, France. I asked permission to get some cigarettes. I was told I would have to pay for them, but as that was usually understood by the boys trying to get Red Cross cigarettes, I said that was alright. I knew, and other men knew, that few Red Cross cigarettes were given away, the Knights of Columbus were the ones ones who ever gave their cigarettes away freely.

MILLIONS ON HAND

"I told them—it was on September 15—that I wanted to buy as many as possible, for I didn't think I would get out for a month or more. They told me I could buy only half a package, and that cigarettes were low. I bought half a pack for ten cents. On October 1, 1918, I was wounded, my right leg being carried away. I wanted cigarettes badly, but owing to the fact that my half a pack had long ago gone, I didn't have any. I didn't get any cigarettes until I hit the hospital, no matter what the Red Cross may say about their giving them away."

In view of the above statement, it is of significance that the Red Cross stores reported on June 1, 1920, that they had on hand:

One million boxes of one brand of cigarettes, 1,153,152 boxes of another, 820,000 of another, 1,008,000 boxes of another, 1,800,000 boxes of another, 6,460,000 boxes of another, and 2,700,000 boxes of another, each box containing 100 cigarettes.

More than 2,500,000 pieces of chewing tobacco and sacks of smoking tobacco were represented "on hand" in the same report.

ASPIRIN

Name "Bayer" on Genuine

BAYER

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

Malden Girl's Love Suit Is Ridiculed by Rival

Miss Mary C. Maher, choir singer, who sued John J. Butler, former football star, for $20,000 for alleged breach of promise.

Somersworth, N. H., July 8.— Mary Frances Murphy, the cause belli in the heart balm suit for $20,000 brought by Mary C. Maher, the Malden, Mass., choir singer, against John J. Butler, former Malden High and Catholic University football star, declares that the threatened litigation will not disarrange the plans she has made for her wedding.

She sympathizes, she says, with the girl who loved and lost, but her sympathy will not allow her to give up the man she has promised to marry.

Miss Murphy, a cultured and refined young woman, declares that the love affair between Butler and the girl who is suing for breach of promise, was ended a long time before she became engaged to him.

"Miss Maher is nothing to him today but a good friend," she stated. "The engagement between them was broken in the regular way. That was all there was to it. Miss Maher's suit is ridiculous."

"One can love and then stop loving, you know. If one decides that his first love is a mistake, then one does not have to continue with the mistake," in the philosophical way in which the attractive young school teacher explains her fiance's change of heart.

"Mr. Butler is an honorable young man," she continued. "He has nothing to fear from the suit. His intentions and motives are of the highest. He never would do anything to injure anyone."

Miss Murphy admitted her engagement to the popular Malden young man, but would not tell the date of their coming marriage. According to her Somersworth friends, it is to take place sometime in the early Spring.

Her engagement was announced publicly in March. Since then Mr. Butler has been a constant visitor to the Murphy home at No. 37 Mount Auburn street.

The "other woman in the case" although admitting that she was "comfortably wealthy" in her own right, denies that the Massachusetts athlete had thrown up his former fiances so that he could "marry money."

"Mr. Butler is not that kind of a man," she said. "He is far too honorable."

Miss Murphy is one of the best known young women of this city. She is a graduate of the local high school and of the New Hampshire College at Durham. At college she was one of the most popular co-eds, prominent in the social and athletic life of the school and a member of the Chi Omega fraternity.

VAHEY'S SON HELD ON AUTO CHARGE

New Bedford, July 8.—Charged with drunkenness and with operating an automobile while under the influence of liquor, James H. Vahey, Jr., twenty-one-year-old son of the Boston attorney, was arraigned in district court here and the case continued until next Thursday. With young Vahey was Horace Schermerhorn of Watertown, charged with drunkenness. Patrolman Bennett, who arrested the party, testified that he was forced to fire two shots before Vahey, who was driving the car through Wareham late Saturday night, brought the car to a stop.

WOMAN SHOT WHILE EXAMINING GUN

Pittsfield, July 8.—Mrs. Mary Sparks, fifty years old, wife of William M. Sparks of Berry street, Hackensack, N. J., is at the Mercy Hospital in this city, suffering from a bullet wound in the right breast. She was inspecting a revolver last night at midnight in the Stockbridge home of Mr. and Mrs. Chauncey Bradley when it was accidentally discharged. The bullet penetrated deeply, but was deflected by a rib. It was removed today and Mrs. Sparks will recover. The gun had been used on Independence Day by Mrs. Sparks' grandson.

CHURCH LEFT MOST IN $100,000 WILL

Burlington, Vt., July 8.—The will of Mrs. Sarah Shaw, allowed in Probate Court, leaves an estate of more than $100,000. After making a few public bequests, the residue goes to the First Congregational Church of this city. She has one son living in Philadelphia, for whom no provision is made.

MORGAN HEADS BEVERLY G. A. R.

William M. Morgan of Beverly was elected commander of Post 89 G. A. R. and president of the association at the reunion of the First Heavy Artillery at Grand Army Hall, Beverly. Ex-Mayor James McPherson of Beverly entertained the guests at the Ware Theatre following the luncheon.

WELCOMES WAR VETS TO BEVERLY

Former Mayor James McPherson of Beverly delivered the address of welcome t. the surviving members of the 1st Massachusetts Heavy Artillery at their fifty-third anniversary reunion in G. A. R. Hall, Beverly. Dinner was served by the Relief Corps of Beverly and the gathering was entertained at the Ware Theatre. The election of officers resulted as follows: President, William H. Morgan of Beverly; vice-presidents, Charles H. Sisson of Cambridge and John Gibson of Clinton; secretary-treasurer, S. B. Dearborn of Wakefield.

LODGE SAYS HE WILL VOTE FOR BONUS

John H. Holland, legislative chairman of the Massachusetts Department of the American Legion, has received ford from Senator Lodge that he will vote for the veterns' bonus bill now pending in the Senate.

FINAL CHANCE FOR ENTERING SONG TEST

Only Republication of Back Pictures Will Be Next Wednesday and Thursday

Readers of the Boston American who desire to take part in the $6,000 Songs of the World Title Test and compete for the 220 cash awards to be paid to title-finders are again advised that on Wednesday and Thursday of next week this newspaper will reprint Test Pictures Nos. 6 to 25, inclusive, together with the necessary List of Titles.

This will be your one and only opportunity to:

1—Enter the Test at a late hour on equal terms with those who have followed it from the beginning.

2—Secure Back Pictures to take the place of those which have been lost, mislaid, torn or missed.

All Back Pictures, Nos. 6 to 25, on Wednesday and Thursday of next week.

MOST POPULAR TEST.

The $6,000 Songs of the World Title Test already has proved to be the most interesting and popular ever promoted by the Boston American. Thousands are taking part in it. These are the 220 cash awards which will be paid to title finders:

ONE FIRST AWARD	$1,000
ONE SECOND AWARD	1,000
ONE THIRD AWARD	750
ONE FOURTH AWARD	500
ONE FIFTH AWARD	400
ONE SIXTH AWARD	300
ONE SEVENTH AWARD	200
ONE EIGHTH AWARD	150
ONE NINTH AWARD	100
ONE TENTH AWARD	50
100 AWARDS OF $10 EACH	1,000
110 AWARDS OF $5 EACH	550
Total	6,000

Today's Test Picture is No. 26.

The Correct Title of this picture will be found in today's List of Titles. ONE title there is the title of picture better than any other title in the list. The title which fits best is the Correct Title.

SUCCESS IN WINNING.

Success in the Test, the winning of $1,000 or $5, or $10, or other awards depends entirely upon your ability to find and write a large number of Correct Titles. According to the artist it is possible to find and write sixty Correct Titles. He, however, does not believe any participant will have a perfect score. No matter what the highest number of Correct Titles the Boston American will pay the 220 cash awards to those who make the best scoring.

If you enter this Test, please remember that you are taking part in a contest. On certain days, the artist will do his level best to lead you astray. On other occasions, finding and writing the Correct Title will be no "easy" that after you have written it on the title line you may worry lest you have selected a title that was altogether "too easy." This, too, is part of the game.

There is $6,000 to be given away to readers of the Boston American in the mid-summer. No other purpose animates the newspaper in the Test than to furnish mid-summer entertainment as the playbills say, an "extra added feature." If, however, fifty participants should turn fifty Correct Titles apiece in the Test Editor might be faced with the necessity of paying out ten times the amount of the $6,000 appropriation. Artist and Editor, working together, will endeavor to make the Test difficult enough to avoid that issue.

ONLY ABILITY COUNTS.

The 220 awards will be paid without question to those who earn them, having in mind, of course, the Rules of the Test. The successful 220 readers may reside in 220 New England and Canadian cities and villages. Or they all may reside on one street in Boston, Bangor or Brockton! Geography will not enter into the matter. Nothing will count except your ability to find and write Correct Titles.

Many things will combine to cause an unusual demand for the Boston American on Wednesday and Thursday of next week, when the Back Pictures will be printed. For one thing, there will be the James B. Connolly reports, on conditions in Ireland.

Avoid disappointment! Tell Mr. Newsdealer, NOW, that you must have the Boston American on Wednesday and Thursday of next week. Midway in the $6,000 Song Title Test, you will be presented with the Back Pictures and the titles that go with them.

MOVE TO PREVENT DEPORTATION OF 3

A petition of habeas corpus to prevent the proposed deportation of Antonio Revalli, Sebastino Revalli and Agata Stella has been filed by their counsel in the United States District Court. They arrived June 2 and a special inquiry board ruled they were under contract and should be deported.

RAPS OIL DUTY AS MENACE TO PUBLIC

Mayor Walter M. Creamer of Lynn has sent letters to all Massachusetts congressmen asking them to oppose the proposed duty on Mexican crude oil. He says a duty on oil will throw consumers into "the clutches of the coal operators."

COSTS ONLY 50c BUT MY, HOW POSLAM HEALS!

A hundred dollars couldn't buy the perfect relief the first few days you use Poslam brings to itching, inflamed, eczema-tortured skin. Try a box of this skin-healing Poslam costs but 50c.

Poslam is so concentrated and acts so quickly that a little goes a long way. Has its medication is so gentle that it cannot irritate the most delicate or inflamed skin. Eczema, rashes, scaly troubles, pimples—they simply cannot resist Poslam. 50c. before the war, 50c. during the war, 50c. now—at every druggists. For sample free, write to POSLAM, 243 W. 47th St., New York.

RULES OF SONG TITLE TEST.

The Boston American Songs of the World Title Test is open to all readers of the Boston American, irrespective of age, living in any city or town in New England or Canada.

Two hundred and twenty cash awards will be given by this newspaper to its readers who submit the largest percentage of correct titles to the pictures to be published one week from today in the Sunday issues of the Boston American.

All employees of the Boston American and their families are absolutely barred from participating in the awards.

The test will consist of 20 pictures, each representing the title of a well-known song, to be printed one each day in the Boston American, from Monday to Saturday, June 20 to June 25, inclusive, and on Wednesday, June 29.

Participation in any other contest which has been run by the Boston American or which will be run by the Boston American will not debar any person from entering this test.

Every participant or any or all members of a family will be allowed to submit one set of titles, but each set must contain only one list of titles. Any set of titles not legibly printed shall be void. In more than one award shall be given in any one list.

Each and every title must be neatly written or printed on the coupon furnished by the Boston American, or on a page of some book torn by itself, accompanied either by the picture furnished by the Boston American, or a pen or pencil copy thereof, and must have the name, residence, etc., of the participant on each title page.

Do not send your titles in "title" form, i. e., do not write the titles under one another as a song is printed.

In case there are not complete sets of correct titles awarded, the money shall be paid to those submitting the nearest correct solutions, giving credit to skill and judgment.

In case of a tie awards will be made on the basis of neatness, correctness and promptness, but if the tie cannot be decided in that way then duplicate awards of the same size will be given.

Under no circumstances should participants send in their titles before the end of the Test, as any sent in before the last picture is printed will not be considered. KEEP your titles from day to day and at the end of the Test arrange them in numerical order and then send them in all together at one time.

Time will not be a factor in making the awards. The first titles sent in after the Test closes will stand on better than the last received.

All titles must be delivered to the Boston American title headquarters, at No. 30 Summer street, Boston 9, Mass., either by mail or in person within the specified time limit which will be announced later.

All envelopes or packages containing titles must be legibly addressed as follows: "Song Title Editor, Boston American, Boston 9, Mass." Do not address envelopes to any person connected with the Boston American. Do not send communications to the Boston American Song Title Editor on any matter whatsoever. Write your name and address plainly in the upper left-hand corner.

As the Songs of the Test will contain million or related matter, if mailed, it is allowable to send them under one stamp. Full postage should be prepaid. Titles sent in by mail or by messenger in any manner or form, in connection with this Test, will be received at the Boston American. If participants desire personal replies, they should enclose sufficient postage for such a reply, or they may phone Main 6100 or call in person.

The Boston American reserves the right to make any changes in or addition to these conditions and rules governing the Song Title Test and to make any interpretations of the rules and decisions of the Boston American Song Title Editor on any question which may arise will be absolutely final, and the entry of a participant will be considered as an acceptance of conditions and regulations now made or to be made.

DIAMONDS at Bargain Prices

Healthful Food For Little Folks

Hawaiian *Crushed or Grated* Pineapple

Children are very fond of Hawaiian Crushed or Grated Pineapple served just as it comes from the container. Let them eat as much of this luscious fruit as they like. It is very wholesome and very economical.

For making pies, cakes, tarts, salads, sherbets and desserts of all kinds you will find it most convenient to use Hawaiian Crushed or Grated Pineapple.

Your grocer has it in assorted sizes to meet your needs. Order six or a dozen tins from him today. It will keep perfectly on your pantry shelf.

This is the genuine, sun-ripened Hawaiian Pineapple, picked in its prime and sealed in air-proof containers that same day.

Send for our Recipe Book. It tells you how to make many tempting pineapple dishes.

ASSOCIATION OF HAWAIIAN PINEAPPLE PACKERS
58 East Washington St., Chicago

Pineapple Cake

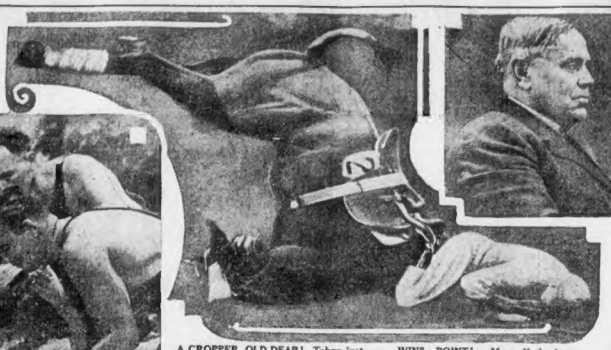
—½ cup butter or butter substitute, 2 cups sugar, 4 eggs beaten separately, 1 cup milk, 2½ cups flour, 4 teaspoons baking powder, ¼ teaspoon flavoring. Cream the butter or butter substitute and sugar and well beaten yolks of eggs. Mix and sift the flour and baking powder and add alternately with the milk. Add the flavoring and fold in the stiffly beaten whites of eggs. Bake in three layers in a moderately hot oven. Put the following Pineapple Filling between and on top of layers.

Pineapple Filling

—1 cup sugar, 1 egg white, ½ cup boiling water, 1 can grated or crushed pineapple. Boil sugar and water together until the syrup threads. Pour gradually on well beaten white. Beat until of right consistency to spread on cake. Drain the juice from the pineapple. Spread the pineapple on the cake, then spread the boiled frosting.

$IXTY MILLION DOLLAR BRIDAL COUPLE NOW ON HONEYMOON

YOU'VE GOT TO HAND IT TO BOSTON! Here is just one of the hands, 10 feet long, that now adorns the big factory clock at the Wrigley Chewing Gum factory, Chicago. Eight of 'em were made in Boston. Fashioned of pine wood. Contrast of girl shows how big the hands are. (U. & U.)



GOING UP! British Colonial Premiers and Parliament members climbing the masthead at Pulham for a trip in the big airship, R-36. No speedy elevators here for the M. P's. (U. & U.)

WELL, WELL! William Jennings Bryan and Bishop W. A. Candler were the central figures at the recent exercises at Emory University, Georgia. (Int.)

A CROPPER, OLD DEAR! Taken just the moment Jockey Canty was thrown from Impressioner in the Tames Steeplechase, England. Had just recovered from broken collarbone. Again injured seriously. (W. W.)

WINS POINT! Mrs. Katherine Kaber, on trial as slayer of husband, aged publisher, has had all women excluded from her jury. Women, she says, are naturally cruel.

Watch Your Step!

SUMMER HINTS! Watch your step when on the beach or in the water. It's easy to drown. Keeping your life is about 99 per cent. common sense. Above, life guards pressing water from lungs of drowning girl. Below, first aid to bather who cut foot on glass. (Key.)

PRODIGY! Early brain development has made Gladys McWharter an authoress at 10. She is in fourth grade of school at Atlanta, Ga. Has had several books published. (U. & U.)

KICKING is one of the best things Norma Pinkus of Roxbury does, particularly if it is on the sands at Nantasket.

JUST BCADS! Arthur C. Morgan, 16-year-old sculptor, models bust of Rosemary Pfeff, 17-year-old singer, of Indiana, whose voice is said to resemble that of Jenny Lind.

JUNE ORANGE BLOSSOMS AND GOLD! They may not look like it, but this young couple will some day possess $60,000,000. Mr. and Mrs. Eldridge F. Johnson now enjoying the perfumed seclusion dus honeymooners.(U. & U.)

LET THE DANCE GO ON! Cries of encore were heard when this charming dancer entertained the Confederate soldiers at Atlanta, Ga. This old chap experienced more thrills than he did at the Battle of Bull Run.

'S TOO MUCH! That's what Arthur Johnson of Los Angeles says. A mere $18 for a permanent wave is not too much, says Mrs. Johnson.

SPEEDING DEATH! Here is a miniature of what is believed to be the most effective gun ever invented. Has muzzle velocity of from one to five miles a second. Expected to fire five-ton projectile 300 miles. Makes no noise. (W. W.)

SPLASH ME, DEAR, I'M WATERPROOF! These three young ladies (don't forget Miss Kewpie) were the magnets to which the big throng of sightseers at Balboa Beach, Cal., were attracted during the recent bathing suit parade. Left, Katherine Grant and India Hughes, both movie actresses and prize winners. Wear the winning sea suits. Miss Kewpie is wearing a very abbreviated, but attractive, bathing affair. (Int.)

SPREADING STRAW! Mrs. Esmond O'Brien, New York society girl, one of the reasons why Southampton, L. I., is a popular resort this season. (Int.)

SUPERSTITION! In order that they might enjoy good luck, a tiny black kitten paraded down the walk at the marriage of Major Gwilym Lloyd George, son of England's Prime Minister, to Miss Edna Jones at London. (U. & U.)

EMICHETTE Frankenstein of Roma, who weds Prince of Palestrina.

WHY HUSBANDS GO WILD! This evening gown, ladies, will set you back just $12,000. Designed in Paris and is fashioned of gossip silver threads (K. & H.)

BRITONS' BEST FOR BIG MEET

VISITORS ALREADY ON WAY

Combined Teams of Harvard and Yale Have Hard Task on Hand

The Johnny Bulls from across the briny who are to wear the colors of Cambridge and Oxford in an international track meet against Harvard and Yale on July 23, have a fine chance to cop the title, breaking the deadlock, as both combined teams have already won two meets apiece.

The Britons are sending a very strong team across the water. The men are already on their way, and full of confidence. In addition to facing Harvard and Yale, the visitors will take on a combined Cornell-Princeton team at Travers Island, New York, about a week later.

* * *

The Cambridge-Oxford team possesses much seasoned material. Captain B. D. G. Rudd of Oxford is a performer of Olympic fame, having won the 400 metres race at Antwerp last year. G. M. Butler also is a star performer, being second at the Olympic games in the same event. A number of other veterans are coming across to help wrest away honors from the American collegians.

* * *

Rudd isn't running to form if dispatches can be believed. In the British championships Saturday he was forced into second place in both the 440 and 880, and in each case the winner did slower time than Rudd has done on previous occasions. In 1920 he captured both titles. The Oxford star's best time in the quarter has been 48 2-5 seconds, and in the half 1 minute 52 seconds. Butler, who is to run the 100 as well, defeated Rudd in the Cambridge-Oxford dual meet several months ago. A year ago the pair ran a dead heat, so the two men are nearly equal in speed.

* * *

H. B. Stallard, the veteran Cambridge miler, who has been improving right along, was near the peak of his form Saturday in the mile run at the British championships, which A. G. Hill, the Olympic champion over the 800 and 1,500-metres distances, won in the sensational time of 4 minutes 13 4-5 seconds. According to cablegrams giving an account of the meet, Stallard, who has won the event in two successive Cambridge-Oxford dual meets, finished a hare yard behind Hill, which at that would give him a mark many seconds faster than any member of the Harvard-Yale team has shown.

* * *

F. R. Milligan of Oxford is the second British miler with the team. So in the light of Stallard's showing it appears that Cambridge will again have the honor of winding the mile, at which distances its representatives have never been beaten since the American universities faced their foreign foe.

SAUCE AND SASS

By CHARLES E. PARKER.

A LOWBROW.

He's just a purp—full twenty strains
Of unknown breeds flow through his veins,
While scars from scores of fierce campaigns now mar his tawny hide;
Two years ago—or p'haps 'twas three—
This purp, sans name, sans pedigree,
For some strange reason followed me—it seemed, almost with pride.

A kindly word I spoke to him—
He wagged reply with dog-like vim
And offered me a friendly limb to shake or cast aside—
I'm unfamiliar with dog law,
But when I grasped his outstretched paw
It seemed I sealed a bargain, for he's never left my side.

My neighbors suffered quite a shock—
They all go in for blooded stock,
And thought I'd picked this purp to mock their choices, or to chide;
But 'fore a week had come and gone
He'd save the life of Jones' Pom
And chased a yegg from Smithson's lawn, with none to help or guide.

They've since forgot his doubtful birth—
They grant there is a striking dearth
In dogs of his outstanding worth—'tho' once they would deride;
And yet they but his surface know—
It's when my world seems steeped in woe
He—knowing—makes the bright side show 'till joy is vivified.

Salaries of 'Scandal Sox' Ran From $3,000 Up to $7,250

Chicago, July 8.—The real salaries of the former White Sox accused of "throwing" the 1919 World Series were made public today for the first time. They ranged from $3,000 to $7,250 per season in 1919, when, it is alleged, the men conspired to defeat their own team and play into the hands of gamblers.

The figures were made public because the prosecution understood the defence would try to prove that the players were not high salaried men. Here are the figures:

Buck Weaver, $7,250 in salary, plus $419.38 for the series.

Joe Jackson, $6,000 in salary, plus $419.38 for the series.

Fred McMullin, $5,000 in salary, plus $149.04 for the series.

Oscar (Happy) Felsch, $4,287 in salary and $214.35 for the series.

Eddie Cicotte, pitcher, $5,712 in salary, plus $2,000 as his bonus in the series. It is alleged, he bolted to "throw." He also got $285.75 wages for his work in the series.

Claude Williams, $4,500 in salary and bonuses amounting to $375.

Chick Gandil, about $4,000 in salary.

Most of these men had been engaged at higher salaries for 1920 when the 1919 scandal broke over their heads and they were suspended from organized baseball.

The work of selecting jurors goes slowly on. Each talesman is subjected to searching cross-examination.

Among the witnesses may be Ty Cobb, Eddie Collins, John Collins, now with the Boston Red Sox; Harry Heilman, Red Faber, Harry Liebold, Eddie Murphy and Clarence Rowland, all of whom are character witnesses for the defence, presumably.

Attorneys for the defence, it was indicated, will endeavor to show that in 1917, after the White Sox had clinched the pennant in the American league, which was fighting the New York Yankees for second place, suddenly captured a whole series from the Sox.

The Yanks charged that the series had been "handed" Detroit to make second place certain for the Tigers.

This series is now brought up by the defence with the connotation that if the "Black Sox" are guilty, they learned how to take games from persons higher up.

Henry A. Berger, attorney for several of the defendants, indicated that members of the White Sox and Tigers, of 1917, might be called and questioned regarding the possibility that the alleged faking was done with the cognizance of the club managements.

Four jurors had been accepted when trial of the case was resumed today.

Says Carp Weighed But 170 1-2

New York, July 8.—Georges Carpentier, who got his first glimpse of the moving pictures of his recent ring combat with Jack Dempsey, sat quietly, intensely interested, his gaze directed uninterruptedly at the screen before him. At times he moved involuntarily forward a bit, as if the better to secure a view of the picture. Not once did his face lose its studious, deeply interested look.

Little Descamps was the nearest approach to the popular conception of the wild-eyed movie fan in the party. "You see," he said, "even the picture shows Dempsey is much bigger than Georges. Dempsey weigh 192 or 193 pounds. Georges, he weigh 170½ pounds, not 172. At least twenty pounds different. You can see he was too big, too powerful for my Georges."

YALE AND HARVARD WORK IN STADIUM

Yale had a real workout on the Stadium track preparatory to the international meet which the Elis will stage with Harvard against the combined Oxford-Cambridge team here July 23.

After the proteges of Coach Johnny Mack had gone through their paces Head Coach "Bill" Bingham and Eddie Farrell brought out Captain "Denny" O'Connell, "Tarzan" Tolbert and Fiske Brown for practice. Although the Crimson leader is suffering with a sore thigh, he jogged around the oval for a mile and then went into the locker building.

The American coaches are giving a lot of attention to the Dorchester flier, for he will have to run the race of his life to hold Stallard, the track Britisher, who is coming over with the Oxford team. Stallard was but three yards behind Hill last Saturday over in England when that wizard breezed through the mile in 4 minutes, 13 4-5 seconds, the fastest time that has been made in actual competition.

CARMAN CONFIDENT OF BEATING SERES

Confident that he can repeat, Clarence Carman, who is riding at a dizzy pace, has consented to meet Georges Seres, world's champion, in a special series behind motors tomorrow night at the Revere Cycle Track. Carman defeated Seres, Wiley and Madonna Wednesday night in a four-cornered race and came within a mile of equalling the world's record for the hour grind.

Carman and Seres will race in heats. The first will be ten miles and the second will be fifteen miles. Should each win a heat the third and deciding one will be ten miles.

CLINTON TRAINING FOR CHANEY BOUT

Johnny Clinton, New England lightweight champion, has started training for his eight-round bout with K. O. George Chaney which will be staged at Shibe Park, Philadelphia, next Wednesday night. Clinton has been guaranteed $1,500 for his services.

Ring Results

At New York—Eddie Anderson, Brooklyn, won a decision over Midget Smith in twelve rounds.

Sammy Siger won a judges' decision over Mickey Brown in ten rounds.

Frankie Jerome and Abe Goldstein fought a ten-round draw.

Johnny Murray and Lieut. Earl Baird fought a ten-round draw.

FUTURE GREATS BACK LANDIS IN CLEANUP

Appeal to Bar Expelled Big Leaguers Meets With Ready Response

By Hugh S. Fullerton

Judge Landis's appeal to the amateur and semi-pro clubs of the United States and the quick response from the great majority is one of the most promising signs of the opinion of players and fans of the players who have disgraced the sport.

Neither Judge Landis nor organized baseball has any power over the independent clubs of the United States, so his appeal to them to refuse to play against players expelled by the big leagues could be only a request, even though it was accompanied by the warning that all players who engage in games with such players will be in disgrace in the future.

The response was immediate. The disgraced Chicago White Sox, backed by a lawyer, planned to play the semi-pro teams around Chicago. One team, thinking more of public money than of the good name of the game, agreed to play.

Immediately a protest came from all parts of Chicago. The club controlling the grounds refused to permit it to be used, and the thoughtless team quickly canceled its game. Immediately afterward the park managers, the semi-pro league and the amateur association voted to bar the White Sox from games and from parks.

In Cleveland, the enlarged National Federation, which is the governing body of amateur and semi-pro baseball, adopted strong resolutions forbidding any team to engage in games with or against any of the suspended players.

Chase and the disgraced Californians are barred—Jackson, but second New York Zimmerman is playing, and one semi-pro manager has been actively trying to attend games for the suspended White Sox.

BUCK WEAVER'S STRANGE STAND.

The quick action of the amateurs and semi-pros in supporting Judge Landis leaves no doubt as to the sentiment of baseball toward the men.

There is no desire to find them guilty, as charged, before they are tried, but there is a strong feeling that until they prove themselves innocent they are acting in bad taste and shadowing by striving to capitalize their disgrace by playing.

The attitude of Buck Weaver, one of the accused in court, who now denies that he was guilty, He admitted knowledge of the fraud to be perpetrated upon the public, but declared he refused to enter into the conspiracy.

In other words, he claimed personal innocence and his utility and that the others were crooked. Yet he is carded to play ball with them—which no less than a case look bad.

The attitude of the players shows that they do not, even yet, realize the enormity of the offence they are charged with committing.

In fact, they think so lightly of the public's sense of morality that one of them boasted recently in Chicago that they would suddenly start transforming his season than Comiskey would have paid them.

They now are pounds for a perfectly good suit against organized baseball, on the charge of conspiring to deprive them, of means of livelihood—and the odds are 4 to 1 they never will dare to press such a suit.

NEW MOVE TO CURB HOLDOUT.

Judge Landis has taken the bull by both horns, and issued an ultimatum which may correct one of the biggest evils in baseball—the holdout.

He has ruled that any player who fails to report to his team within ten days after the start of the season is automatically suspended, and can be reinstated only by application to him.

The holdout has become a serious menace to organized baseball this year. More "stars" have held out than in many seasons. The demands the players are said to have made were preposterous.

But what evidence, beyond the unofficial statements emanating from the clubs, have we that the players demand those sums?

There is a case which aroused my suspicion. A prominent player has declared to have demanded $15,000 for his season's work. He was worth not more than $10,000 to his club. I discovered by accident that he never demanded $15,000.

He made two suggestions as to salary; one that he be paid $7,500 and a bonus. Another that he be paid $5,500 and a bonus, provided he wins as many games this season as he did last—a sporting proposition.

He made a blunder in not notifying every sporting writer in his district exactly what his demands were just as soon as his club stated he demanded $15,000.

Had he done this he would have won public sympathy. As it was he was treated as a holdup man, although the only way his club could figure his demand at $15,000 was by adding his salary to his bonus and then adding what he might possibly get from a world series.

BASEBALL NOTES

Ray Schmandt's home run in the tenth inning broke up the Giants-Dodgers battle and the slipping Giants slipped a bit farther.

* * *

The Tigers grabbed a brace of victories off Chicago, clouting Kid Gleason's pitchers for total of 21 singles.

* * *

Babe Ruth and company stopped over at Pittsburgh long enough to please 20,000 by losing to the Pirates in an exhibition game.

* * *

With Moore pitching nice ball, the tail-end Mackmen routed the Indians in the first game of their series in the Forest City.

* * *

Joe Oeschger held the Reds in check, while the Braves hammered Donohue, Marquard and Napier.

* * *

Twenty hits off George Smith enabled the Cardinals to wallop the

GUILFORD, OUIMET, AULBACH AND CHASE GOLF MATCH WINNERS

QUINLAN LOSES BY STROKE

Scarboro Youngster Beaten Out on Home Green by Woodland Star

By Robert E. Harlow

Country Club, Worcester, July 8.—Billy Quinlan, the Scarboro youngster, carried Jess Guilford to the home green today in one of the greatest golf matches ever played in a Massachusetts amateur championship.

The Woodland crack had to sink a five-foot putt for a birdie three on the home green in order to win. They faced the home hole all even, after a game display of golf by Quinlan from the first tee to the last shot.

Jesse hit one of his best drives to the eighteenth, being but forty yards short of the green. Billy drove well, but was 100 yards shy.

The Scarboro lad put his second hole high and on the edge, fifteen feet from the cup. Guilford hit a nice chip to within five feet.

QuQuinlan putted well, the ball rolling to the edge of the cup, where it stopped. Jesse conceded QuQuinlan a four and then set himself for his putt. He needed the putt to win. He holed it.

The cards:

Guilford	4 5 5 3 4 4 3 5 5—38 5 5 4 4 4 5 4 5 3—37	—75
Quinlan	4 5 5 4 4 3 4 5 5—37 4 4 5 4 5 4 5 4 4—39	—76

Results of other matches:

George Aulbach, Scarboro, beat Billy Whitcomb, Worcester, 5 and 3.

Francis Ouimet, Woodland beat George Gillespie, Worcester, 5 and 4.

Perley Chase, Winchester, beat Durham Jones Brae Burn, 2 and 1.

EVANS TO DEFEND WESTERN TITLE

It was learned yesterday that Chick Evans, national amateur golf champion, who was forced to quit in the British open championship on account of an injury to his wrist, received before the opening day at St. Andrews, has entirely recovered and will defend his title in the Western amateur tournament, which opens at Chicago on Tuesday. Evans, who went to Chicago immediately upon his return from Europe, will also defend his honors in the national amateur championship at St. Louis.

OFFER CARP $75,000 TO MEET WINNER

New York, July 8.— The Boxing Drome A. A., which conducts the huge open air arena in the Bronx, offered Georges Carpentier a guarantee of $75,000 to box the winner of the Bob Martin and Frank Moran contest to be held next Tuesday night, July 12. The offer is for fifteen rounds to a decision, the contest to take place on any date which the Frenchman may select.

SHEVLIN MAY BOX LATZO JULY 19

Eddie Shevlin of Roxbury, recent conqueror of Young Kirby, may battle Steve Latzo under the direction of the Armory A. on July 19. Billy Henderson stated today that he had received an offer for Shevlin's services for a tussle with Latzo. He is also considering several bids for a Doyle-Sheflin contest.

ORANGE READY FOR BOSTON SCHOOLBOYS

Orange, July 8.—Orange High will line its lineup on the Orange grounds tomorrow afternoon when this crack team will endeavor to take a fall out of the All-Scholastic baseball team of Boston. Davis, conceded to be one of the best high school pitchers ever developed in this section, will pitch for Orange, and Fuller will be behind the bat.

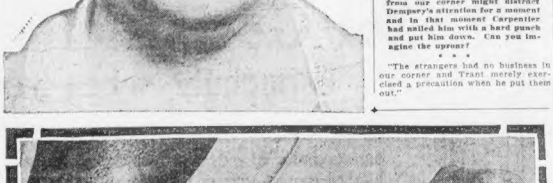
CONCORD JUNCTION BEATS STONEHAM

The Concord Junction nine defeated the Stoneham Town Team, 2 to 0, in a seven-inning twilight contest at Concord Junction.

Vultures Beaten

The Revere Tigers defeated the South Boston Vultures, 4 to 2, at Revere.

Tom Gibbons, Next in Line for Carpentier Bout



The St. Paul battler, like the French champion, has a happy smile, both in and out of the ring. He also carries a wicked right, which he says will eventually land the world's heavyweight title for him.

KEARNS SCOUTS STORY OF TOWEL

Dempsey's Manager Says He Knew Nothing of Incident Described by Trant

By Sid Mercer

New York, July 8.—The incident of the two strangers being chased out of Champion Jack Dempsey's corner last Saturday by Mike Trant has been the subject of incredulous comment, and the very latest angle to it is furnished by Manager Jack Kearns today.

* * *

"I was right up in the corner of the ring," said Kearns, "and paid no attention to anything but the fight. Barney Dempsey, Joe Benjamin and Mike Trant were back of me.

* * *

"Possibly Mike was wrong in his deduction that the two fellows he spoke of were up to some monkey business, but he had orders to watch everybody.

* * *

"We were prepared for anything. It was not that we feared trickery from our opponents, but you know there was a lot of betting and talk of a ringside demonstration against Dempsey.

"A towel tossed into the ring from our corner might distract Dempsey's attention for a moment and in that moment Carpentier had nailed him with a hard punch and put him down. Can you imagine the uproar?

* * *

"The strangers had no business in our corner and Trant merely exercised a precaution when he put them out."

ST. JOHN'S K. OF C. TO PLAY STANDISH

St. John's K. of C., semi-pro champions of the State last year, will clash with the fast Standish Club of Dorchester at Thorndike Field, East Cambridge, Sunday afternoon, at 3:15 p. m. Al Davidson, ex-Baltimore pitcher, who also won twenty-two straight games for St. John's last year, will again toe the mound. The lineups:

ST. JOHN'S K. C.	STANDISH.
Herlihy, ss.	Mooney, ss.
Hartnett, 2b.	Rice, 1 f.
Heaney, 3b.	Lavin, 1b.
Walsh, 1b.	Lofrus, 1 f.
Quigley, 1 f.	Croke, c.
Sweeney, c f.	Hynes, s.l.
Smith, c.f.	Hood, 2b.
Nolan, c.	Callahan, c.f.
Al. Davidson, p.	Rich, p.

TENNIS IS BACK IN SPOTLIGHT ONCE MORE

Mlle. Lenglen, French Champion, to Show Here Two Months of Play

Tennis, which has been rather quiet during the orgy of Spring sport, now takes the spotlight. The big tournaments of this month and next and the selection of the Davis Cup defending team have reawakened interest in the sport.

The coming of the French champion, Mlle. Lenglen, is of chief interest, and her performances in this country will be closely watched.

The recent poor showing of the American players in Europe leads to the idea that some of them have overplayed themselves and gone sadly out of condition.

Meantime the return of the American golfers from Europe, bringing good and bad tidings from the golfing field, has started golf off again.

The returning Americans, who were overwhelmed in both the amateur and the women's championships, offer no alibis, save that they state that the conditions under which amateurs play in British events afford too much scope for luck to enter into the results.

As one remarked: "Never again for me while they play eighteen-hole rounds."

Plainly American golfers do not consider eighteen holes competition morning and afternoon a fair test, and they argue that the results, independent of the failure of themselves, prove this point.

They claim that luck is too great an element and that the thirty-six holes is a much better test. They show, to prove their point, that of the first twenty in the British open nineteen were golfers who figured to finish among the leaders, while in the amateur not one of the leading players was expected to come through.

COLLYER'S SELECTIONS

AT LATONIA

1—Botheration, Humphrey, Royal Dick.

2—Salamander, Commander Colin, Frank Boyd.

3—Cho Cho, H. E. Coleman, Russaf.

4—Young Adam, Pollo, Arravan.

5—Believe Idle Hour, Jones entry, High Cost.

6—Bernice K., Little Polly, Hold Me.

7—Blanche Mac, Ace, Cut Up.

AT FORT ERIE

1—Pepper Tea, Aunt Agnes, Loveliest.

2—The Trump, Phantom Fair, Kamo.

3—Fanatic, Humorist, Thornelike entry.

6—Collings, 27th Division, Philosopher.

CAMBRIDGE LATIN PASSES UP HOULTON

Cambridge Latin, champions of New England, will not play the Houlton High team of Houlton, Me. This statement comes from Faculty Manager Branhall, who has declined the trip.

TOM O'ROURKE QUITS AS FIGHT MANAGER

New York, July 8.—Tom O'Rourke, the veteran fight manager and promotor, has given up the boxing game and intends to go into the real estate business, having turned all his fighters over to Jim Buckley.

Ducking Lawyers Jack's Chief Job

Chicago, July 8.—Jack Dempsey left for Salt Lake City. He may close a deal for the sale of his country home near there, valued at $50,000, which is desired by the Governor of the State for a home.

"This job of being champion of the world is not all roses," confided Dempsey. "After the fight with Carpentier I had to skip, and when I got aboard a Pullman in New York to come West I had only one suit of clothes and no tooth brush."

Asked the reason for the hurry, Dempsey replied:

"Why, those lawyers East made me run; something Carpentier could not do."

CASEY TEAMS TO PLAY AT WALTHAM

Waltham K. of C. baseball team, which is travelling along at a speedy clip these days, will take on Needham K. of C. team next Saturday afternoon at the Athletic Field, Waltham, at 3 p. m. These teams have already met, Waltham winning after 14 innings, so the Witch City Caseys are out to add another victory to their list. Batters for Waltham will be: Bowers or Hanney, pitcher, and Doucette catcher.

AMHERST COACH TO MANAGE SYRACUSE

Syracuse, N. Y., July 8.—Fred Jacklitsch, coach of the Amherst baseball team, is slated to succeed Tommy Madden as manager of the Syracuse club of the International League, it was reported today. Madden, whose handling of the Stars has brought criticism from Syracuse fans, will be released by Owner Ernest Landgraf by Saturday.

HARMONY REIGNS AT WIGWAM

Recent Mixup Between Players Merely Result of Excitement Over Defeat

By NICK FLATLEY

All is serene and peaceful in the ranks of the Braves, according to Manager Mitchell, who announces that the club hasn't thought of winning any pennants yet. The players, according to Mitch, are satisfied to win from day to day, and are breaking their backs to make every after-noon a victory one.

"That's the kind of spirit," declares our new Miracle Man, "that will go a long way in this race, where the clubs fighting are so even that a little thing will decide the result. The team that never lets up will get ahead of the club that eases under the strain now and then.

"The Braves never quit, and by keeping at it have pulled out several games that seemed hopelessly lost. And about a dozen of those in a campaign will mean a place right around the top at the finish."

The squabble over in Philadelphia, the athletes, was merely one of those little things that pop up a hundred times a year in close games. The erstwhile combatants were perfectly good friends before they reached the showers.

Players that hate to lose make mean remarks in the heat of conflict, and then forget all about them ten minutes later.

John Scott, who did a lot of pitching out on the road and thereby escaped from the bull pen assignment, was ready to take on the Reds this p. m., with Rixey or Luque in line for the hostile assignment. All the Mitchell pitchers need is a fair feed of stuff, and the Braves' bats do the rest.

Medbury's Column

A toupee is a very handy object to have around the house and it can be used for more things than just a cover for your head in garage.

No man likes to admit that he wears a toupee so he calls it a skull cap.

It's a sort of a one-man top.

If more men would wear them [illegible] patronage a lot of barbers would be out of work.

A strong wind is the cruelest thing a woman knows and if it won't stay on your head with glue get a hammer and nails.

Every man likes a part in his wig, but he doesn't want it combed by the wheels of a street car.

Some of them like wigs which hang down over their foreheads in front of their eyes.

There are [illegible] wigs which will cause [illegible] to [illegible] Court and marriage.

There's only one real hair restorer. Divorce.

A good hair cut and a face lifter can do more for your hair than a pompadour.

Marriage may not have anything to do with it, but you don't see many gray-headed ladies are.

When you get married you promise to give your heart to your wife, but you don't say anything about your hair.

You can also wear it on your chin when you want to take a trip to Russia.

It's a poor head of hair Freda that can't be a board for us.

A good wig can be used by both members of the family. You can wear it one day and your wife can wear it the next day and in the evening.

Whether your hair is real or not, your bitter half has her hands in it most of the time anyway.

There are [illegible] wigs which will cause [illegible] to [illegible] Court and marriage.

There's only one real hair restorer. Divorce.

A good hair cut and a face lifter can do more for your hair than a pompadour.

Marriage may not have anything to do with it, but you don't see many gray-headed ladies are.

When you get married you promise to give your heart to your wife, but you don't say anything about your hair.

You can also wear it on your chin

MAY LIFT BAN ON BIG FIGHT PICTURES

Washington, July 8.—Provided State censorship boards approve, it is possible that the motion pictures of the Dempsey-Carpentier fight may be shown in other States than New Jersey.

There is a Federal law which was passed at the time of the Johnson-Jeffries bout forbidding the interstate transportation of such pictures. While he ventures no opinion with regard to this law, Attorney General Daugherty indicates that if State boards approve and no protests are received by the Department of Justice exhibitions of the pictures would not necessarily be interfered with by governmental authorities.

"I understand that a private showing of the films already has taken place in Washington," Mr. Daugherty added.

LEGION TEAM IN SCORELESS TIE

The Concord nine played an exciting seven-inning scoreless game with the Newton Post, American Legion, on the Concord Centre playground.

WHEN ALL-STARS MEET ALL-STARS

The Olympia All-Stars clash with Billy Kelly's South Boston All Stars at the M street playgrounds Saturday. Manager Caplan of the Olympias has signed up Jimmy Murray, formerly of the Canadian League and Springfield of the Eastern League, and he with Mike Carey, the former Queen Quality catcher, will form the battery for [illegible] pitcher, Jack Berry and Jimmy Gates in right. The game is billed to start [illegible]

PIRATES SET BACK YANKEES, 5 TO 3

Pittsburgh, July 8.—The Pirates defeated the Yankees here today in an exhibition game, Carlson had New York safe [illegible] ninth inning when he was forced at second by Rawlings, a double steal and a sacrifice fly. Ruth was called out on strikes the first time up, filed to Robertson the second time to Carey on his third trip to the plate, while on his fourth time up he struck out viciously. Robertson hit to centre field for a homer in the third inning.

WILSON TO BOX ROBINSON FOR TITLE

Will Defend Laurels in Battle With Cambridge Fighter at Arena A. C. Next Friday

By Jack Conway.

[illegible] It will be Wilson's first Boston start since he wrested the middleweight crown away from Mike O'Dowd at Mechanics Building a year ago last May.

[illegible] The Montreal frolic was staged last January. Robinson created a sensation when he scored two knockdowns. At one point in the tussle he had the champion on the verge of a knockout.

[illegible] Wilson has been training for several days and will be [illegible]

This Day in History—July 8, 1921

THIS is the anniversary of the death, in 1822, of Percy Bysshe Shelley, the Englishman, whose lyrics have placed him high in the role of great poets. He was drowned off the Italian coast when he was only thirty.

Magazine Page

The Red Sea

THE Hebrews called the Red Sea the Yan Suph, or sea of weeds of sedge. The Red Sea is really red, due to a minute bright red plant, a kind of seaweed so small that 25,000,000 can live and thrive within a single cubic inch of water.

Robert W. Chambers' *Famous Story* THE STREETS OF ASCALON *Illustrated by* Charles Dana Gibson

The Story of a Beautiful Girl and the Man for Whom She Made a Great Sacrifice

WHAT HAS HAPPENED.

Mr. Bulkley Ingalls, wealthy idler and spendthrift, but clever and good looking, has fallen desperately in love with Strelsa Leslie. He has had one unfortunate matrimonial experience—a divorce—and is afraid to know Strelsa lest society should misjudge her. Quarren, who meets her first at a masked ball given by Molly Wycherly, wins an hour out of her life on a wager and returns from kissing her, as he tells her he is eager to do. He wins her interest, and obtains permission to call at her home, but tells him there can be nothing serious between them, but she asks him to always think well of her. She likes him and by her long weeks. Upon her return she takes tea with Mrs. Sprowl, who urges her to marry Sir Charles Mallison. She invites Quarren to dine with her alone. She tells him she is not the same woman she was when she went South. He kisses her and awakens her love. She refuses to see him for a month, and a letter he writes is unanswered. Then he meets her at a charity bazaar. Mrs. Sprowl lectures him for dropping out of society. Quarren's bad business deals almost ruin him.

By Robert W. Chambers, Whose Novels Have Won Him International Fame.

AND he bent over the piano, still standing, to hear such a thing accomplishment.

"I sigh for a maiden I never have seen,
Provided she's padded with wads of Long Green!"

Bill singing the air he picked [illegible]

gracefully, his sunken heavy-lidded eyes fixed nonchalantly on space—his nimble little feet making no sound on the floor as he swung, swayed and capered under the electric light, timing his agile steps to his own singing.

Loud applause greeted him; much hand-clapping and cries of "Bill and Dunkmere! Three cheers for the British peerage!"

Sir Charles looked slightly bored, sitting back in his chair and waiting for the noise to recommence. When it did with the return of the Earl, who had now relieved both his wife and his host of an encumbered and troublesome incubus.

If I was a bigger ass than I am," said the Earl, "I'd go into vaudeville and let my creditors howl!"

"But they really need you over here!" asked O'Hara, sensing that his lordship made no bones about it.

"They certainly did. And a fine mess I've made of it, haven't I? No decent young wastrel, no matter why I don't know because I'm decent enough as men go. But your newspapers make fun of me [illegible] and I'm ashamed to run away to Dunkmere Turns and let 'em pick my carcass clean."

"What's Dunkmere Turns?" asked Quarren.

"Mine, except the mortgages on it."

"Entailed?"

"Naturally."

"Keep up?"

"You shut up."

"What sort of a gallery is that of yours at Dunkmere Turns?" inquired Sir Charles, turning around.

"How the devil do I know? Is [illegible] Sir Joshua? He [illegible] Provided she's padded with wads of Long Green!"

Bill singing the air he picked [illegible]

gracefully, his sunken heavy-lidded eyes fixed nonchalantly on space—his nimble little feet making no sound on the floor as he swung, swayed and capered under the electric light, timing his agile steps to his own singing.

Loud applause greeted him; much hand-clapping and cries of "Bill and Dunkmere! Three cheers for the British peerage!"

Sir Charles looked slightly bored, sitting back in his chair and waiting for the noise to recommence. When it did with the return of the Earl, who had now relieved both his wife and his host of an encumbered and troublesome incubus.

"How the devil do I know? I've [illegible] Sir Joshua. He [illegible]

"I don't know anything about pictures.

"Are there not some very valuable ones there?"

"I don't know.

"You don't know their value?"

"No. I don't. But I fancy the good ones were sold off long ago—pawned, I believe. I believe there was a set or a lot of rubbish of mine. I took it for granted that [illegible] couldn't sell everything worth taking."

"Get to 'Em."

"When you go back" said Sir Charles, "invite all the rubbish again! Perhaps Leslie's people overlooked enough to get you out of your financial difficulties. I overlooked that sold for £1,250 twenty years ago; might bring £1,000 pounds now. It's merely a suggestion, Dunkmere. If you'll pardon it."

"And a good one," added O'Hara. "I know a lot of interesting people and they tell me that you can never, any rotten old picture over here for any amount of money. Sling 'em, Dunkmere. Get to 'em!"

"You might send for some of the pictures," said Larry, "and have a shot at the auction-mad amateur. He's too easy."

"And pay duty and storage and gallery hire and auction fees—no, thanks," replied Lord Little Earl, cautiously. "I've burnt my baby fingers too often in schemes."

"I've a hack from behind my [illegible]

"I'm goin'," announced O'Hara.

Quarren drew one card and filed his house. Sir Charles laid aside his useless hand with a smile and turned to Quarren.

"Mrs. Leeds has spoken so often and so pleasantly of you that I have been rather hoping I might some day have the opportunity of knowing you better. I am very glad that the Legation asked me tonight."

Quarren remained absolutely still for a few moments. Then he said:

"Mrs Leeds is very generous in her estimate of me."

"She is a woman of rare qualities."

"Of unusual qualities and rare charm," said Quarren coolly. . . . "I think, Karl, that I'll make it ten more to draw cards. Are you all staying in?"

Before the party broke up—and it was an early one—Lord Dunkmere turned to Quarren.

"I'll drop in at your office, if I may, some morning," he said. "May I?"

"It will give me both pleasure and diversion," said Quarren laughing. "There is not enough business in my office to afford me either. Also you are welcome to send for those pictures and store them in my back parlor until you can find a purchaser."

"It's an idea, isn't it?" mused his lordship. "Now I don't suppose you happen to know anything about such rubbish, do you?—pictures and that sort of bosh?"

"Why—yes—I do, in a way."

"The devil you do! But then I've always been told that you know something about everything."

"Very, very little," said Quarren, laughing. "In an ignorant world knowledge is reverenced. But the fashionable Philistine of yesterday, who used to boast of his ignorance regarding things artistic and intellectual is becoming a little ashamed of his ignorance"——

To Leave Town.

Dankmere, reddening, said bluntly:

"That applies to me; doesn't it?"

"I beg your pardon!—I didn't mean——"

"You're right, anyway. I'm damnably ignorant. . . . See here, Quarren, if I send for some of those pictures of mine, will you give me your opinion like a good fellow before I make a bally ass of myself by offering probably trash to educated people?"

"I will tell you all I know about your pictures, if that is what you mean," said Quarren, much amused.

The knock from Mr Charles came up to make his adieus.

"Good-bye," he said to Quarren. "I'm off to Newport to-morrow. office," said Quarren. "You can store them there if you like, without charge."

"Besides, if there's genuine, there will be an duty to pay," explained Sir Charles.

Dunkmere sucked his cigar but made no comment; and the game went on, disastrously for him.

Quarren said casually to Sir Charles:

"I suppose you will be off to Newport soon?"

"Tomorrow. When do you leave town?"

"I expect to remain in town nearly all August."

"Isn't that rather hard?"

"No; it doesn't matter much," said the busy indifferently.

"Many people are already on the wing," observed Lucy.

"The Cubleras have gone, I hear, and the Vernons and Mrs. Sprowl," added O'Hara.

"I suppose the Wycherlys will open Witch-Hollow in June," said Quarren carelessly.

"Yes. Are you asked?"

"No."

Mad About Aviation

"Doubtless you will be," said Sir Charles. "Jim Wycherly is mad about aviation and several men are going to send their biplanes up and try 'em out."

Who's Who in "The Streets of Ascalon"

STRELSA LELDS—A charming young widow, who comes to New York and is sponsored by one of the leaders of society.

RICHARD QUARREN—A gifted young idler, who falls in love with Strelsa.

LANGLY SPROWL—A multi-millionaire, who has determined to marry Strelsa, and who has explained his unsavory past to her by a seemingly frank talk.

SIR CHARLES MALLISON—A rich Englishman, who has long hoped to win Strelsa's heart.

MARY LEDWITH—Who, betrayed by Sprowl, at last sees the good in Chester Ledwith, the husband she tossed aside.

THE EARL OF DANKMERE—Who brings over a lot of family pictures and incidentally starts Quarren on the road to usefulness.

MOLLY WYCHERLY—A great friend of Strelsa's, who breaks to Quarren the news that the young widow has lost all her money.

MRS. SPROWL—A Fifth avenue dowager, who undertakes a matrimonial campaign for Strelsa, hoping to marry her to Sir Charles Mallison.

A Spirited and Swiftly Moving Romance of Hearts and High Society, by the Greatest Living Master of Fiction

And—I—promised to ask you to come with me."

"Where?"

"Mrs. Sprowl told me to bring you. You know how informal she is."

Quarren, surprised, glanced [illegible] Sir Charles. "I don't [illegible] the frisky wants to," he said.

"If she didn't she wouldn't have made me promise to bring you. She's that sort, you know. Won't you come? I am sure that Mrs. Leeds, also, would be glad to see you."

Quarren looked at him coolly and unpleasantly in the eyes.

"Is it by Molly Wycherly's theft" he asked, almost insolently.

Sir Charles reddened;

"she asked me to say so to you. I heard from her this morning; and I have fulfilled her request."

Very White.

"Thank her for me," returned Quarren, level-eyed and very white.

"Which means?" insisted Sir Charles quietly.

"Absolutely nothing," said Quarren in a voice which makes enemies.

The following day Sir Charles left for Newport, where Mrs. Sprowl had opened "Skyland," her villa of pink Tennessee marble, to a lively party of young people of which Strelsa Leeds made one. And once more, according to the newspapers, her engagement to Sir Charles was expected to be announced at any moment.

When Quarren picked up the newspapers from his office desk next morning he found the whole story there—a story to which he had herein [illegible] accustomed.

But the next day, the papers repeated the news. And it remained, for the first time, unconfirmed by anybody. All that morning he sat at his desk staring at her picture, which, with a half-tone of Sir Charles in the uniform of his late regiment, had once more appeared in the first marriage with all [illegible] of modern and disgraceful [illegible] fulsome columns celebrating her beauty, her popularity, her expected engagement to one of the wealthiest Englishmen in the world.

He read, also, about Sir Charles Mallison, V. C. — the long record of his military exploits, his wealth and the dignified simplicity of his life. He read about his enormous popularity in England, his [illegible] but unostentatious charities, his political and social status

His Memory

To Quarren it all meant nothing more than a stupid sequence of printed words; and he dropped his blond head into both hands and gazed out into the sunshine. And presently he remembered the golden dancer laughing at him from under her dainty mask—years and years ago; and then he thought of the young woman whose smooth young hands once seemed to melt so sweetly against his—thought of her golden hair, white with violet, and her hair and mouth and throat—and her cheek faintly fragrant against his—a moment's miracle—and then, the end——

He made a quick, aimless movement, as though impatiently escaping sudden pain; cleared his suna-dazzled eyes and began, half blindly, to turn over his morning's letters—circulars, bills, business matters—and suddenly came upon a letter from [illegible]

For a while he merely gazed at it, incredulous of its reality

Then he opened the envelope very deliberately and still, scarcely convinced, unfolded the scented sheet of note-paper.

Dear Mr. Quarren,

[illegible] first page of every newspaper in town—stared at it, and at the [illegible] of Mrs. Sprowl and Miss Strelsa Leeds.

The Wild Goose

By Gouverneur Morris

This romance has been made into a stirring motion picture by Cosmopolitan Productions under the masterly direction of Albert Capellani.

Story Up to Date

Francis Manners, an architect and artist of promise, is at work in California while his beautiful wife, Diana, and their small girl, Tam, are in the East. He gets a letter from Diana and begins to suspect all is not right. On his return home, Frank finds Diana is in love with Ogden Irvin. Frank gives grounds for a divorce. Mary Hastings falls in her plea to Diana to give up Penn and return to Frank. Diana gets Mrs Herriot and is awarded heavy alimony and the custody of Tam. Frank takes Mrs. Herriot to the country and sees her as a model. He tells her he is like the wild goose who has lost his mate—he can never love again. He describes how he would commit suicide if he ever wanted to. Mrs. Herriot reads of the approaching marriage of Diana and Ogden Penn.

DELANCEY STAINS came and sat on the arm of [illegible]

"Elaine," he said, "you will do a wise pleasure, of course. What you give me never seems to settle down to a choice between two men. I intended to do something rather handsome for you. Don't forget that in your calculations."

"There are no calculations in this, Delancey. The man I love is facing peril, and I've got to see him through."

"Even if it costs you ten thousand a year?"

She looked at him steadily

"Yes, Delancey. Even if it costs me ten million a year. I think I can help him and I've got to try."

After that neither of them spoke for some time. Mrs. Herriot broke the silence.

"You've no cause to feel jealous" "But I do," he said. "And it's hell [illegible]

[illegible] and a frock coat.

"Are you going to the wedding?" she asked.

"Yes, and if I don't hurry . . ."

She rang. Frank Manners' door-bell sounded and Delancey Stains [illegible] again. She kept ringing it [illegible]

Husband's Fight to Keep Love of Fickle Wife

[illegible] hours. She knew that he wasn't dead, because from time to time she would hear the sound of his well-known footsteps. Every now and then she rested a little while, sitting on the top step of the flights which wound around the elevator shaft.

[illegible] was going to push the bell again the door was violently opened. But the anger in Frank Manners' pale face died as he saw [illegible]

She looked tired out. And the tears were streaming down her cheeks.

"Why, you poor little thing," he said. "You poor little thing"

She snuffled once or twice, and wiped the tears from her eyes.

"I—I came to tell you something—Frantsy," she said "I know you'd be feeling terrible—and I thought if I could make you laugh" . . .

He made her sit down and he brought her a glass of water.

Her Little Joke

"Drink that," he said. "And then for God's sake make me laugh."

"You see," she said presently, "I know you feel terrible, and I thought that maybe you could stand [illegible] Ogden Penn is awfully stuck-stunned—just like a woman, and—and anyway."

He did laugh, but a harsh, ugly laugh in the top of his head. It was [illegible] on the verge of hysterics. She watched him in an agony of pity and fear. But her mind worked and she considered what she should do next to relieve the tension which threatened to snap his nervous system to pieces.

An Ultimatum

He walked slowly back into the bathroom and emerged in a moment, slowly removing his coat from a [illegible]

himself for a moment in a mirror, and then turned to Mrs. Herriot.

"Are you dining with me tonight or not?"

The tears began to run down her cheeks.

"Please be generous," she said. "I'll come if I can. But if I find him and he needs me—don't you see I just couldn't come?"

"If you are not there at eight sharp" he said, "I'm through with you."

He turned and without another word walked coldly and definitely out of the room

It is perhaps curious to think that during the next hour he had said the silliest things to her in a sort of baby talk.

Mrs. Herriot dressed and drove at once to Frank Manner's studio. Failing to find the right silver in [illegible] she went [illegible] out into the driver's hand, and when she saw the look of astonishment that came into his face she permitted herself to wait for the change, she smiled and thought: "It's all relative. If my darling needed me to him for a short ride. What would he think if he knew that it was costing me ten thousand a year?"

A Noble Effort

She entered the studio building carrying her brave little head high. And she almost collided with Peter Manners.

"Why, hello!—" he exclaimed.

"Oh, Mr. Manners, you've been with Frank. How is he?"

"He didn't want me," said Mr. Manners. "Poor fellow. He kicked me out."

Stocks Weak in New York; Call Money Opens at 5½%; Exchange Rates Lower

FINANCE AND BUSINESS

By B. C. Forbes

Money is the most coveted and the least understood thing in the world. What goes on inside of a bank is as much of a mystery to the man in the street as what is done to coal tar to transform it into colors of wonderous hues, into sweet-smelling perfumes and into a thousand other articles.

This ignorance of money and banking contains elements of grave danger. Without some elementary knowledge of how money is used and how banks function to furnish credit, the life-blood of commerce, there can be no intelligent understanding of how the business of the country is carried on. In the absence of such understanding, demagogic politicians and others are sometimes able to attract blind support for some plausible, mischievous scheme designed to take away from those who have and give to those who have nothing.

To stand in contrasting this ignorance was recently emphasized in this column. It is gratifying to note that the matter is receiving attention and that at least one comprehensive plan has been formulated by the nation's bankers.

Quite fittingly, the largest national bank in the country has taken a conspicuous lead in interpreting very clearly to the public the services rendered by a bank. The National City Bank of New York has been running full page advertisements in the metropolitan newspapers for the express purpose of giving the country and the people insight into the functions and workings of our financial institutions. The full page articles are written in language that the teamster, the clerk, the carpenter, the baker, the stenographer, the factory worker can understand. Being given such prominence, these attractive A B C essays on how banks help to keep men employed, to keep factories busy, to enable the farmer to finance his operations, to develop the nation's resources etc., etc., etc., are bound to be read by a great many people who need just such information.

"Banks on wheels" were introduced by enterprising American financial institutions to serve our soldiers on the French battle front. There is now a vigorous movement to bring banks to the doors of the people, by opening branches at thickly populated points. For example, there has been a veritable invasion of the busy Forty-second street section of New York by the most powerful institutions in the financial district. The National City Bank and its affiliation, the National City Company, have opened handsome quarters to cope with the growth here. So has the largest trust company in the country, the Guaranty Trust Company. So has the Equitable Trust Company. S. W. Straus & Company, who furnish so much money for mortgages to facilitate building, have opened an imposing building in this district. One of New England's most famous investment houses, Kidder, Peabody & Company, have just started a branch at Forty-second street, while other financial concerns who have taken similar action include Harvey Fisk & Sons, Merrill, Lynch & Co., Python & Company, Lyman D. Smith & Company, Mund, Rogers & Stackpole, Arthur Lipper & Company, Gilchrist, Giles & Company.

An excellent plan for making the coming generation familiar with how banks help to bring prosperity to the country has been formed by the American Bankers' Association. I have just received a letter from John H. Puelicher, chairman of the committee on Public Education, and one of the most progressive and public-spirited bankers in the country. After mentioning that the purpose is "to take the mystery out of the banking business," he says:

"The committee feels a clear understanding of the functions and usefulness of banks, as well as a comprehensive knowledge of the basic principles of economics on which banking, and all other business is based, is a fundamental need of American citizens.

"After much thought and discussion it has been decided that this work can best be accomplished first instructing the youth of America, and through them their parents. The plan adopted proposes talks to the pupils of the seventh and eighth grades of the common school and pupils of the high schools of commerce and explaining the objects and methods of banking.

"In order that the work may be uniform throughout the country, ten lecture outlines have been prepared, one lecture to be given each month of the ten months of the school year, starting September, 1921. These lectures are to be given by the banker himself, or his cashier, and the speaker, as part of the program, will invite the pupils of the school to his bank on a day that they may visualize the operations described. The talks will be quite simple in character and will be frequent use of examples and illustrations with local color will be urged. Thus it is proposed to take the bank to the school and the school to the bank.

"It means building good citizenship. In America the man who is willing to work and willing to save are certain of success. A part of success concerns itself with saving and using the instrumentalities which a bank offers."

All of us can do something to bring about a better understanding not only of banking, but of the workings of business in general. If we will only take the time and trouble to correct, very tactfully, the false and unfriendly opinions occasionally expressed to us by those who have not had the opportunity to become well informed.

STOCK REACTION BUOYS HOPES OF TRADERS

Drift, However, in Many Lines Appears to Be in Direction of "Bread Line"

By C. B. EVANS

Chicago, July 8.—The sharp reaction in the stock market on Wednesday and the satisfactory maintenance of prices today near top levels have given traders in this part of the country a good deal of cheer.

One of the reports in circulation among traders is that J. P. Morgan & Company are buying back railroad stocks bought for them before the war for European customers, unloaded on a grand scale in this country when the war broke out.

This, if correct, is highly important and may explain the financial mind to stand against any which was raised today that might have been disturbing in character, it is pointed out.

In conversation with a seasoned and conservative business man of this city the question was asked: "Will there be a bread line in Chicago next Winter?"

The man became a little nervous, for he knows what is going on in the inner circles of business and what comes in touch with many people of the "laboring" class.

"The drift in many lines is in the "bread line" direction, and the long rows of men and women at the windows of the savings banks would suggest that money is being withdrawn for living expenses. Too much stress, however, must not be laid on this evidence, as this is the time of the year for drawing interest.

"JOBLESS" INCREASING

The fact, however, that large numbers of people are losing employment is well known, and always there is a great percentage of workers who do not save any money.

There is coming to an unturn in some kinds of trade, and doubtless there will be a revival in business articles in the Fall, but there is yet a great deal of liquidation in coming and it will not end with the game. Iron and steel interests have much to do in the matter of price and wage reduction and in the dismissal of men. If the iron and steel trade reaches a lower level, that will greatly unpleasant conditions in other lines.

To arrive at a conclusion in which men will be safe for food in considerable numbers we must have a more thorough knowledge of the financial conference than we have yet had. Also we must have something more convincing a panic than we have yet experienced; that is some shock which will give a jar to all business. Such a shock is not in the market, which has thus far escaped anything that can be called a panic, and if as is believed the great danger has gone by.

But it should be remembered that it is a generally weakened condition of affairs that affords the giant panic his best opportunity. Weakness is apparent in all sorts of directions, in investment values, losses in merchandising, waste of wealth in war, foreign competition of other countries in international commerce, and a relaxation of energy among business men such as has rarely been seen in our history.

LOWER BUSINESS MORALS.

Also there is a degradation of commercial morals. One cannot fairly say that Americans are more dishonest than at one another than ever before, for such comparisons are out of the range of possibility, but a spirit has been in many directions a serious lapse from fair play.

At certain centres, notably Chicago one sees the old Ross Tweed principle of politicians enriching and aggrandizing themselves at the expense of the people. In our national government the tremendous scale of expenditure necessitated by the war and the utter carelessness over the outlay of money that was practicable have bred a feeling among large numbers of people that whatever they can get out of the government is fair plunder.

The trade unions are led largely by men unquestionably belonging to the criminal class. This has been shown in various ways in this city and elsewhere.

"Little better are the promoters and many belonging to the employer class," says one. "No better," says another. Certainly a weakening of the moral fibre of business is contributory to misfortune. The tribulation has to come in time.

The man of big income, whether honest or dishonest, is far less a factor in the general strength of business than formerly, for the bulk of his income is taken away in taxes and he has little motive for going into any constructive undertaking while putting his hundreds of dollars per day into the government treasury.

We have gone by some of the most alarming conditions in American business, but we cannot assume that because prices are down and because we have that grand protection, the Federal reserve system, we may close our eyes to the certainty of further panic.

Copyright, 1921, Public Ledger Co.

Wall Street Briefs

Investment of July interest and dividend disbursements is helping the bond market. In the full trading days bond sales totaled $76,665,000 against $54,180,000 for the preceding five days.

The extensive Montezuma bought about $2,525,000 in gold to North, Loeb & Co.

The New York Curb Exchange has extended to the list $25,000,000 Canadian Northern Railway 20-year 6% per cent. gold bonds due July 1, 1946, when issued.

Vice-President Mitchell of the Canadian Northern predicts Western Canada's 1921 crop will be the largest by five to seven hundred thousand tons wheat should be harvested.

For the fiscal year ended with June 30 customs receipts amounted to $14,448,821,248 internal expenditures of $14,397,964,859, leaving a surplus of less than $250,000,000.

The New York Stock Exchange reports for half of this year's operation during the first 1929, sales from 1st to 15th inclusive of 16,916,480 shares against 126,149,900 in the corresponding time last year.

Chicago Grain Market

Chicago, July 8.—Wheat opened 1½ higher. Corn was ½c to ¾c lower. Oats were ½c to ¾c lower. Provisions were lower for lard and higher for ribs. Opening prices were: Wheat—July, 1.15½; September, 1.16½; December, 1.19½. Corn—July, 55¾; September, 58¾; December, 60¾ to 60½. Oats—July, 35¾; September, 35¾ to 35½; December, 36¾ to 36½. Lard—September, 12.70 to 11.00. October, 11.35 to 11.17. Ribs—September, 10.50 to 10.47.

U. S. RUBBER OFF FOUR POINTS AT LOWEST

Large Losses by International Harvester, Chandler, Mexican Petroleum and Other Issues

By W. H. ROSS.
Financial Editor.

Stocks were weak in New York at noon, prices being lowest in the second hour. There was a slight rally at the end of that period. Studebaker, International Paper, International Harvester, U. S. Rubber, American Sugar, Mexican Petroleum, Sears Roebuck, Chandler, Famous Players and Stromberg. They were down to nearly six points at one morning lowest. Steels and rails averaged a little lower. Trading was fairly active, 670,000 transactions approximating 40,000 shares. Call money opened at 5½ per cent. Foreign exchange rates were down, early quotations being demand sterling 3.93 9-16, off 60 points; cable 3.97¾, off 60@1; fire 3.77⅞, off 60@1½; marks .0122⅜, off .0060¾.

The market had a weak start, declines being the rule at the opening. In an hour's time, however, initial losses were common was an exception. It began with a drop of more than four points, declining to the lowest level of 1917. It regained part of the loss on a general rally, but before the end of an hour was heavily offering again. Mexican Petroleum was weak, opening 3 points lower, but showed little reacting after a complete recovery. Sugars sagged from fractions to six points, the latter in the case of American Sugar. Cuba Cane preferred established a new record low stock, selling at 69 at the start and yielded again after the brief comeback. Studebaker was the only active industrial and held part of its advance. The slump of U. S. Rubber was due to the passing of its common dividend. The usual distribution will be made on preferred. Its quarterly earnings were not far from the first level.

CHARACTER OF BUYING.

It is said that price improvement this week, which was spectacular on Wednesday, is due mainly to covering by the short interest. It is believed to have been on a very extensive scale. One operator alone is said to have bought 200,000 shares to rectify his position. That the market is much different technically than it was a week ago is clear, but some of the buying is described as representing accumulations by investors who have become weakness of American Sugar was in the face of the advance in the price of refined from 5.40 cents to 5.50 cents, and its success in several lawsuits. There was considerable borrowing demanded for United States Rubber today, but not probably financing flat. The Federal Reserve system's reserve ratio receded a fraction during the week ended July 6, standing at 85.0, as compared with 60.8 on June 29. Boston reported a ratio of 72.8, and New York at 68.8 compared with 70.7.

$5,000,000 LOAN TO EXPORT COTTON

Washington, July 8.—A loan of $5,000,000 to enable the exportation of 225,000 bales of cotton from the United States to Europe has been approved by the War Finance Corporation, Eugene Meyer, director of the corporation, announced. The loan is for one year, at 7 per cent. interest, and is made to the Staple Cotton Cooperative Association of Memphis, Tenn. The association is said to have a membership of more than a thousand.

U. S. RUBBER PASSES COMMON DIVIDEND

New York, July 8.—The United States Rubber Company passed payment of the quarterly dividend of 1¼ per cent. on the common stock due at this time. The regular quarterly dividend of 1¾ per cent. on the preferred stock was declared.

Railroad Traffic

During June the Chicago & Northwestern Railway handled 137,881 cars, compared with 154,810 in June, 1920, a decrease of 16,929. For the first six months of this year were 876,920, compared with 1,000,800 in 1920. In June loadings decreased 23,041 to 124,627. In June Baltimore & Ohio loadings were 107,721, a decrease of 15,584.

Great Conflagration Threatens Canada

Montreal, July 8.—Eastern Canada is threatened with the greatest conflagration in its history unless rain falls within forty-eight hours. With the temperature as high as 105 degrees in northern Ontario and dozens of sporadic blazes reported, many towns and thousands of square miles of standing timber are in danger. Hundreds of men are at work in the woods in an attempt to check the more serious fires, but if a high wind comes up before it rains they will be helpless.

Confronting an important divisional point on the Canadian National Railway, is reported to be in grave danger from brush fires burning in the outskirts of the town. Serious fires also are reported from Nova Scotia and New Brunswick, but so far as is known no lives have been lost.

INTERNATIONAL PAPER COMPANY

New York, June 29th, 1921.

The Board of Directors have declared a regular quarterly dividend of one and one-half per cent. (1½%) on the preferred capital stock of this Company, payable July 15th, 1921, to preferred stockholders of record at the close of business July 5th, 1921.

GWEN SHEPHERD, Treasurer.

New York Stocks

Prices on the New York Stock Exchange from the opening until 1:30 p. m. had the following range:

Stocks	Open	High	Low	Latest
Ajax Rubber	10½	11¾	10½	11
Allis-Chalmers	32	32	31	31
Allied Chemical	39	39	38½	38½

Railroad Items

The New Haven road extended $3,777,841 on maintenance of way and structures in May, as compared with $3,508,604, a decrease of $731,237.

May maintenance cost Texas and Pacific $1,344,000, a decrease of 40 per cent. and Southern Pacific lines $3,508,604, a decrease of 43.4 per cent. of gross, 44.1 per cent. net, as compared with 43.1 per cent. and 50.8 per cent. in January.

Directors have been authorized to issue $10,000,000 debt notes under a plan to refund $10,000,000 of maturing notes secured on obligations to the United States now held by the road.

Receiver C. E. Schaff has been authorized to issue $1,500,000 Missouri, Kansas & Texas of Texas certificates to mature in two years.

Minneapolis & St. Louis has been granted authority to issue $1,500,000 receivers' certificates and $1,582,000 equipment trust notes and bonds. Dividends are payable to stockholders of record as of June 30, 1921.

LACK OF BANK LEADERSHIP DEPLORED

"Where Is There a Morgan or a Near Morgan?" Queries Spillane Informant

By RICHARD SPILLANE.

Philadelphia, Pa., July 8.—"Tell me," said a prominent industrialist, "who is the leading banker in America. You cannot. There is no leader. We are like an army with a lot of colonels and no general. There isn't a banker in America today who stands head and shoulders above the rest. There hasn't been since Morgan died.

"If there is no leader we should find one. New York is the financial centre of the world. Apparently there is no one in the entire country there who measures up to requirements. Is there in the House of Morgan? Davison has not been particularly active since the war. Neither has Stettinius. Where is a bigger figure when president of the United States Steel Corporation going to the House of the Twelve Partners. The present J. P. Morgan has not the ambition and spirit of his father. Lamont is able, but is more of a newspaper man and merchant perhaps than a banker.

ABOUT OTHER BANKERS.

"Of the First National officers, George Baker is too old to do more than sit tight.

"Of the Kahn-Loeb group, Otto H. Kahn is finely fitted for the role of leader and it opened unchanged and advanced 1 cent to 49 cents. Gains by other issues at the end of an hour included Denbigh 1 cent at 7 cents, Merle Divide 1 cent at 4 cents and Boston & Wyoming 16 cents at 81 cents. Among losses were Crystal 11 cents at 23 cents, Imperial half a cent at 5½ cents and Arme Coal 1¼ at 1¾. Alpha had lost its opening gain of a cent.

Dividend Declarations

Equitable Trust Company, as distributor of dividend on Steel Trades Securities Corporation announced dividend of five hundredths shares declared is equal to $1.85% on each American share. Dividend is to be paid July 20 to stock of record July 12.

Submarine Signal Company declared quarterly dividend of 1 per cent ($25 cents) per share, payable July 21 to stock of record July 15.

Worcester Mills declared quarterly dividends of 2½ per cent. on common, payable September 1, stock of record August 20, and 1¾ per cent. on preferred, payable July 20, stock of record July 20.

S. H. Kress Company declared quarterly dividend of 1 per cent on common, payable August 1 on stock of record July 20.

Corporation Reports

Sales made by the S. S. Kresge Co. amounted to $3,000,000 for the month of June, a decrease of $222,161,194 in 1920. An increase of 9.17 per cent.

For the March quarter of this year net sales were $10,100,000, a decrease of $2,000,000 as compared with 1920. Net profit $143,778, gross income

BRIDGETENDER IS ROBBED BY AUTO BANDITS

Trio Choke and Bind Vermont Man, Cut Phone Wires and Flee

Burlington, Vt., July 8.—R. D. Hill, bridgetender and toll gate keeper at Isle Lamotte, was held up at the point of revolvers by three men, who were traveling in an automobile, and robbed.

The trio arrived at the toll gate about 2 o'clock in the morning. They drew their car up across the road and when Hill went to them to ask for the toll fare, they drew guns on him. One covered him with a gun while the other two choked, bound and blindfolded him. He was locked in the toll keeper's building, the telephone wires were cut and then the robbers rode away in the direction of Alburg. The amount of money secured was small.

:-: HAPPENINGS IN THE WORLD OF MOTION PICTURES :-:

By FRIEDA DAVIS.

HOW many of the fans have complained that the usual five or seven-reelers are padded! How many of them have declared that the stories would have made good two or three-reel specials! The two-reel film is coming into its own not only as between-features comedy or travel special, but as a regular dramatic picture.

Bertram Bracken of Los Angeles has grand faith for productions of two-reelers on a serious scale. There have been some in the industry who shrugged their shoulders and even went so far as to smile. But Bracken is "they" went ahead. The first two productions of his studio have been shown publicly in the West and are causing the shruggers to stop and think.

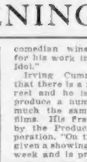
"THE NORTHERN TRAIL"

"The Northern Trail," by James Oliver Curwood, is one of these features, while the other is "Hop-Policeman and the Baby." Mr. Bracken is almost perfect his theory and to him such plots as Poe's "Raven."

Mack Sennett, to whom, of course, the two-reel is nothing new, is going to make a series of specials of that length starring Ben Turpin. The cross-eyed comedian wins this recognition for his work in "The Small Town Idol."

Irving Cummings also claims that there is a future for the two-reel and he is making plans to produce a number of them very much the same as the Bracken films. His Fras'-effort, sponsored by the Producers' Security Corporation, "On the Trail," is being given a showing on Broadway this week and is proving popular.

BACK TO ITHACA.



IRENE CASTLE

IRENE Castle is deep in plans for a vacation at her home in Ithaca as soon as she finishes work in her W. W. Hodkinson picture. She is one of the attractions — unofficially — at Delmonico's nearly every day, where she is practicing up an her dance steps for this film, a story of Broadway life.

THE CHINESE LAUGH.

PAULINE BUSH, one time well-known movie star, has gone through the Far East in the interest of pictures. There she is busy gathering material and atmosphere for a number of stories of that fascinating land and its people.

The most noticeable thing about the movie situation there, she writes, is the reception given American films. Even the American and English residents laugh uproariously at the average director's and story's conception of life in China. They show, these people argue, the most absurd ignorance of Eastern customs and thought.

"The Americans and British here," says Miss Bush, "want life, life, life—something approximating their own experiences, not endless dramatizations of patent-leather, powder-puff inanities. The natives, too, resent a note of patronage toward them, which runs through the books and plays."

QUITE ACCORDING TO HOYLE

ALBERT CAPELLANI is taking no chance that even the smallest detail of the laboratory settings of Marion Davies' new production, "The Young Diana," adapted from Marie Corelli story, can be found faulty with by anyone in the audience. To make a "fool-proof" picture is the aim—or one of the aims—of every director. There are few things that no delight a movie-goer than to find fault with some insignificant trifle in the background that may be out of place or scientifically incorrect.

MARION DAVIES

A prominent New York chemist has been wrested from his test-tubes and scales long enough to supervise the setting of the laboratory scenes where Miss Davies, in the make-up of a "maiden lady" of very uncertain age, is given an elixir that recovers her lost youth. The scientist was rendered forsen with Joseph Urban, the scene painter, and together they worked out a set that would delight the heart of Eidgeon, himself. Supporting Miss Davies are Pedro de Cordoba, Forrest Stanley, Macklyn Arbuckle and Gypsy O'Brien.

IT'S A GIRL.

HOUSE PETERS is parading the streets of Hollywood these days with the widest smile in the community. The cause of it? A ten days' old daughter. Whether she will continue in her father's footsteps and become a leader in the picture-ing drama, or whether she will be a non-professional like her mother will be left to her own judgment.

"When she gets old enough she may be interested in camera," dramatically announces her proud father. Then he adds with a grin, "If I'm any judge of her sex, she will anyway!"

BACK TO "THE COAST"

NOW that Tex Rein's all over, Russell Montana feels that there's nothing in New York that can keep him from the Hollywood colony. He left for the West yesterday. "Bull" Montana, the heavy who figured largely, literally, in Doug Fairbanks' earlier films, declares that now that Wallie Reid is in the East working he, "Bull," has no competition in the "beauty line" out there. Hence his early return to the haunts of movie-makers.

Montana has been signed up to appear in a Cecil DeMille film to be produced early in the Fall. Meanwhile he will probably take a short engagement to fill up his months during the Summer.

CAMERA CLICKS

LON CHANEY and Betty Compson, both of "Miracle Man" fame, are playing together in Miss Compson's own production, "For Those We Love," to be released in the Fall by Goldwyn.

BEBE DANIELS, after a great deal of thought on the subject, took the final plunge the other day and had her hair bobbed. "I've just come out of jail," she exclaimed. "Why stop at anything now?"

GLADYS GEORGE has deserted the screen for the footlights and the sea of faces across the edge of the stage. She is playing a few weeks' engagement at the Alcazar Theatre in San Francisco.

SPEED UP WORK ON PLYMOUTH PAGEANT

Dress Rehearsals Put Finishing Touches on Fete to Open Next Wednesday

All activities connected with the Pilgrim Pageant, which has its first performance at Plymouth next Wednesday, are being speeded up for the final week of preparation, according to a statement issued by the Pilgrim Tercentenary Commission, after a meeting held at the offices of the Commission in the Treasurer's building, at which reports of final arrangements for the pageant, lighting arrangements, the statement said, were now completed under the supervision of Munroe H. Pevear of Boston, and no powerful lights will be so arranged that any portion of the immense pageant field could be illuminated at will, the remainder of the field being left in shadow.

Japan's Huge Naval Outlay

Because of Her Low Labor Cost Her Expenditure Far Exceeds Ours

Copyright, 1921, Star Company

An Associated Press dispatch, accurate enough in statement, is likely to give American readers, at least, a very mistaken idea of the extent of the naval preparations now in progress in Japan.

It reports the Japanese naval appropriations for the coming year at 500,000,000 yen, and many American newspapers, accepting the current quotations as to the value of the yen, report Japan as about to spend $250,000,000 on her navy.

While so moderate an expenditure is contemplated by our Pacific rival, it is asked, why should we demand the expenditure of more than $400,000,000?

But into this question enters at once the relative purchasing power of the money involved. In international exchange the yen may be equal to 49 and a fraction cents of American money. But Japanese labor in building warships is paid about one-fifth as much as American labor.

For all supplies entering into the construction of warships, or the manufacture of ammunition and armament, and particularly for all expenditures having to do with the maintenance and upkeep of her fleet, the yen is at least equal to $2 spent on the American navy.

The Japanese bluejacket is virtually unpaid, and the expense of the whole roster of commissioned officers is trifling as compared with that of the American navy. Sustenance—rice and fish—makes little inroad upon the Japanese naval funds. Everything manufactured in Japanese workshops and navy yards costs an infinitesimal part of what an equal quantity of supplies or of construction would in our factories.

The measure of naval preparation is not fixed so accurately by comparison of amounts appropriated as by results attained. The Japanese naval appropriation, so far from being less than ours, is, measured by results, two and one-half times greater.

And why this feverish building of warships and enrollment of fighting? There is nowhere talk of danger of any sort to Japan. Her navy seems to have but one purpose—and that is aggression. And her ally, England, has just sent her 100 British experts to teach her flying men the art of making war from the air.

Supervising Charity

Suggestion for Preventing Duplication and Imposture

Copyright, 1921, Star Company

How to prevent waste by duplication, imposture and profiteering in charity has long been a crying public need.

The Brooklyn Federation of Jewish Charities, after careful study by a special committee, has proposed a solution in part.

It would have the Legislature create a representative central body with power to prevent or prohibit "drives" of a promiscuous nature, to attest the worthiness and timeliness of campaigns for funds by charitable enterprises which pass the muster of its scrutiny, and to fix the time when these respective drives shall take place.

Its executive secretary, Max Abelman, truly points out that:

> To give to charitable causes unintelligently is as bad as not giving at all. Unintelligent and heedless charity creates impostors and paupers. The public should and must be guided so that the good may be conserved and the bad eliminated. Haphazard philanthropy is a peril, mushroom organizations a waste and proper supervision an economy.

The practical question is not the need of drastic supervision—that is generally conceded. It is how to exercise such control safely and fairly.

Mr. Abelman suggests that it be lodged in representatives of the State Board of Charities, Department of Public Welfare, Merchants' Association, Chamber of Commerce, Board of Trade, Federation of Jewish Philanthropic Societies, Bureau of Jewish Social Research, Association for Improving Condition of Poor, State Charities' Aid Society, Society St. Vincent de Paul.

Is there a better plan?

New German Ambassador

Germany Does Not Know Us Very Well

Copyright, 1921, Star Company

Germany is making up her mind what kind of Ambassador to send us, now that peace is declared. In Berlin it is suggested that she ought to send a radical, or at least an advanced liberal, to this glorious democratic republic.

Somebody in Germany doesn't know much about this nation. Let them pick out a man who thinks that no government ought to own its own railroads, or its own shipping, because the government has not the ability or honesty to manage them. It may be hard to find such a man in Germany, where the most highly efficient government ownership of railroads has prevailed for years. But they may be able to find the man in one of the old Ruhr mine owners who still refuses to meet or talk with his workmen, in spite of the revolution.

If Germany doesn't realize that this nation is the reactionary, conservative nation of the world, not ending, but just beginning its period of government under industrial feudalism and organized capital, Germany doesn't know much.

Would Bring Prices Down

At the beginning of a year no manufacturer knows what his excess profits for that year will be.

He guesses, marks up prices and then, to be safe, marks them up some more.

In this way you pay 23 per cent. for taxes when you ought to pay not more than 4 or 5 per cent.

A 1 per cent. sales tax instead could be reckoned accurately and would bring prices down.

"How Is Old Ireland?"

That Is What We Asked Mr. James B. Connolly, Who Knows All About It

If you are one of the many thousands of New Englanders who are long-time readers of the Boston American you know it is not the custom of this newspaper to call attention on THIS page to articles it is ABOUT to print.

If we make an exception in favor of Mr. James B. Connolly's reports about conditions in Ireland it is only because we believe they merit it.

In a very old Irish song, familiar to all, the singer, you remember, tells of meeting Mr. Napper Tandy. The song goes:

And he took me by the hand,
And says he, "How is Old Ireland and
How does she stand?"

That was OUR recent experience with Jimmy Connolly, winner of an Olympic championship many years ago, soldier of the "old" Ninth Massachusetts at Santiago, famous the world over as a narrator of tales of the sea.

You know, of course, his "Out of Gloucester."

Connolly was freshly home from Dublin. He had been in Ireland five weeks. Five RECENT weeks, in a year which may prove to be the most important in Irish history for several centuries.

"How IS Old Ireland?" we asked Jim Connolly, "and how DOES she stand?"

Connolly told us; told us at length; told us so tersely and vividly that it was almost LIKE SEEING THE STORY IN THE MOVIES. An hour, then another hour, went by as a few minutes.

We urged the popular author to put the narrative in written form for the readers of the Hearst newspapers and, knowing that these newspapers have been friendly to the cause of freedom, everywhere, he agreed to do so.

It was our earnest hope that the written story might be nearly as interesting as the story Mr. Connolly talked. It is more so. Connolly is marvellous. He makes you see, hear, feel things as HE sees, hears and feels them. As mere writing alone, no finer story has appeared in any American newspaper in a twelvemonth.

The FIRST of the James B. Connolly reports on Ireland—Ireland today, now, at this minute—will be printed in next Monday's Boston American. A generous instalment of the report—not mere paragraphs, but chapters—will be printed daily thereafter.

We call attention HERE to the Conolly articles in order that they may be seen by every Boston American "regular."

Make sure of the TEUTH about Ireland, from an American everybody trusts, by speaking promptly to your newsdealer. The first of the Connolly articles appears next Monday.

Bay State's Coal Probe

Railroads Probably Will Be Found at Bottom of High Prices

We are glad that Attorney-General Allen and Mr. Hultman, fuel administrator, have decided to investigate the hard coal situation.

It appears that Pennsylvania proposes to levy a tax on hard coal that leaves the State. The unconstitutionality of this scheme would seem quite clear. If it is not unconstitutional it ought to be, for it violates the primary object which the American people had in abandoning the old Confederation and in adopting our present Constitution, which was to prevent the States from raising tariff walls and embargoes against each other.

If it appears to our law officers that this Pennsylvania export tax is unconstitutional, they ought to leave no stone unturned to have it nullified. But the investigation ought not to stop at the export tax. The trouble is deeper and more important than this. The charges made for coal by the coal owners appear to be extortionate. While almost everything else is falling in price coal is threatening to go up and up. There appears to be nothing, at least upon the surface of things, to justify this exception to the trend of economic conditions.

Senator Frelinghuysen of New Jersey suggests a congressional investigation. That is good so far as it goes. But we have a strong impression that the Frelinghuysen bill is very defective in one respect. It requires a reduction in the price of coal during the Summer months and permits that reduction to be recouped by the coal dealers, railroads and coal owners during the Winter. This means a reduction in the price of coal to the well-to-do and even an INCREASE in the price of coal to the poor, who cannot afford to order at one time all their year's coal.

Massachusetts ought not to wait for a congressional investigation. We ought to make one on our own account. Attorney-General Allen could create a name for himself nation-wide if he succeeded in contributing something important to the public knowledge of conditions affecting the retail prices of coal in New England.

We suspect that he would find that the "niggers in the woodpile" down in our hard coal districts are the railroads as they are the colored gentlemen in most of our high cost of living woodpiles.

A General Liked by His Men

It is good to see General Edwards back again in his old command, where everyone likes him. It is also good to observe the return of the day when it is not fatal to a commanding officer to be liked by his soldiers.

We had supposed before the war and for sometime during the war and until we began to get rumors to the contrary that the cultivation of unpopularity with the rank and file as evidence of the efficiency of a commanding officer was confined to the German military system. We knew it was not part of the French system, for we knew that Von Bernardi in his analysis of the French army criticized the comraderie between the French officers and the French soldiers as a point of weakness throughout the French military system.

But it was not long after considerable numbers of our legions reached France before we began to find that the affection of the men for their general was not only considered no evidence of the efficiency of the general, but was considered in some quarters evidence of his incapacity for command. It did not matter that every great general in history was popular with his soldiers, either by nature or by deliberate effort to become so.

But the restoration of General Edwards, we hope, is a restoration of the rule of common sense that it is at least nothing against any man that he is liked by those with whom he has to deal and especially by those whom he has to command.

Spreeing With Our Money

Copyright, 1921, Star Company

DISARMAMENT ought to begin where it is most needed. Let those nations of the Old World, which have shown through the centuries that they cannot be trusted to hold arms, give them up and begin to pay us what they owe us. That is the logical starting place for a new world order. While they're spreeing with our money the United States had better keep its navy ready.

The Old Timers' Club

Do You Remember Way Back When—

Bicycle clubs were numerous and members wore grotesque uniforms, rode high geared machines and congregated in the Fenway nightly near the Muddy River bridge? SOOTHSAYER.

* * *

Court Officer Charley Barnett had all the political information about conditions in the city before any of the big guns got hold of it? JUSTICE.

* * *

John C. L. Dowling of the Boston Finance Commission acted as a "semaphore" at the crossing at Hanover and Court streets? CROIX.

John Keenan of the Boston Charitable Irish Society indexed books at the Boston Public Library in Copley square? EGO.

* * *

Policewoman Agnes Callahan of headquarters passed out books at the West End branch of the public library in the old church at Cambridge and Lynde streets, West End? NODDLE ISLAND.

Join the Old Timers' Club. Initiation — One remembrance in the Boston American. Send them to the Old Timers' Editor.

Why?

Pet Peeves of Patient People

What get your goat today? You'll feel better if you tell the Pet Peeve Editor of the Boston American about it.

WHY do they call 'em "south" paws?—C. N.

* * *

WHY does the bird who never smokes still feel it his duty to accept the cigar offered by the poor salesman?—F. G.

* * *

WHY do the neighborhood kids gather just below my window when I'm trying to get some sleep? —GENE.

* * *

WHY are they called "dishwater" blondes?—GERTIE G.

* * *

WHY do so many girls named "Anna" change it to the more aristocratic "Annette"?—R.

Claim Life and Live It

By Dr. Charles Fleischer

If you are more dead than alive, the fault is yours alone.

More life is yours, for the living. All you need do to have it is to claim life—and live it.

You live in a world of life, which is seeking to make you its channel.

Nature sings, only and eternally, the song of life.

She knows no death, save such as Man, her step-child, seeks to impose upon her.

The Great Teacher, whom his fellow-Jews knew as Jesus and his followers acclaim as Christ, said: I am come that they might have life, and that they might have it more abundantly.

And yet most of us, most of the time, appear to be willing to enter into a conspiracy, with others—and against ourselves as well as others—to rob and to be robbed of Life.

In Curious Ways

We do it in such curious ways, which savor more of ignorance than willfulness or malice!

For instance, we deliberately check, inhibit and repress desires, impulses and even aspirations—not knowing that repression causes reversion, stagnation and even death.

To have life abundant, we must express—just live!

That is the bare and bald statement of psychological fact, a statement which each of us must wisely learn to qualify for practical application.

To "obey that impulse" without restraint may cause sudden death! Such unlimited indulgence in naturalness is likely at least to make you an unsocial, unlivable person, and unfit for publication.

It is a moot question whether loss or gain is greater from expression or from repression. There is no doubt from which of the two there results more of life.

Sense of Being Shut In

Any psychologist or soul-analyst will tell you how much your sense of being shut in or thwarted comes from the constant inhibitions and checks—first, imposed upon you and then made habitual—which, from earliest childhood, has become your way of living.

To be a fair success as an artist in the finest of the fine arts —the Art of Living—you must learn (beginning at any age and continuing to the end) how to express the least and express the most.

Even what is repressed must be given its equivalent in constructive expression.

For that is the way to life—and more life!

DO SOMETHING DIFFERENT

You need a little variation in your life.
Going along the same way year after year makes you prosaic.
You are losing interest in the things which should interest you.
Life is not so attractive to you as it used to be when you were young.
You talk about the monotony of the same old thing day after day.
You don't make any effort to get out of that "same old thing day after day," and you do get so tired of it that your smiles vanish and you lose much happiness that you might otherwise enjoy.
Shake yourself out of the little groove in which you are traveling.
Do something different, if it be only to go up on the north side and back on the south side instead of vice versa.
Stagnation kills body and soul.
Business is not a one-track course, so you are bound to fail if you get "set" in your methods, and you do not want to be sidetracked to allow the more progressive fellow to pass you.
It is true of the employe as well as of the business man—new ideas count big, so gather them and try them out from time to time.

Results to Date of Prohibition

"What Has Prohibition Actually Accomplished to Date?" asked William Randolph Hearst editorially in The Boston American of July 2. One hundred dollars will be paid for the best answer of not more than 150 words.

Alcohol Outlawed

Editor Boston American:

Prohibition has accomplished one supremely important result. It has outlawed alcohol as a beverage. That alone is of incalculable moral and physical benefit.

Prohibition has rendered drinking clandestine. It has swept away the false good-cheer of the saloon. It has put the ban of illegality on liquor.

Many men still drink and will continue to do so—till liquor downs them. But the younger generation is not struggling up, blighted by alcohol.

The old hard-shelled "rummies" will die, the sooner the better. The vigorous young life of America will not languish under the contamination of booze. In a generation liquor, illegalized by prohibition, will be forgotten.

Men have stamped out smallpox, plagues, poisonous reptiles. Now prohibition is stamping out alcohol. More power to prohibition!

Already America is drawing ahead of Europe in mental and physical stamina, as a result of prohibition. *Let us, a sober nation, march on to world supremacy!*

GEORGE ALLAN ENGLAND.

A PROMISE

Gladys—I hope, dearest, that you will never contract any debts.

Jack—Never.

Gladys—Jack, are you sure?

Jack—Positive; I always expand my debts.

AN ASPERSION

Little Dorothy, aged seven, after calling her mother several times during the night and receiving no reply, said: "Mother, are you really asleep or are you just p'tending that you're a telephone girl?"
